APPENDIX.

I.

PROVINCIAL EXAMINATIONS.

THESE Examinations are appointed by the Senate from time to time, upon the application of any City, Institution, or College desiring to be named as a local centre for one or more Examinations; and are carried on simultaneously with the Examinations in London under the supervision of Sub-Examiners also appointed by the Senate.

Candidates wishing to be examined at any Provincial centre must give notice of entry (naming the centre they select, and inclosing their certificates) to the Registrar of the University of London, who will make all necessary arrangements.

---

* The places of Candidates in the Honours Division are determined by their respective degrees of proficiency in the subjects of the Examination taken collectively.

† Certificates are generally ready for issue about a month after the publication of the Classified List of each Examination; and, in the absence of any request to the contrary, they will be posted to the addresses given by the Candidates on their Schedules of Entry.

‡ By the term "Academical Year" is ordinarily meant the period intervening between any Examination and an Examination of a higher grade in the following year; which period may be either *more* or *less* than a Calendar year. Thus the interval between the *Intermediate* Examinations in Arts, Science, and Medicine, and the *Degree* Examinations of the next year in those Faculties respectively, is about fifteen months; whilst the interval between the B.A. Examination and the M.A. Examination of the next year, or between the B.Sc. Examination and the D.Sc. Examination of the next year, is less than eight months. Nevertheless, each of these intervals is counted as an "Academical Year."

A Fee usually varying from 1*l.* to 2*l.* is charged by the local authorities, in addition to the University Fee.

The Answers of the Candidates at the Provincial Examinations are reviewed by the Examiners at the same time with the Answers of the Candidates examined in London; and a List of the Candidates who have passed at each Provincial Examination is published, at the time fixed by the Regulations, at the place where such Examination has been held.

The General Committee shall consider such budget, modify it at its discretion, and report upon it in time for consideration at the meeting to be held for fixing the rates under the provisions of the next succeeding section.

71. The Commissioners in a meeting to be held during the month of March shall consider the budget as modified by the General Committee, and shall pass it subject to such further modifications or additions as may be thought fit. 78. The owner or the person in charge of a carriage or animal liable to a tax under the last preceding section, shall, before the first day of May and the first day of November in each year, forward to the office of the Commissioners a statement in writing signed by him, containing a description of the carriages and animals owned by him or in his charge liable to the tax.

Owners of carriages or animals to take out license.

Such person shall at the same time pay to the Commissioners such sum as shall be payable by him for the half-year commencing on the first day of April or October (as the case may be) for the carriages and animals specified in such statement, according to the rates prescribed in the Fourth Schedule.

Any person who becomes the owner or takes charge between the first day of April and the first day of October, or between the first day of October and the first day of April, of any carriage or animal shall, within a week of his becoming owner or taking charge, send to the office of the Commissioners a similar statement together with the amount payable for the whole of the then current half-year, according to the rates prescribed in the Fourth Schedule.

The Commissioners may, if they are satisfied that any such carriage has not been used within the half-year, or that any such carriage or animal has been kept for only a portion of the then current half-year,

refund, or remit, the whole, or such portion thereof as they may think fit, of the amount so payable.

For the purposes of this section, a livery stable-keeper shall be deemed to be the owner or to be in charge of every animal in his stables.

On payment of tax, Commissioners to grant license.

79. Whenever any person shall pay to the Commissioners the amount of the tax which shall be payable by him in respect of all carriages and animals kept in Calcutta, the Commissioners shall grant to such person a license to keep such carriages and animals during the current half-year ending upon the thirtieth day of September or the thirty-first day of March next after the grant of such license, and no longer.

A license may at any time be granted for any previous half-year for which no license has been taken out on payment of the amount due for that half-year.

Penalty.

80. Whoever owns, or is in charge of, any carriage or animal without the required license shall be liable to a fine not exceeding three times the amount payable by him in respect of such license, and not being less than one and a half times such amount. 81. The Commissioners, at their discretion, may compound, for any period not exceeding one year, with livery stable-keepers and other persons keeping carriages for hire, or animals for sale or hire, for a certain sum to be paid for the carriages or animals so kept by such persons in lieu of the taxes prescribed in the Fourth Schedule.

84. The Commissioners may, at any time between sunrise and sunset, enter and inspect any stable or coach-house or any place wherein they may have reason to believe that there is any carriage or animal liable to taxation;

and if the Commissioners at any time find any carriage or animal in respect of which no license has been obtained, the Commissioners may, if the owner or person in charge of such carriage or animal is unknown, by a written order authorise any of their subordinate officers to take possession of such carriage or animal, and the Commissioners shall make such order as they think fit respecting the custody thereof.

Disposal of carriages and animals seized.

85. If any person within one month establishes his claim to the possession of such carriage or animal, the Commissioners shall order it to be delivered to him on payment of the tax due, together with such costs as the Commissioners may have reasonably incurred in taking possession of, and keeping, the same. If no person within such period satisfies the Commissioners that he is entitled to such carriage or animal, it may be sold for the recovery of the tax and costs aforesaid; and if any person whose carriage or animal has been sold establishes his claim to the net proceeds of such sale, the Commissioners shall order the proceeds of such sale, less the tax due and all costs incurred in consequence of the seizure and sale, to be delivered to such person.

86. The Commissioners shall, from time to time, cause to be prepared and entered in distinct columns in a book to be kept at the office of the Commissioners and to be open to the inspection of any person who shall apply for leave to inspect the same, a list of the persons to whom during the then current period of six months a license has been granted under section seventy-nine and of the carriages and animals in respect of which the same has been granted.

(*c*) the profession, trade or calling, and if the license is a local license the place of business in respect of which it is granted, and the sum paid for such license.

Such license shall have effect and continue in force from the commencement of the year on account of which it is granted until the thirty-first day of March of that year.

Liability and class how to be determined.

89. The liability of any person to take out a license, and the class under which he shall be deemed bound to take out such license, shall be determined in accordance with

the procedure laid down in rule (7) of the Second Schedule.

The Commissioners may, by a notice in writing, require the occupier of any house to forward to them within seven days a list, signed by him, of the names of all male persons residing or carrying on any trade, profession, or calling, in such house, and of their respective professions, trades, and occupations.

Penalty.

92. Whoever, being the occupier of any house, fails to forward such list when required to do so under the last preceding section, shall be liable to a fine not exceeding Rs. 100.

Commissioners to prepare a list of all persons required by this Act to be licensed.

93. As soon as may be after the first day of April in every year, the Commissioners shall prepare a list of the persons licensed for the preceding year under section eighty-eight, which shall state the particulars specified in that section, and such list shall be kept in the office of the Commissioners, and be open to public inspection at all reasonable times.

PART III.—*Of the Registration of Carts.*

Registry and numbering of carts.

94. Every cart kept or used within the limits of Calcutta or Howrah shall be registered in the office of the Commissioners with the name and residence of the owner, and shall have affixed thereto the number of such registration in such manner as the Commissioners shall direct.

Penalties.

95. Whoever keeps or is in possession of a cart not duly registered as required by the last preceding section shall be liable to a fine not exceeding three times the amount payable by him in respect of such registration, exclusive of the amount so payable; and whoever, being the owner or driver of any cart, shall fail to affix the registration number required by the last preceding section, shall be liable to a fine not exceeding Rs. 5.

Fee for registration.

96. The registration of carts under section ninety-four shall be made, and the numbers assigned half-yearly on or after the first day of April and the first day of October in each year, upon such days as the Commissioners shall appoint, and a fee of Rs. 4 shall be paid for each registration.

The Commissioners may in their discretion remit any portion of the fee so payable if they are satisfied that the cart hereinbefore required to be registered, as mentioned in section ninety-four, has been kept or used for a portion of the half-year only.

When any registered cart is transferred within any half-year, it shall be registered anew in the name of the person to whom it has been transferred; and a fee of four annas shall be paid for every such last-mentioned registration.

The total net proceeds of the fees half-yearly received by the Commissioners for the registration of carts, after deduction of the charges incurred on account of such registration, shall be divided between the Municipalities of Calcutta and Howrah, and such other Municipalities adjacent to Calcutta or Howrah as the Local Government shall declare to be entitled to a share in such receipts, in such proportion as the Local Government may, from time to time, determine.

Last three sections not to apply to certain carts.

97. The three last preceding sections shall not apply to carts—

(*a*) which are the property of the Government;

(*b*) which are the property of the Commissioners of Calcutta or Howrah, or of any adjacent Municipalities; or

(*c*) which are kept at any place more than eight miles distant from Government House and are only temporarily and casually used within the Municipality of Calcutta or Howrah.

On failure to register, the Commissioners may seize and sell cart and animals.

98. If any person owns or keeps any cart hereinbefore required to be registered, without having caused the same to be registered, the Commissioners may seize such cart (provided the same be not employed at the time of the seizure in the conveyance of passengers or goods), together with the animals or cattle drawing the same, and may detain them.

And all Police Officers shall, on the application of the Commissioners, seize and detain any such cart, animals or cattle.

If the cart, animals, or cattle so seized be not claimed within ten days, they may be sold by auction by order of a Magistrate, and the proceeds of such sale may be applied to the expenses incurred on account of the seizure, detention, and sale; and the surplus (if any), if not claimed within a further period of twenty days, shall be paid to the credit of the Corporation.

PART IV.—*Of the Tax on Petroleum.*

Levy of a tax on petroleum.

99. The Commissioners in meeting may, with the previous sanction of the Local Government, prohibit the introduction into Calcutta for the purpose of storage therein of petroleum intended for consumption elsewhere, and may thereafter, with the like sanction, levy a tax not exceeding four annas per case of ten gallons on all petroleum introduced into Calcutta for consumption therein.

Rules for taxing petroleum.

100. The Commissioners in meeting may, from time to time, with the sanction of the Local Government, make rules as to all or any of the following matters:—

(*a*) the detention and examination of petroleum introduced into Calcutta for consumption therein;

(*b*) the collection of the tax levied on petroleum;

(*c*) Such other matters connected with the introduction of petroleum into Calcutta for consumption therein as the Commissioners in meeting may, from time to time, think fit to regulate:

Provided that no rule shall render petroleum passing through Calcutta in transit for any place beyond it liable to taxation or to any detention or examination whatsoever under this Act.

And all petroleum introduced into Calcutta, contrary to any rules made under the provisions of this section, may be seized and confiscated.

All petroleum confiscated under this section shall become the property of the Commissioners.

CHAPTER IV.

OF RATES.

PART I.—*Of imposing the Rates.*

Rates.

101. The Commissioners may, as provided in section seventy-one, impose the following rates upon all houses and lands within the town :—

(*a*).—The general rate not exceeding 13 per cent. on the annual valuation.

(*b*).—A water-rate not exceeding 6 per cent. on the annual valuation :

Provided that houses and lands, no part of which is within 150 yards of the nearest stand-pipe or other supply of filtered water available to the public, shall pay 3 per cent. less than houses otherwise situated.

(*c*).—A lighting-rate not exceeding 2 per cent. on the annual valuation.

(*d*).—A sewage rate not exceeding 2 per cent. on the annual valuation.

Appropriation of the Water-supply Fund.

102. The water-rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the Water-supply Fund.

The Water-supply Fund shall be credited with the receipts of the water-rate, with all receipts arising out of the sale of water, and with all miscellaneous receipts connected with the water-supply.

It shall be debited with—

(*a*).—The annual interest on all sums borrowed from time to time, whether from Government, or by way of debenture loan for the construction or extension of water-works for the supply of filtered or unfiltered water.

(*b*).—The annual expenditure requisite for the repayment of these loans, or for the creation of a Reserve Fund for their future repayment.

(*c*).—The cost of maintaining in an efficient condition the supply of filtered water to Calcutta.

(*d*).—The cost of maintaining in an efficient condition the supply of unfiltered water to Calcutta.

(*e*).—The establishments and miscellaneous expenditure necessary for the purposes specified in clauses (*c*) and (*d*).

(*f*).—Such a proportionate share of the cost of collection, of general supervision and of the Head Office, as the Commissioners in meeting may from time to time direct.

Appropriation of the lighting fund.

103. The lighting-rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the Lighting Fund.

The Lighting Fund shall be credited with the receipts of the lighting-rate, with the receipts, if any, arising out of the sale of gas or electricity, and with all miscellaneous receipts connected with the lighting of the town.

It shall be debited with—

(*a*).—The annual interest on all sums which may hereafter be borrowed for the construction of gas-works or for supplying electricity for the lighting of Calcutta.

(*b*).—The annual contributions to the Reserve Fund for the future repayment of such sums.

(*c*).—All expenditure necessary for the efficient lighting of the town by gas, oil, electricity, or any other means.

(*d*).—The establishments and miscellaneous expenditure necessary for the purposes specified in clause (*c*).

(*e*).—Such proportionate share of the cost of collection, of general supervision, and of the Head Office as the Commissioners in meeting may, from time to time, direct.

Appropriation of the Sewage Fund.

104. The sewage rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the Sewage Fund.

The Sewage Fund shall be credited with the receipts of the sewage rate, with the proceeds, if any, arising from the sale of night-soil, the receipts from licenses under section three hundred and eleven, and with all miscellaneous receipts connected with the working of the Night-soil Removal Department.

It shall be debited with—

(*a*).—The cost of the establishments maintained under section three hundred and thirteen.

(*b*).—The cost of maintenance of all public latrines and urinals and of the establishments for their cleansing.

(*c*).—Such proportionate share of the cost of inspecting, maintaining, and cleansing the public sewers as the Commissioners in meeting may from time to time determine.

(*d*).—Such proportionate share of the cost of collection, of general supervision, and of the Head Office as the Commissioners in meeting may from time to time determine.

Appropriation of the General Fund.

105. The general rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the General Fund.

The General Fund shall be credited with the receipts of the general rate, with all moneys paid to the Commissioners in accordance with the provisions of this Act other than those assigned to the Water-supply Fund, Lighting Fund or Sewage Fund, and with such other

moneys received by the Commissioners as the Commissioners in meeting may from time to time direct to be credited to the General Fund.

It shall be debited with all expenditure incurred in accordance with the provisions of this Act other than that debitable to the Water-supply Fund, Lighting Fund or Sewage Fund, and with all other expenditure that may be lawfully incurred by the Commissioners which the Commissioners in meeting shall direct to be debited to the General Fund:

Provided that, when any of the other rates are levied at a maximum, but not otherwise, grants may be made by the Commissioners in meeting in aid of any fund dependent on such rate if the receipts of the Fund fall short of the requisite disbursements.

The four rates to be levied as a consolidated rate.

106. These four rates, after having been fixed under section seventy-one of this Act, shall be levied as one consolidated rate, and the collections made on account of this rate shall be divided between the General Fund, the Water-supply Fund, the Lighting Fund and the Sewage Fund in the proportions at which the rates are being levied for the time being without reference to the year on account of which each payment is made.

Such deduction shall, however, be made from the proportion to be credited to the Water-supply Fund as may seem to the Commissioners in meeting to be approximately equivalent to the diminished productiveness of that rate, owing to the partial exemption of certain premises under clause (*b*) of section one hundred and one.

Rate by whom and when payable.

107. The consolidated rate shall be payable half by the owners of the houses and lands, and half by the occupiers thereof. It shall be payable on the first day of April, first day of July, first day of October and first day of January for the quarters, respectively, commencing on those dates.

PART II.—*Of the Owner's share of the Consolidated Rate.*

If assessment be made at a higher annual value than the amount paid by the occupier, owner may recover difference from him.

108. If the annual value of any house or land as determined under Chapter V shall in any case exceed the amount of rent payable to the owner, the owner may in such case recover from the person who pays him rent the difference between the sum assessed upon him as the owner's share of the consolidated rate and the sum at which he would have been assessed had the house been valued only at the amount of rent actually payable to him, and such difference shall be added to the rent and shall be recovered by the owner from the person liable for the payment thereof.

Refund of owner's share of consolidate rated.

109. When any house or land whereon the consolidated rate is assessed under Chapter V has been vacant for sixty consecutive days during any year, the person liable to pay the owner's share of the consolidated rate shall, if notice in writing be given to the Commissioners of such house or land being vacant, be liable to pay only one-fourth of the consolidated rate due on account of the period of vacancy—the period of vacancy being calculated from the date on which the notice is delivered; if more than one-fourth of the consolidated rate has been paid in advance, the surplus shall, on demand, be refunded.

No refund unless application be made within six months from vacancy.

110. No refund shall be made under the last preceding section unless the same shall be applied for within six months from the date of vacancy of the house or land on account of which the refund is applied for.

PART III.—*Of the Occupier's share of the Consolidated Rate.*

Refund of occupier's share of consolidated rate when house ceases to be occupied.

111. When any house or land whereon the consolidated rate is assessed under Chapter V is vacant, the person liable to pay the occupier's share of the rate up to the period of such vacancy shall, if he has paid for the whole quarter, be entitled to a refund of all the rate paid by him for the period during which the house is vacant, or for the period during which it may have been occupied by a new occupier, if notice shall have been given in writing to the Commissioners of such house or land being vacant; and the date of vacancy shall be calculated from the date of delivery of such notice at the office of the Commissioners.

No refund of rates unless application made within six months from vacancy.

112. No refund of rates shall be made under the last preceding section unless the same is applied for within six months from the date of cessation of occupation of the house or land on account of which the refund is applied for.

Rate payable on house or land becoming occupied.

113. Whenever any house or land which shall have been unoccupied shall be occupied during any quarter, there shall be forthwith payable in respect of such house or land the full occupier's share of the consolidated rate for the period between the date of occupation and the last day of the quarter.

Person sub-letting to different persons to be deemed occupier.

114. Whenever any person holding any house or land at a rent from the person liable to pay the owner's share of the consolidated rate in respect of such house or land has or may sub-let the same to different persons holding in severalty, the person so holding shall, for the purposes of this Act, be deemed to be the occupier of such house or land.

Power to impose entire rate on owner in certain cases.

115. If any house is occupied by more than one person holding in severalty, or is valued at less than Rs. 200, the Commissioners may impose the entire consolidated rate upon the owner of such house.

Owner to recover from occupier rate paid by owner.

116. If the entire rate is paid by the owner of any house under the last preceding section, such owner may, if there be but one occupier of the house, recover from such occupier half of the rate so paid by such owner;

and if there be more than one occupier, he may recover from each occupier half of such sum as shall bear to the entire amount of rate so paid by him the same proportion as the value of the portion of the house in the occupation of such person bears to the entire value of such house.

Imposition of consolidated rate in the case of bustee land.

117. The entire consolidated rate imposed upon bustee land and the huts built thereon shall, after deducting therefrom a sum equal to one-eighth of such rates, be paid by the owner of such land. The sum deducted shall be retained by the owner of the land as a set off against the expenses which may be incurred in collecting the portion of the rate recoverable from the occupiers of the land or the owner or occupiers of huts built thereon, under the provisions of the next succeeding section, and as a commutation of all refunds in respect of huts which are vacant or which may be removed or destroyed during the continuance of the period for which the rate is imposed:

Provided that no additional rates shall be imposed on account of any new huts built or of any huts enlarged during the year for which the valuation remains in force, under the provisions of section one hundred and twenty-four.

Owner to recover from occupier rates paid by owner.

118. Whenever a rate is imposed on bustee lands, the Commissioners shall cause the land and the huts standing on it to be separately valued, and the owner of the land may recover from the owner of each hut half the consolidated rate paid by him for the land on which the hut stands, and the entire consolidated rate payable on account of the hut.

Owner to have same power for recovering rates as for recovering rent.

119. Every owner who, under the provisions of sections one hundred and sixteen and the last preceding section may be entitled to recover any sum from the occupier of any house or of any portion thereof, or from the owner of any hut, shall have for the recovery of such sum all such and the same remedies, powers, rights, and authorities as if such sum were rent payable to him.

Occupier of house or land may be required to furnish name of owner.

120. The Commissioners may by a notice in writing require the occupier of any house or land to furnish them, within fifteen days, with the name and address of the owner of such house or land, and such name and address, when so received, shall be registered provisionally in the assessment book kept under section one hundred and twenty-eight.

On failure occupier liable to owner's rates.

121. If the occupier of any house or land shall refuse or neglect to furnish the information so required of him under the last preceding section, he shall be liable to pay the rates payable by the owner on account of such house or land, and on non-payment thereof the Commissioners may recover the same by distress and sale of any movable property found in the house or on the land:

Provided that no arrear of rate which has remained due from the owner of any house or land, for more than one year, shall be so recoverable from the occupier thereof.

CHAPTER V.

OF THE ASSESSMENT OF HOUSES AND LAND.

Annual value of house or land how to be ascertained.

122. For the purpose of assessment under this Act, the annual value of land and the annual value of any house built for letting purposes or ordinarily let shall be the gross annual rent at which such land or house might reasonably be expected to let from year to year, less, in the case of a house, an allowance of 10 per cent. for the cost of repairs, and for all other expenses necessary to maintain the house in a state to command such gross rent. The annual value of any house not built for letting purposes and not ordinarily let shall be 5 per cent. on the sum obtained by adding the estimated present cost of building the house, less a reasonable amount to be deducted on account of depreciation, if any, to the estimated value of the land valued with the house as part of the same premises.

When a house is occupied by the owner under such exceptional circumstances as renders a valuation of 5 per cent. of the cost of building, less depreciation, excessive, a lower percentage may be taken.

The value of land so estimated shall not include the value of any machinery thereon.

Annual value to be assessed by the Commissioners; valuation to remain in force for six years.

123. All valuations of houses made by the Commissioners prior to the commencement of this Act shall remain in force during the period for which they were so made, and on the expiration of such period, the annual value at which any house is to be assessed shall be fixed by the Commissioners for a period of six years, and thereafter for successive periods of six years:

Provided that for the purpose of dividing the town into districts under section one hundred and twenty-nine, the Commissioners may retain the valuation of the houses in any part of Calcutta for a further period not exceeding six years, or may, with the same object, make a re-valuation for a less period than six years.

Bustee lands may be valued annually.

124. Bustee lands with the huts upon them, or lands that are waste or used for agricultural purposes, may be valued annually at the discretion of the Commissioners, and shall be so valued on the application of the owner. When not re-valued, the former valuation shall remain in force from year to year until a re-valuation is made.

Intermediate valuation in certain cases.

125. Any house, the valuation of which may have been cancelled on the ground of irregularity, or which for any other reason may have no annual value legally assigned to it, may be valued at any time under section one hundred and twenty-two for such period as remains unexpired in the district in which it is included under section one hundred and twenty-nine.

When substantial improvement made, Commissioners may re-value.

126. If during the currency of any period mentioned in section one hundred and twenty-three any substantial alteration and improvement is made to any such house, the Commissioners may cause such house to be again valued, even though such period has not expired, and such last-mentioned valuation shall be in force, and the rate shall be imposed according to it, until the expiration of the said period of valuation.

When substantial injury done, Commissioners may re-value.

127. If during the currency of any period mentioned in section one hundred and twenty-three the value of such house shall suffer depreciation from any cause proved to

the satisfaction of the Commissioners to have been beyond the control of the owner or occupier thereof, the Commissioners shall as soon as practicable, on application being made to them in writing by the owner or occupier of such house, cause it to be again valued, even though the current period of valuation has not expired, and such last-mentioned valuation shall be in force, and the rate shall be imposed according to it, until the expiration of the said period of valuation:

Provided that if any substantial alteration and improvement shall be made, prior to the expiration of the said period of valuation, to the house which shall have been again valued as aforesaid, the Commissioners may cause such house to be again valued as under the last preceding section.

Annual value fixed to be entered in a book.

128. The annual value fixed by the Commissioners as hereinbefore provided shall be entered in a book to be kept at the office of the Commissioners, wherein shall also be written—

(*a*) number of premises;
(*b*) description of premises;
(*c*) name of person primarily liable to pay the rate;
(*d*) amount of valuation;
(*e*) amount of rate payable quarterly;
(*f*) if exempted, the ground of exemption.

This information may be contained in as many books as the Commissioners may, from time to time, determine which shall together constitute a book to be called the "assessment book."

When the name of the owner or occupier is not known, it shall be sufficient to designate him in the assessment book as the "owner" or "occupier."

Owner or occupier may apply to have his name entered as such in assessment book.

Any owner or occupier may at any time apply to the Commissioners to have his name entered as owner or occupier in the assessment book, and the Commissioners shall, unless there is sufficient reason to refuse such application, (which refusal shall be in writing) cause such name to be entered in the assessment book.

Where there are gradations of owners or occupiers, and doubt exists as to who is entitled to be registered as owner or occupier of any premises, the Commissioners shall determine which of the several owners or occupiers is entitled to be registered as such, and their decision shall remain in force for the purposes of this Act till set aside by the order of a competent court.

No owner or occupier whose name is not entered in the assessment book shall be entitled to object that any bill, notice of demand, warrant or other notice of any kind required by this Act to be served on the owner or occupier of any house or land, has not been made out in his own name:

Person paying owner's share of consolidated rate may be registered provisionally as owner.

Provided that any person who has paid the owner's share of the consolidated rate for the last preceding quarter may, if there is no opposition to his application to be registered as owner, but such application is rejected or postponed for want of evidence, claim to have his name provisionally registered as owner, and when his name is so provisionally registered he shall enjoy all the privileges and incur all the liabilities attaching to the owner of any house or land under this Act so long as no other person claims to be registered as owner.

A list shall be published annually, in such manner as the Commissioners may determine, stating the names of all persons who are provisionally registered and the premises in respect of which they are so registered.

Any name provisionally registered as that of an owner of any premises shall after three years, if no objection be taken, be transferred to the assessment book as that of the owner of such premises.

New valuations or measurement to be made.

129. For the purpose of valuing houses for a period of six years, the Commissioners shall divide Calcutta into such and so many districts as they may think fit, and proceed to make separate valuations district by district, and shall enter the same in the assessment book.

Returns may be required for purpose of valuation.

130. The Commissioners, by a notice in writing, may require the owner or occupier of any house or land to furnish them with returns of the measurements and of the rent or annual value thereof; and the Commissioners, or any person authorized by them in that behalf, may at any time between the hour of seven in the forenoon and sunset enter on, and inspect, survey, and measure such house or land after giving a notice in writing of not less than twenty-four hours.

Penalty.

131. Whoever refuses or fails to furnish any such return for the space of one week from the day on which he shall have been required so to do, or knowingly makes a false or incorrect return, and whoever hinders, obstructs, or prevents any Commissioner, or any person appointed by the Commissioners as aforesaid, from entering or inspecting or measuring any such house or land shall be liable to a fine not exceeding Rs. 200 for every such offence.

Public notice of valuation to be given.

132. When the valuation of any of the districts into which Calcutta may have been divided by the Commissioners in accordance with the provisions of section one hundred and twenty-nine shall have been completed, the Commissioners shall give public notice thereof, and of the place where the statement of valuations of all the houses included in such district may be inspected. Such notice shall be by advertisement in at least two English newspapers, and in two Vernacular newspapers, published in Calcutta, and also by placards posted up in conspicuous places throughout such district.

And the person in whose custody the statement of valuations may be, shall permit any person, being the owner or occupier of any house or land included in the district or the agent of such owner or occupier, to inspect the records and to make extracts therefrom without payment of any fee, and any person, not being such owner or occupier to inspect and make extracts, in like manner, on payment of a fee of one rupee in respect of each entry extracted.

Notice when valuation made for first time or increased.

133. The Commissioners shall, in all cases in which any house is for the first time valued, or in which the valuation of any house previously valued is increased, give special

notice thereof to the owner or occupier of the same, and when the valuation is increased as aforesaid, the said notice shall state the grounds of such increase.

Notice to be given before re-valuing bustee land.

134. Before re-valuing any bustee, or other land under section one hundred and twenty-four, the Commissioners shall give notice to the owner of the land that on or after a date, not less than fifteen days from the receipt of such notice by the owner of the land, such re-valuation will take place, and if the valuation so made exceeds the previous valuation, the Commissioners shall give to the owner a special notice of the amount of the valuation with full details thereof.

Person dissatisfied with valuation to give notice of objection

135. Any person who is dissatisfied with a valuation made under this Chapter shall in the case of houses, within fifteen days after the publication of the notice referred to in section one hundred and thirty-two, or after receipt of the notice referred to in section one hundred and thirty-three, when such notice is received after the publication of the notice referred to in section one hundred and thirty-two, and in the case of bustee or other land within fifteen days after the receipt of the special notice referred to in section one hundred and thirty-four, deliver at the office of the Commissioners a notice in writing stating the grounds of his objection.

Objection to be entered in register and to be investigated and determined by Chairman or Vice-Chairman.

136. All such objections shall be entered in a register to be maintained for the purpose, and on receipt of any objection, notice shall be given to the objector of a day and place when his objection will be investigated.

On the day and place notified, the Chairman or Vice-Chairman (if the case is referred to him by the Chairman) shall hear the objection in the presence of the objector if he shall appear, or the Chairman or Vice-Chairman may, for reasonable cause, adjourn the investigation. When the objection has been determined, the order passed shall be recorded in the register of objections, together with the date of such order.

Person dissatisfied with decision of Chairman or Vice-Chairman may appeal to Small Cause Court.

137. Any person dissatisfied with the orders passed on his objection may appeal to the Court of Small Causes having jurisdiction in the place where the house, land or bustee land is situated. Such appeal shall be presented to the Court of Small Causes within thirty days of the decision of the objection under section one hundred and thirty-six, and shall be accompanied with an extract from the register of objections containing the orders objected to. No appeal shall be admitted unless an objection has first been taken under section one hundred and thirty-five.

Valuation by Commissioners when to be final.

138. The valuation by the Commissioners when no appeal therefrom is made as hereinbefore provided, and the adjudication of any appeal under the last preceding section when an appeal is made, shall be final and binding.

Valuation to be entered in assessment book.

139. The valuation made by the Commissioners subject to such alterations as may from time to time thereafter be duly made, shall be entered in the assessment book, and the assessment calculated on the said valuation shall, subject to such alterations as aforesaid, be deemed to be the amount payable during the whole period for which the valuation is in force, and this period shall be calculated from the commencement of the quarter next succeeding that in which any such amendment shall be so authenticated; and until such date the old valuation shall continue in force, notwithstanding that the period for which it was made may have expired.

Alteration or amendment of valuation.

140. The Chairman or Vice-Chairman may at any time amend the assessment book by inserting therein the name of any person whose name ought to be so inserted, or by inserting any house or land liable to the rate, or by inserting a valuation when the house or land liable to be valued has not been valued, after giving notice to any person interested in the making of the amendment of a day, not being less than fifteen days from the date of the service of such notice, when such amendment is to be made; the Chairman or Vice-Chairman may also strike out the name of any person, or any house or land not liable to the rate or reduce the amount of the valuation without notice:

Provided that no reduction shall be made inconsistent with the provisions of section one hundred and thirty-eight.

If any amendment shall be made in cases where notice is required, the same shall be deemed to have been made on the expiration of fifteen days after service of the said notice; and any person interested in such amendment may object by application in writing to the Commissioners to be left at their office three clear days before the day fixed in the said notice; and the provisions of sections one hundred and thirty-five, one hundred and thirty-six, one hundred and thirty seven, and one hundred and thirty-eight shall, so far as may be practicable, apply to such objection.

CHAPTER VI.

OF LEVYING THE RATES.

Bills to be presented.

141. When any rate is due, the Commissioners shall cause to be presented to the person liable to the payment thereof a bill for the sum due, which shall also contain a statement of the period and a description of the property for which the rate is charged.

Notice of demand.

142. If the bill is not paid by the person liable to pay the same within seven days from the presentation thereof, the Commissioners may cause to be served upon such person a notice of demand in the form contained in the fifth Schedule, or to the like effect; and, if he shall not, within seven days from the service of such notice of demand, pay the sum due, or show sufficient cause to the satisfaction of the Commissioners for non-payment of the same, such sum, with all costs, may be levied by distress and sale of the moveable property of the defaulter, or if the defaulter be the occupier of any house or land in respect of which a rate is due, by distress and sale of any moveable property found on the house or land, whether actually belonging

to the defaulter or not, under a warrant in the form contained in the Sixth Schedule, or to the like effect, to be issued for that purpose by the Commissioners:

Provided that when the premises in respect of which the default is committed are a place of business, and the moveable property distrained is shown to the satisfaction of the Commissioners to have been left there for repairs or safe custody in the ordinary course of business, it shall be released.

For every notice of demand under this section which the Commissioners shall cause to be served upon any person, a fee, not exceeding one rupee, shall be payable.

Such fee shall be added to the amount of the rate in respect of which the notice is given, and, if not duly paid, may be levied in the same manner as such rate may be levied.

Inventory—notice of distress.

143. The officer charged with the execution of a warrant of distress under the last preceding section shall forthwith make an inventory of the moveable property seized under such warrant, and shall at the time give a notice in writing in the form contained in the Seventh Schedule, or to the like effect, to the person in possession thereof at the time of the seizure, that the said moveable property will be sold as therein mentioned.

Sale.

144. If the warrant is not in the meantime discharged or suspended by the Commissioners, the moveable property seized shall be sold and the proceeds, or such part thereof as may be necessary, shall be applied in discharge of the said arrears and costs;

and the surplus, if any, shall be returned on demand to the person in possession of the moveable property at the time of the seizure.

All distresses under this Chapter shall be reasonable and the amount of property seized shall be proportionate to the arrears due, and all sales of property under this section shall, so far as may be practicable, be regulated by the procedure now in force, or hereafter to be in force in the Court of Small Causes with respect to sale after distress.

Fees shall be payable upon warrants issued under this Act according to the rates set forth in the table of fees contained in the Eighth Schedule.

All officers and servants of the Corporation are prohibited from purchasing any property at any such sale.

Goods of defaulters, wherever found, may be distrained.

154. The Commissioners may supply water through a meter, for other than domestic purposes, if the person requiring such supply make application to the Commissioners in writing, specifying the purpose for which such supply is required and the quantity likely to be consumed.

No meter shall be necessary in any case in which the applicant agrees to pay such sum per mensem for the use of the water as may be fixed by the Commissioners.

When water is supplied by the Commissioners through a meter, it shall be presumed that the quantity indicated by the meter has been consumed until the contrary is proved.

Commissioners may replace existing ferrule by another.

Provided also that the Commissioners may at their own expense replace any ferrule, used for the supply of water to any house at the time when this Act comes into force which is of larger size than the occupier of such house under such scale is entitled to use, by a ferrule of the size prescribed under such scale for the use of such house:

and if the Commissioners at any such time be refused admittance into such house or land for the purposes aforesaid, or be prevented from making such examination as aforesaid, they may forthwith turn off or cut off the water from such house or land:

Provided that nothing hereinbefore contained shall authorize an entry into any room appropriated for the zenana or residence of women, which by the custom of the country is considered private, unless a notice in writing of not less than four hours be given.

When pipes are out of repair, Commissioners may cut off, or turn off water.

161. In the event of any pipes, works, or fittings connected with the supply of water to any house or land being at any time found on examination by the Commissioners to be out of repair to such an extent as to cause any waste of water, the Commissioners may cause the water to be turned off or cut off from the house or land, after giving notice in writing of not less than twenty-four hours to the person in occupation thereof, and may recover the expense incurred for cutting off the water from the occupier of such house or land.

House in a ruinous and dangerous state.

233. If any building, or anything affixed thereon, be deemed by the Commissioners to be in a ruinous state, or likely to fall, or to be in any way dangerous, they shall immediately, if it appears to them to be necessary, cause a proper hoard or fence to be put up for the protection of passengers, and shall cause notice in writing to be given to the owner, if he be known and resident in Calcutta, and shall also cause such notice to be put on some conspicuous part of such building, or otherwise to be given to the occupier thereof (if any), requiring such owner or occupier forthwith to take down, repair, or secure, such building, or thing affixed thereon, as the case shall require.

If owner does not take house down, Commissioners may do so.

If such owner or occupier does not commence to take down, repair, or secure the same within three days after such notice, or fails to complete such work with due diligence, the Commissioners shall cause all or so much of such building, or thing as they shall think necessary, to be taken down, repaired, or otherwise secured and the expenses thereby incurred shall be paid by the owner.

The provisions of section two hundred and seven and two hundred and eight shall apply to houses taken down or repaired under the provisions of this section.

234. If any building, or any part of the same, be taken down under the provisions of the last preceding section, the Commissioners may sell the materials thereof, or so much of the same as shall be taken down, and apply the proceeds of such sale in payment of the expenses incurred, and shall, on demand, restore to the owner any surplus arising from such sale.

The Commissioners shall have the same remedies for compelling the payment of so much of the said expenses as may remain due after the application of the proceeds of such sale as by

(*b*) any other street or projected street on which it will abut; or

(*c*) the position of the adjacent buildings.

If the street shown in the plan is a proposed private street, the Commissioners may at their discretion decline to approve of the site till such private street is commenced or completed.

Provided that where any site is disapproved by reason of its falling wholly or in part within the lines of any projected public street, the owner of such site shall be entitled to reasonable compensation, if the site or the portion thereof that falls within such lines be not acquired by the Commissioners in meeting under section two hundred and four within one year after the date of such disapproval.

Within thirty days after receipt of application Commissioners to sanction or disallow buildings or for specified reasons to call for further information.

237. On receipt of such application the Commissioners shall within thirty days, by a written order, either sanction the building of the new house, or for any one or more of the reasons set forth in the next succeeding section disallow it, or call for further information, on all or any of the following details:—

(*a*) Plans and sections of every floor of the intended building which shall be drawn to a scale of not less than one inch to every eight feet, and shall show the position, form, and dimensions of the several parts of such building and of every water-closet, privy, urinal, cesspool, well, and other appurtenance, and in the case of a building intended as a dwelling-house for two or more families, or for carrying on any trade or business in which a number of people, exceeding twenty, may be employed, or as a public resort, the means of ingress and egress.

(*b*) A description in writing of the materials of which it is intended that the building shall be constructed, of the thickness of the walls and roof, and of the intended mode of drainage, means of water-supply, and means of ventilation, and if the building is to adjoin or abut on a street, the intended means of access from such street.

The Commissioners may decline to accept any plan, section, or description as sufficient for the purposes of this section, which does not bear the signature of a competent builder or surveyor in token of its having been prepared by such builder or surveyor.

Within thirty days from receipt of details Commissioners to pass orders with regard to proposed building.

238. Within thirty days after the receipt of the details, required to be given under the last preceding section, the Commissioners shall pass orders in writing either approving of the proposed building or disapproving thereof for any of the following reasons—

(*a*) that it will be unsafe; or

(*b*) that it encroaches upon or over municipal land; or

(*c*) that its construction contravenes some specified provision of this Act; or some specified bye-law made under this Act.

If the Commissioners disapprove of the building for any of the above reasons it shall not be proceeded with till such modifications have been made as to satisfy the requirements of the Commissioners.

Ground plan and application may be submitted together.

Provided that the period of thirty days after the receipt of the application shall not commence to run till the site has been approved of. Provided that no person shall put up a hoard or fence without the written permission of the Commissioners, and shall not keep up such hoard or fence for a time longer than that specified in such written permission.

Penalty.

Before beginning to build, re-build or add to any hut, the person intending so to do shall make an application to that effect to the Commissioners in a form to be provided by them (for which no charge shall be made.) Such form shall require a ground plan of the hut drawn to the scale of eight feet to the inch and such other details as the Commissioners may prescribe. On receipt of such application, the Commissioners shall, within fourteen days, express their approval of the proposed work, or their disapproval on any one or more of the following grounds:—

Powers of the Commissioners with respect to bustees.

251. The Commissioners may define the external limits of any bustee, and may from time to time modify such limits; and for the purposes of this Act, land comprised within such limits shall be deemed to be a bustee:

Provided that every bustee shall consist of one or more complete plots of bustee land, separately numbered as such in the assessment book, and no plot bearing only one number shall be divided so as to fall within the limits of separate bustees. The existence of one or more houses with the land attached thereto, within the limits defined as above, shall be no bar to the bustee lands within such limits being deemed to be a bustee: Provided also that the Commissioners shall have no power under this Part of exercising any control over such houses and land attached, except by acquiring the whole or any portion of them by purchase or in the manner provided by Chapter XIII, Part II.

Commissioners may call upon bustee owners to furnish a standard plan.

252. The Commissioners may at any time serve a notice upon the owners of a bustee, calling on them to prepare a joint plan thereof to the scale of forty feet to the inch showing the manner in which such bustee should be laid out with the huts standing in regular lines and with a free passage in front of and behind each line, of such width as may be necessary for ventilation and for scavenging. The plan shall also show the proposed drains of the bustee, the water-supply, bathing arrangements (if any) and the privy accommodation to be provided for the use of the tenants, the roads which are to be maintained for their benefit, the land, if any, which is to be kept as common land, the tanks which are to be filled up or conserved, and any other proposed improvements.

Plan finally approved by Commissioners to be taken as standard plan.

Such plan, when prepared as above, shall be considered by the Commissioners, and such modifications shall be made therein as the Commissioners shall require. After any plan has been finally approved of by the Commissioners, it shall be taken as the standard plan of the bustee. If any land within the limits of a bustee is not bustee land, the standard plan shall be so prepared as clearly to distinguish it from the bustee land.

When a call has been made on the owners of the bustee to prepare a joint plan under this section, no hut shall be built, re-built, or added to within the bustee till a standard plan has been prepared.

Commissioners, under certain circumstances, may prepare a standard plan.

253. If the owners of a bustee cannot agree among themselves in the preparation of a joint plan, or if they for any reason prefer to have a joint plan prepared for them by the Commissioners, or if they fail to comply with the notice to submit a

joint plan within the space of sixty days, the Commissioners shall, within a further period of sixty days, themselves prepare a plan to the scale and in the manner prescribed in the last preceding section for which they may charge the owners at such rate not exceeding Rs. 3 per bigah as the Commissioners in meeting may fix. The cost of preparing such plan may be recovered as a rate under this Act.

Objections to Commissioner's plan to be entertained.

254. When a plan has been prepared by the Commissioners under the last preceding section, they shall fix a day for the hearing of objections on the part of the owners; and may at their discretion modify the plan in accordance with any objections made. When the objections have been disallowed, or when the plan has been modified in conformity with any objections raised, it shall be approved of by the Commissioners, and shall thereafter be taken as the standard plan of the bustee.

Commissioners may require huts to be built in conformity with the standard plan.

255. When a standard plan has been prepared for any bustee under sections two hundred and fifty-two or two hundred and fifty-four, no hut shall be built, re-built, or added to in such bustee, unless the hut or the portion to be added occupies a site, or portion of a site marked as the site for a hut in the standard plan. The Commissioners may, at any time by paying compensation to the owner of any hut not in conformity with the standard plan, require him to take down his hut and re-build it in conformity with such plan. Such compensation shall, in the event of dispute, be determined in the manner provided in this Act for the settlement of disputes respecting damages and expenses.

The Commissioners may at any time serve a notice upon the owners of any bustee, calling upon them to construct the roads, privies, drains, and other details shown in the standard plan of any bustee, so far as may be practicable in the existing arrangement of the huts, and if any tank is shown as to be filled up or improved, may call upon the owner to fill up or improve such tank. Till such notice is complied with, the Commissioners may refuse to sanction the building or re-building of any hut in the bustee, or any addition to any existing hut.

Remodelled bustees.

256. When a bustee has been brought into conformity with a standard plan which has been prepared for it, it shall be deemed to be a remodelled bustee.

Report by medical officers on unhealthy bustees.

257. When it appears to the Commissioners in meeting that any bustee is, by reason of the manner in which the huts are crowded together, or for any other reason, in such an unhealthy condition that the procedure provided by sections two hundred and fifty-two to two hundred and fifty-six will be too dilatory for improving such bustee, they may cause it to be inspected by two medical officers who shall make a report in writing on the sanitary conditions of the said bustee.

Such report shall be accompanied by a plan which shall be approved of by the medical officers as a proper standard plan of the bustee, and they shall certify which of the changes necessary to bring the bustee into conformity with the proposed standard plan should be taken in hand forthwith, in consequence of the unhealthy condition of the bustee, and which can await the procedure prescribed in sections two hundred and fifty-two to two hundred and fifty-six. The former changes shall be shown in a Schedule attached to the report to be called Schedule A; and this Schedule shall clearly indicate the huts which should wholly or in part be removed, the roads and drains which should be constructed, the tanks or low lands which should be filled up, and any other works necessary to remove or abate the unhealthy condition of the bustee. If for the purpose of making such roads or effecting any other improvement, it is necessary to purchase or acquire any land within the bustee which is not bustee land, the schedule shall specify the land which should be purchased or acquired.

On receipt of report Commissioners may cause notice to be served.

258. On receipt of the report of the medical officers, the Commissioners in meeting may cause a notice to be served upon the owners or occupiers of the huts, or at the option of the Commissioners, the owner of the land on which such huts are built, requiring them to carry out and execute within a reasonable time, to be fixed by the Commissioners for such purpose, all or any of the works specified in the aforesaid Schedule A annexed to the report, or any portion thereof respectively.

The Commissioners in meeting shall also approve of the standard plan prepared by the medical officers with such modifications as they may deem proper.

Commissioners may carry out works if owners or occupiers refuse.

259. If, after the service of the notice referred to in the last preceding section, such owners or occupiers, or the owners of the land, shall refuse or neglect to carry out and execute the said works within the time appointed, the Commissioners may cause all or any of the said works, or any portion thereof respectively, to be executed; and the expenses thereby incurred, including such reasonable compensation as the Commissioners think fit to pay to the owners or occupiers of huts destroyed or removed, shall be paid by the owners of the land:

Expenses may be recovered by instalments or remitted in case of poverty.

Provided that the Commissioners in meeting may order the expenses so incurred to be recovered by instalments from the said owners, of the land or, if it should appear to them that any such owner is unable by reason of poverty to pay the same, may order the same or any portion thereof to be paid out of the General Fund.

Sale of huts.

260. If any of the said huts be pulled down, the Commissioners shall cause the materials of each hut to be given to the owner of the hut; or if the owner be unknown, or the title disputed, the materials shall be sold and the proceeds shall be held in deposit by the Commissioners until the person interested therein shall obtain an order from a competent court for the payment of the same.

A Court of Small Causes shall be deemed a competent court for the purpose.

Commissioners on the report of medical officers may acquire land.

261. The Commissioners may, at any time, after the receipt of the report of the medical officers acquire by purchase, or in the manner provided by

Chapter XIII, Part II, any land other than bustee land shown in that report as land which should be acquired.

When an unhealthy bustee to be deemed remodelled bustee.

262. After the works specified in Schedule A attached to the report filed under section two hundred and fifty-seven, or so much of such works as are approved by the Commissioners in meeting, have been completed, the provisions of section two hundred and fifty-five shall apply to such bustee until it is brought into complete conformity with the standard plan approved in accordance with the provisions of section two hundred and fifty-eight, after which the bustee shall be deemed to be a remodelled bustee.

Provisions as to standard plan.

263. No standard plan, prepared under sections two hundred and fifty-two, two hundred and fifty-three, two hundred and fifty-seven, or two hundred and sixty-eight shall, without the consent of the owners, show more than one-fifth of the area of the bustee as roads or more than one-half as open lands not to be built upon, whether such open land be common ground, roads, or spaces behind a line of huts; but no tank that is not filled up shall be taken into account in calculating the above proportion. The proposed standard plan shall also, as far as possible, provide for one or more huts being completely contained in each separate plot of bustee land within the bustee and for a due proportion of roadway and open ground in each plot; and if a greater portion of any one plot is taken for roads or open ground than the proportion allowed by this section, the compensation which should be paid to the owner of this plot and the persons who should pay such compensation by reason of their benefiting thereby shall be specified; if no other owner can be equitably called upon to pay such compensation, it shall be paid by the Commissioners. The compensation thus fixed shall not be payable till the plot belonging to the owner entitled to it has been brought into complete conformity with the standard plan.

Effect of notice of intention to change character of bustee land.

264. Any owner of bustee land included within the limits of a bustee may at any time give notice to the Commissioners that he intends to change the character of the whole or of any portion of the land belonging to him, so that it will cease to be bustee land. If his notice refers only to a part of his land, a separate number shall be forthwith assigned in the assessment book to the part to which the notice applies. From the date of such notice no application shall be received for building, re-building, or adding to any hut in the land to which the notice applies, and the owner shall be bound to remove all existing huts within six months after giving such notice. When all the huts have been removed, the land shall cease to be liable to the incidents of bustee land, and, according to its situation, shall either be altogether excluded from the limits of the bustee, or shall be shown in the standard plan of the bustee as land within the said limits which is not bustee land.

Roads in standard plan if not public streets remain private.

265. The roads shown in the standard plan of a bustee which are not already public streets shall, unless the Commissioners and the owners concerned otherwise agree, remain private streets; and the portion which falls on the land of each owner shall belong to such owner. Any portion which falls on land acquired or purchased by the Commissioners under section two hundred and sixty-one shall remain the property of the Commissioners.

Every such private street shall at all times be kept open to the conservancy carts of the Commissioners for the purpose of scavenging in the bustee, and shall also be kept open for the use of all the tenants of the bustee, but no such use, whether by the conservancy carts or by the tenants, shall be held by any lapse of time to confer a right of way on the public, so as to bring such street within the definition of a "public street."

Roads in a bustee not affected by change of character of bustee land.

266. If any portion of the land which it is sought to remove from the incidents of bustee land is shown in the standard plan of the bustee as a road or part of a road, the notice shall be held not to apply to such road without the express consent of the Commissioners, but such road shall continue part of a private street open to the use of conservancy carts and of the tenants of the bustee.

Owners of a bustee, when standard plan is prepared, deemed occupiers of the open spaces.

267. When a standard plan has been prepared for a bustee, the several owners of the bustee land shall be respectively deemed to be the occupiers of the roads, common ground, and of such drains of the bustee as serve more than one hut, so far as constructed in accordance with such standard plan, and the owner of each hut shall be deemed to be the occupier of the land occupied by his hut, of that portion of the open space behind his hut which appertains to it, and of any drain which is for the sole use of his hut.

Power to purchase, improve, and re-sell or lease unhealthy areas.

268. Notwithstanding anything contained in sections two hundred and fifty-seven to two hundred and sixty-two, the Commissioners in meeting may, upon receipt of the report prescribed under section two hundred and fifty-seven, pass a resolution to the effect that any bustee is an unhealthy area, and that, in the opinion of the Commissioners, the acquisition of the bustee, or any part thereof, by purchase, lease, or otherwise, is necessary for the purpose of making the requisite improvements thereon, and shall proceed to make a standard plan for the improvement of such land, and shall forward such plan, accompanied by such estimates as shall be necessary for a due understanding of the same, together with a copy of such resolution, for the consideration and sanction of the Local Government.

On receipt of such sanction, the Commissioners in meeting may acquire such land or any part thereof in the manner provided by Chapter XIII, Part II.

When the sanction of the Local Government has been accorded to any standard plan for the improvement of any land acquired by the Commissioners as above provided, the Commissioners in meeting may sell or let any part of the acquired land to any person for the purpose and under the condition that he will, as respects the land so purchased by, or leased to, him, carry out such standard plan.

The Commissioners may, instead of selling or letting the land acquired by them as aforesaid, themselves bring the bustee into conformity with such standard plan.

The Commissioners shall be bound to sell or lease such land in the manner aforesaid, or themselves to carry out the improvement sanctioned under this section within the term of four years from the date of their acquiring such land, unless the Local Government shall specially extend such term.

When a bustee has been improved under this section, it shall be deemed to be a remodelled bustee.

269. The Commissioners in meeting may sanction the employment of a special establishment for the cleansing of bustees, and when such establishment has been sanctioned, they may impose a rate to defray the cost of such establishment, on the owners of such bustees:

Commissioners may levy a rate for cleansing bustees.

Provided that, without the consent of the owners, no such rate shall be levied upon any remodelled bustee.

270. If any bustee for which no such establishment as is referred to in the last preceding section is maintained, appears to the Commissioners to be in a filthy condition, the Commissioners may serve notices upon the occupiers as defined in section two hundred and sixty-seven, requiring them within three days to cleanse the same, and if the occupiers do not comply with the terms of such notices to the satisfaction of the Commissioners, the Commissioners may cleanse the whole or any portion of the bustee which requires cleansing, and may recover the cost incurred by them from the occupiers of such portions of the bustee as they have cleansed in such manner as a rate may be recovered.

Commissioners may require bustees in a filthy condition to be cleansed.

CHAPTER XI.

OF DRAINAGE WORKS, DRAINS AND PRIVIES.

271. The Commissioners may carry out such a complete system or systems of sewerage and drainage as they may think fit, subject to the approval of the Local Government, and such alterations as may from time to time be ordered by it.

Commissioners to drain Calcutta.

272. All public sewers and drains, and all sewers, drains, tunnels, and culverts in, alongside, or under any public street, whether made at the cost of the Commissioners or otherwise, and all works, materials, and things appertaining thereto, shall vest in, and belong to, the Commissioners.

Public sewers, drains, tunnels and culverts vested in the Commissioners.

273. The Commissioners shall have power to construct within Calcutta, and when necessary for the purposes of outfall or distribution of sewage without Calcutta, such sewers as they may think necessary for keeping the town properly cleansed and drained, and may carry such sewers through, across or under any road, street or place, and after reasonable notice in writing into, through or under any premises or lands whatsoever, and may from time to time enlarge, lessen, alter, arch over or otherwise improve, modify or change, or close up or destroy all sewers, vested in them, provided no nuisance is created by such operations; and if any person is thereby deprived of the lawful use of any drain or sewer, the Commissioners shall provide another as effectual for his use within one hundred feet from some part of his premises. The Commissioners shall cause their sewers to be so constructed, kept and cleansed as not to be a nuisance or injurious to health, and for the purpose of cleansing, flushing and emptying them may construct and place either above or under ground, such reservoirs, sluices, engines or other works as may be necessary, and may cause such sewers to communicate with, and be emptied into, such places as may be fit and necessary within Calcutta, and if necessary for the purpose of outfall or distribution of sewage without Calcutta, and may cause the sewage and refuse therefrom and from the town to be collected for sale, or for the improvement of land, or for incineration, or for any purpose whatsoever, but not so as to create a nuisance.

Powers of Commissioners in making public sewers.

If a sewer is carried into, through or under any lands not belonging to the Corporation, the Commissioners shall make compensation to the owner thereof for any damage sustained by him by reason of such sewer being so carried into, through or under his land. In case of dispute, the amount of compensation payable by the Commissioners shall be determined in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

274. When the contents of any sewer or drain, or any other flow of filth or refuse, are discharged into any river or stream in the bed or channel of which the quantity of water at any season of the year is so much diminished, by natural or artificial causes, as to be insufficient to keep such channel clean or clear, the Commissioners, with the sanction of the Local Government, may make such alteration in the bed of such river or stream as may prevent such sewer and drain-water from spreading over the surface of such bed, or from accumulating and stagnating in parts thereof to the injury of health or the annoyance of the surrounding population.

Bed of stream receiving sewage to be cleared.

275. If any person, without the written consent of the Commissioners first obtained, makes or alters any drain leading into any of the sewers or drains vested in the Commissioners, or makes such drain, or carries out such alterations, with materials not approved of by the Commissioners, the Commissioners may cause such branch drain to be demolished, altered, re-made, or otherwise dealt with as they shall think fit;

Unauthorised drains leading into public sewers may be demolished.

and the expenses thereby incurred shall be paid by the person making or altering such branch drain.

276. Whoever, without the written consent of the Commissioners first obtained, makes or alters any drain leading into any of the sewers or drains vested in the Commissioners by this Act, shall be liable to a fine not exceeding Rs. 200.

Penalty for altering or making unauthorized drains leading into public sewers.

277. If any house or land within one hundred feet of a public sewer or surface drain fit for use, or of some tidal river or other place at which the Commis-

Commissioners empowered to make drains from houses which are not properly drained.

sioners are empowered to empty their sewers, be at any time not drained to the satisfaction of the Commissioners by sufficient surface drains or pipes communicating with some sewer, surface drain, tidal river, or other place as aforesaid, the Commissioners may, if the owner neglects to do so within fifteen days after notice, construct or lay through or from such house or land, suitable drains of such materials, of such size and with such fall, as they shall think necessary for the complete draining of such house or land;

and the expenses thereby incurred shall be paid by the owner.

For the purpose of efficiently draining any house or land under this section, the Commissioners may require any court-yard, alley, or passage between two or more houses, to be paved with such materials and in such manner as may be approved of by them, and may require such paving to be kept in proper repair. They may also require the level of any such court-yard, alley or passage to be raised if necessary, for the efficient drainage thereof.

Commissioners may construct certain portions of drains under public drains and streets.

278. The Commissioners themselves may construct and lay down such portions of the drains mentioned in the last preceding section and sections two hundred and eighty-two and two hundred and eighty-three, as may be carried through or under any public drain, aqueduct, or street, and the expenses thereby incurred shall be paid by the owner.

Sewage and rain-water drains to be distinct.

279. Whenever it is provided in this Chapter that steps shall or may be taken for the effectual drainage of any premises, it shall be competent to the Commissioners to require that there shall be one drain for sewage and polluted water, and another and an entirely distinct drain for rain-water or unpolluted subsoil water or for both, each emptying into separate municipal drains or other suitable places.

Underground drains connected with the sewers to be made under a license.

280. It shall not be lawful for any person to make any underground drains in connection with the public sewers unless he shall hold a license from the Commissioners under such rules and regulations as the Commissioners may, from time to time, lay down, and which shall be printed on the back of the license.

Penalty.

Any person holding such license, who shall infringe or break any such rule or regulation, shall be liable to have his license cancelled, and he or any person making any underground drain in connection with the public sewers without a license shall be liable to a fine not exceeding Rs. 20.

Supervision of certain works.

281. The Commissioners may cause the work of laying underground drains to be supervised while in progress, and from time to time during their execution may order such reasonable alterations therein, additions thereto, and abandonment of part or parts thereof, as may to the Commissioners appear, on the fuller knowledge afforded by the opening of the ground, requisite to secure the complete and satisfactory execution of such works as aforesaid.

Group or block of houses may be drained by a combined operation.

282. If it appear to the Commissioners that a group or block of houses may be drained more economically or advantageously in combination than separately, and a sewer of sufficient size already exists, or is about to be constructed, within one hundred feet of any part of such group or block of houses, the Commissioners may cause such group or block of houses to be drained by a combined operation;

and the expenses thereby incurred shall be paid by the owners of such houses, or, in the case of bustee land, by the owners of the land in such proportions as shall to the Commissioners seem fit.

Not less than fifteen days before any work under this section is commenced, the Commissioners shall give notice to the owners of all the land or houses to be drained of the nature of the proposed work and an estimate of the expenses about to be incurred in respect thereof and the proportion payable by each owner.

Commissioners may require the owner of a drain to allow another to use it.

283. Whenever a drain belonging to one or more persons has been laid in any street or passage common to more than one house, and it is deemed desirable to drain any other premises into such drain, the Commissioners may require the owners of such drain to allow a connection therewith to be made on such terms as may seem to them equitable, and the owner or owners of the drain shall be entitled to refuse to allow the connection to be made until the terms prescribed have been accepted and any order for payment made by the Commissioners has been complied with.

Sewers in streets to be covered with traps.

284. All underground drains in streets (public or otherwise) shall be provided by the Commissioners or by the persons to whom they severally belong with proper traps or other coverings and means of ventilation, so as to prevent stench.

If the owner of any private sewer or underground drain shall, for ten days after notice given to him by the Commissioners, neglect or delay to provide proper traps or coverings and means of ventilation as aforesaid, the Commissioners may forthwith provide and apply the same;

and the expenses thereby incurred shall be paid by the owner.

Power of Commissioners to erect or affix to building, pipes for ventilation of sewers.

285. The Commissioners may erect on, or fix to, any house or wall such properly jointed pipes as they may deem necessary for the proper ventilation of the sewers belonging to them, and such pipes shall be carried to a height of not less than six feet above the highest part of the highest adjacent house, and erected so as not to occasion any nuisance or inconvenience to any house in the neighbourhood.

Branch drains, privies, cess-pools, stables, and cow-houses to be under the control of the Commissioners, and to be kept in good order by owners.

286. All branch drains, as well within as without the house or land to which they belong, and all privies, cess-pools, stables and cow-houses in Calcutta, shall be under the survey and control of the Commissioners as regards their site, material, dimensions and construction, and shall be altered, supplied with water, connected with a sewer, paved, repaired, kept in proper order, stopped up, or demolished, at the costs and charges

of the owner of the house or land to which the same belong, or for the use of which they are constructed or continued;

and if the owner of any house or land to which any such drain, privy, cess-pool, stable or cow-house belongs, neglect, during eight days after notice in writing, to execute the work in the manner required by the Commissioners, the Commissioners may cause the work to be executed in respect of such drain, privy, cess-pool, stable or cow-house;

and the expenses thereby incurred shall be paid by the owner.

Obstructions in private drains to be removed.

287. If any private drain is obstructed, the occupier of the premises in which such drain is situate shall, within six hours after receiving notice to do so from the Commissioners, cause the obstruction to be removed, and if he make default, the Commissioners may cause the necessary work to be done and the expenses thereby incurred shall be recoverable from such occupier.

Commissioners may alter any branch drain, privy, cess-pool, stable or cow-house made contrary to their order.

288. If any branch drain, privy, cess-pool, stable or cow-house be constructed contrary to the directions, bye-laws or regulations of the Commissioners, or contrary to the provisions of this Act, or if any person, without the consent of the Commissioners, constructs, rebuilds or unstops any branch drain, privy, or cess-pool which has been ordered by them to be demolished or stopped up, or not to be made, or constructs or rebuilds any stable or cow-house which has been ordered by them to be demolished or not to be built, the Commissioners may cause such amendment or alteration to be made in any such branch drain, privy, cess-pool, stable or cow-house as they think fit;

and the expenses thereby incurred shall be paid by the person by whom such branch drain, privy, cess-pool, stable or cow-house was improperly constructed, rebuilt, or otherwise dealt with.

Penalty for persons making or altering drain, contrary to the orders of the Commissioners.

289. Whoever constructs any drain, privy, cess-pool, stable or cow-house after the commencement of this Act contrary to the directions, bye-laws or regulations of the Commissioners, or contrary to the provisions of this Act, or, whoever without the consent of the Commissioners, constructs, rebuilds or unstops any drain, privy, or cess-pool which has been ordered by them not to be made or to be demolished or to be stopped up, shall be liable to a fine not exceeding Rs. 50.

Inspection of branch drains, privies, cess-pools, stables or cow-houses.

290. The Commissioners may inspect any branch drain, privy, cess-pool, stable or cow-house, and for that purpose, at any time between sunrise and sunset, after one hour's notice in writing to the occupier of the house or land to which such branch drain, privy, cess-pool, stable or cow-house is attached, may enter upon such house or land with such assistants and workmen as are necessary, and cause the ground to be opened where they may think fit, doing as little damage as may be;

and if, upon such inspection, it appears that such branch drain, privy, cess-pool, stable or cow-house is not in good order and condition, or that it has been constructed contrary to the provisions of this Act, the expenses of such inspection shall be paid by the person to whom such branch drain, privy, cess-pool, stable or cow-house may belong;

and if any branch drain is choked, or if any other defect connected with such branch drain which requires to be forthwith remedied is brought to light by such inspection, the Commissioners shall then and there clear out the branch drain, or remedy the defect;

but if the branch drain, privy, cess-pool, stable or cow-house be found to be in proper order and condition, and not to have been constructed in violation of the provisions of this Act, the Commissioners shall cause the ground to be closed and made good as soon as may be, and the expenses of opening and closing the ground shall be paid by the Commissioners.

Penalty for throwing rubbish or permitting any offensive matter or sewage to flow or be put into sewers.

291. Whoever throws or puts, or permits his servants to throw or put, any rubbish, or, until suitable sewers shall be provided, permits any offensive matter or sewage to flow, or be put into any sewer or drain belonging to the Commissioners, or into any drain communicating therewith, shall be liable to a fine not exceeding Rs. 50 for every such offence.

No latrine to be constructed within fifty feet of a tank.

292. No person shall, without the permission of the Commissioners in writing, construct or keep any latrine, privy, urinal, cess-pool, house-drain, or other receptacle for sewage or offensive matter within fifty feet of any public tank, or a tank used by the inhabitants of any locality. Any person upon whose land any latrine, privy, urinal, cess-pool, house-drain, or other receptacle so situated shall be now existing or hereafter constructed, shall remove the same within eight days of the receipt of a written notice from the Commissioners.

Penalty.

293. Any person failing to comply with the notice mentioned in the last preceding section shall be liable to a fine not exceeding Rs. 20, and to a further fine not exceeding Rs. 3 for every day that the latrine, privy, urinal, cess-pool, house-drain, or other receptacle remains within the limits aforesaid.

Commissioners may cause additional privies to be provided for any land.

294. If the Commissioners think that any privy or additional privy should be provided for any house or land, the owner of such house or land shall, within fourteen days after notice in that behalf by the Commissioners, cause such privy, together with the necessary pipes, drains, and water-supply, to be constructed in accordance with the requisition of such notice; and if such privy be not so constructed to the satisfaction of the Commissioners within such period, the Commissioners may cause such privy, together with the necessary pipes, drains, and water-supply, to be so constructed; and the expenses thereby incurred shall be paid by the owner.

Commissioners in executing works to provide proper drains.

295. The Commissioners, in executing any works under this Act, shall provide and make, at their own expense, a sufficient number of convenient ways, water-courses, drains, and channels in the place of such as may be interrupted, injured, or rendered useless by reason of the execution of such works;

and if any difference arises between the Commissioners and the persons affected thereby,

such difference shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

Bars to be erected across streets during repairs and lights placed at night.

296. The Commissioners shall, during the construction or repair by them of any of the streets, sewers, or drains vested in or belonging to them, take proper precaution for guarding against accident, by shoring up and protecting the adjoining houses;

and shall cause such bars, chains, or posts to be fixed across or in any street (public or otherwise), to prevent the passage of carriages, carts, cattle, or animals, while such works are carried on as to them shall seem proper;

and shall cause any sewer, or drain, or other works in streets (public or otherwise), during the construction or repair thereof by them, to be sufficiently lighted and guarded during the night.

CHAPTER XII.

OF SANITARY MATTERS.

PART I.—*Of scavenging and cleansing.*

Cleansing streets.

297. The Commissioners shall cause the public streets to be sufficiently lighted and regularly swept and cleansed; and the rubbish and offensive matter of every kind whatsoever found thereon to be collected and removed every day.

Dust-boxes in streets.

298. The Commissioners may cause any number of moveable or fixed dust-boxes or other convenient receptacles (wherein rubbish and offensive matter arising from the ordinary domestic use of houses, may be temporarily deposited until removed and carried away,) to be provided and placed in proper and convenient situations, and may require the occupiers of houses in public streets to cause all such matter as aforesaid to be deposited in such receptacles and between such hours as they may from time to time direct:

Provided that no occupier shall be required to deposit refuse in a dust-box at a greater distance than fifty yards from the entrance of his premises.

Penalty.

299. Subject to the proviso contained in the last preceding section, every person who, after such receptacles have been provided, and after such requisition as above-mentioned, shall deposit, or cause or permit to be deposited, any such matter in any public street, except in such receptacles, shall be liable to a fine not exceeding Rs. 10.

Penalty for depositing rubbish, offensive matter or sewage in public place.

300. Whoever deposits, or suffers to be deposited, any rubbish, offensive matter or sewage in any public street, or on any public quay, jetty, ghât, or landing place, or on any part of the river bank, whether above or below high water mark, except in such places, and in such manner, and at such hours, as shall be fixed by the Commissioners, shall be liable to a fine not exceeding Rs. 10 for every such offence.

or that any church or other place of public worship is dangerous to the health of persons frequenting the same, by reason of the state of the vaults or graves within the walls of, or underneath, the same, or in any churchyard or burial ground adjacent thereto;

and shall also certify that a fitting place for interment or burning (as the case may be) exists within a convenient distance and is available, no person shall, after a time (not less than two months) to be named in such certificate, bury or burn, or permit or suffer to be buried or burned, any corpse in, upon, within, or under the ground, church, or place of worship to which the certificate relates, except in so far as may be allowed by such certificate.

Power to license fuel shops at burning grounds.

384. The Commissioners shall, from time to time, grant licenses to persons applying for such, for the sale at burning grounds, of fuel and other articles used for the cremation of dead bodies, and shall in meeting prescribe a scale of rates for the sale of such articles; and any person not so licensed who shall, within three hundred yards of any such burning ground, sell or offer for sale any such fuel or other articles, shall be liable to a fine not exceeding Rs. 50.

The Commissioners may, on good and sufficient cause, revoke or withdraw any such license they may think fit, and any person to whom any such license is granted, who shall charge for the sale of any such article any higher rate than the rate fixed for such article in such scale, shall, at the discretion of the Commissioners, be liable to have his license cancelled, and shall also be liable to a fine not exceeding Rs. 10.

The Commissioners shall not be bound to grant a fresh license to any person whose license may have been revoked, withdrawn, or cancelled under the provisions of this section.

PART IX.—*Of Nuisances.*

Nuisances which may be dealt with summarily.

385. The following nuisances shall be deemed to be nuisances liable to be dealt with summarily in manner provided by this Chapter:—

(*a*) Any premises in such a state as to be a nuisance or injurious to health:

(*b*) Any tank, well, ditch, gutter, watercourse, privy, urinal, cesspool, or drain so foul or in such a state as to be a nuisance or injurious to health:

(*c*) Any animal so kept as to be a nuisance or injurious to health:

(*d*) Any accumulation or deposit which is a nuisance or injurious to health:

(*e*) Any house or part of a house so overcrowded as to be dangerous or injurious to the health of the inmates:

(*f*) Any factory, workshop or workplace not kept in a cleanly state, or not ventilated in such a manner as to render harmless, as far as practicable, any gases, vapours, dust or other impurities generated in the course of the work carried on therein that are a nuisance or injurious to health, or so overcrowded while work is carried on as to be dangerous or injurious to the health of those employed therein:

(*g*) Any fireplace or furnace which does not, as far as practicable, consume the smoke arising from the combustible used therein, and which is used for working engines by steam, or in any mill, factory, dye-house, brewery, bake-house, or gas-work, or in any manufacturing or trade process whatsoever, and any chimney (not being the chimney of a private dwelling-house) sending forth black smoke in such quantity as to be a nuisance:

Provided—

1*st.*—That a penalty shall not be imposed on any person in respect of any accumulation or deposit necessary for the effectual carrying on of any business or manufacture, if it be proved to the satisfaction of the Magistrate that the accumulation or deposit has not been kept longer than is necessary for the purposes of the business or manufacture, and that the best available means have been taken for preventing injury thereby to the public health.

2*nd.*—That where a person is summoned before any Magistrate in respect of a nuisance arising from a fireplace or furnace which does not consume the smoke arising from the combustible used in such fireplace or furnace, the Magistrate shall hold that no nuisance is created within the meaning of this Act and dismiss the complaint, if he is satisfied that such fire-place or furnace was constructed before the passing of this Act, and in such manner as to consume as far as practicable, having regard to the nature of the manufacture or trade, all smoke arising therefrom, and that such fireplace or furnace has been carefully attended to by the person having the charge thereof.

Information of nuisances.

386. Information of any nuisance, referred to in the last preceding section, existing in Calcutta, may be given to the Commissioners by any person aggrieved thereby or by any officer of the Commissioners.

Commissioners to serve a notice in case of nuisance.

387. On the receipt of any information respecting the existence of a nuisance, the Commissioners shall, if satisfied of the existence of a nuisance, serve a notice on the person by whose act, default, or sufferance the nuisance arises or continues, or if such person cannot be found, on the owner or occupier of the premises on which the nuisance arises, requiring him to abate the same within a time to be specified in the notice, and to execute such works and do such things as may be necessary for that purpose: Provided—

1*st.*—That where the nuisance arises from the want or defective construction of any structural convenience, or where there is no occupier of the premises, notice under this section shall be served on the owner:

2*nd.*—That where the person causing the nuisance cannot be found, and it is clear that the nuisance does not arise or continue by the act, default or sufferance of the owner or occupier of the premises, the Commissioners may themselves abate the same without further order.

Where notice insufficient, Commissioners may prefer a complaint.

388. If the person on whom a notice to abate a nuisance has been served makes default in complying with any of the requisitions thereof within the time specified, or if the nuisance, although abated since the service of the notice, is, in the opinion of the Commissioners, likely to recur on the same premises, the Commissioners may cause a complaint relating to such nuisance to be made before a Magistrate, and such Magistrate shall thereupon issue a summons requiring the person on whom the notice was served to appear before him.

Magistrate's order.

389. If the Magistrate is satisfied that the alleged nuisance exists, or that, although abated, it is likely to recur on the same premises, the Magistrate shall make an order on such person requiring him to comply with all or any of the requisitions of the notice or otherwise to abate the nuisance within a time specified in the order, and to do any works necessary for that purpose; or an order prohibiting the recurrence of the nuisance and directing the execution of any works necessary to prevent the recurrence; or an order both requiring abatement and prohibiting the recurrence of the nuisance.

The Magistrate may, by his order, impose a penalty not exceeding Rs. 50 on the person on whom the order is made.

Order when a building is unfit for habitation.

390. Where the nuisance proved to exist is such as to render a house or building, in the judgment of the Magistrate, unfit for

human habitation, the Magistrate may prohibit the using thereof for that purpose, until, in his judgment, the house or building is rendered fit for that purpose; and, on the Magistrate being satisfied that it has been rendered fit for that purpose, the Magistrate may determine his previous order by another declaring the house or building habitable, and from the date thereof such house or building may be let or inhabited.

Penalties for disobedience of orders.

391. Any person not obeying an order to comply with the requisition of the Commissioners or otherwise to abate the nuisance shall, if he fails to satisfy the Magistrate that he has used all due diligence to carry out such order, be liable to a penalty not exceeding Rs. 5 per diem during his default; and any person knowingly and wilfully acting contrary to an order of prohibition shall be liable to a penalty not exceeding Rs. 10 per diem during such contrary action; moreover, the Commissioners may enter the premises to which any order relates, and abate the nuisance, and do whatever may be necessary in execution of such order, and recover the expenses incurred by them from the person on whom the order is made.

This Part, as regards nuisances, not to affect rights under other law.

392. The provisions of this Part relating to nuisances shall be deemed to be in addition to, and not to abridge or affect any right, remedy or proceeding under any other law for the time being in force:

Provided that no person shall be punished for the same offence both under the provisions of this Part and under any other law.

and if any dispute shall arise touching the amount or apportionment of such compensation, the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses:

Provided that, before the Commissioners make any such temporary use as aforesaid of any land adjoining or lying near to the said works, they shall give three days' notice in writing of their intention to the owner and occupier of such land, and shall, if required so to do by the owner or occupier, set apart, by sufficient fences, so much of the land as shall be required to be used as aforesaid.

Powers to be exercised by the Commissioners when constructing drains and aqueducts without the town.

395. For the purpose of laying pipes or constructing aqueducts for bringing water into Calcutta from any place beyond the limits thereof, or for the purpose of making sewers or drains to communicate with, or empty themselves into, any public sewer, lake, stream, canal, or water-course, without the said limits, the Commissioners may, whenever a plan for laying down any such pipes or constructing any such aqueduct, sewer, or drain, shall have been approved by the Local Government, exercise, in the laying of such pipes and construction of such aqueduct, sewer, or drain throughout the line of country through which the said pipes, aqueduct, sewer, or drain are to run, all the powers which by this Act they may exercise within the limits of Calcutta, and which may be necessary for the laying of such pipes, or the construction of such aqueduct, sewer, or drain, without being subject to any action or molestation whatever for so doing:

and the Magistrate of any district through which the said pipes, aqueduct, sewer, or drain are to run may exercise in respect thereof the like powers and jurisdiction, within the limits of his own district, as a Magistrate may under this Act exercise in respect of any work to be executed by the Commissioners in Calcutta.

Penalty for obstructing persons employed by the Commissioners in their duty.

396. Whoever at any time obstructs or molests any person employed by the Commissioners (not being a public servant within the meaning of section twenty-one of the Indian Penal Code), or any person with whom they may have contracted under the provisions of this Act, in the performance and execution of their or his duty, or of anything which they are respectively empowered or required to do by virtue or in consequence of this Act; or removes any mark set up for the purpose of indicating any level or direction necessary to the execution of works authorized by this Act, shall be liable to a fine not exceeding Rs. 200, or, in the discretion of the Magistrate by whom he is convicted, to imprisonment, either rigorous or simple, for any term not exceeding two months.

PART II.—*Of the acquisition and disposal of land.*

Commissioners may acquire and dispose of any land for the purposes of this Act.

397. The Commissioners in meeting may acquire any land, whether within or without Calcutta, for any of the purposes of this Act, and may dispose of land vested in them, and the Commissioners may receive the rent of any land leased by them on such terms as they may think fit.

PART III.—*Of Railways.*

Power to construct and maintain railway or tramway.

400. The Commissioners in meeting may, upon any of the public streets within Calcutta, or upon any land within or without Calcutta, which is vested in the Commissioners, construct or maintain any railway or tramway which may appear to them to be useful or necessary for the purposes of this Act, and use and employ upon any such railway or tramway by them heretofore constructed or hereafter to be constructed, such locomotive engines or other moving power, and such carriages and wagons to be drawn or propelled thereby, carry and convey upon such railway all such passengers and goods as shall be offered to them for that purpose,

Powers conferred by this Part subject to sanction of the Governor-General in Council.

403. All the powers conferred under this Part shall be exercised with the previous sanction of the Governor-General in Council.

CHAPTER XIV.

OF THE MUNICIPAL DEBT.

Power to Commissioners to borrow on the security of rates and taxes.

404. For the construction of works of a permanent nature under this Act, the Commissioners in special meeting may, with the sanction of the Governor-General in Council, from time to time borrow by way of debenture, on the security of the rates, taxes, and dues imposed and levied on account of the Municipal Fund, or of a portion of them, and at such rate of interest and upon such terms as to the time of repayment and otherwise as the Governor-General in Council may approve, any sums of money the Commissioners may require for the objects aforesaid.

Form of security.

405. All the debentures aforesaid issued under the authority of this Act shall be in the form contained in the twelfth Schedule, or in such other form as the Commissioners in meeting, with the previous sanction of the Governor-General in Council, may determine, and shall be transferable by endorsement, and the right to sue in respect of the moneys secured by any of such debentures shall be vested in the holders thereof for the time being without any preference by reason of some of such debentures being prior in date to others.

Payment of moneys due on old debentures by issue of fresh debentures.

406. The Commissioners in meeting may at any time, with the sanction of the Governor-General in Council, raise, by the issue of new debentures, any money that may be required to pay any moneys for the time being due on any debentures issued under the authority of this Act, or of any enactment hereby expressly repealed.

Establishment of reserve funds.

407. The Commissioners shall set aside quarterly out of their income, before making any disbursements in respect thereof,

such sum as may be required for the payment of the interest and instalments payable to the reserve funds which may fall due within the quarter on any debentures issued under the authority of this Act, or of any enactment hereby expressly repealed.

The instalments payable to the reserve funds shall be at the rate of one per cent. per annum on the aggregate unpaid sum borrowed by the Commissioners after the first day of April 1881, and at the rate of two per cent. per

annum on the unpaid balance of all debenture loans contracted before that date.

Surplus to be invested.

408. The Commissioners shall apply the reserve set aside under the last preceding section so far as it is required or so far as it extends to repay such debenture loans issued by them as shall fall due in the course of the year and shall invest the surplus (if any) of the said sum, after repayment as aforesaid, or in case there has not been any amount due or paid in respect of such loans or debentures during the year, then they shall invest the whole of the said sum in Government securities, or in any securities guaranteed by Government, or in Calcutta municipal debentures, in the names of the Secretary to the Government of Bengal in the Financial Department and the Accountant-General of Bengal respectively for the time being, to be by them held as Trustees for the purpose of repaying at due date from time to time the several loans contracted or debentures issued by the Commissioners. And all moneys and securities now held by any Trustees for the Commissioners, for the purpose of paying off any sums borrowed by them, not being sums borrowed from the Secretary of State for India in Council, shall be held by them upon the trusts hereinbefore declared.

All interest accruing due to the Trustees shall also from time to time be invested by them in like manner and held upon the like trust:

Provided always that the accounts of the fund formed by the payments made at the rate of two per cent. per annum and the fund formed by the payments made at the rate of one per cent. per annum shall be kept separate and distinct, and each reserve fund shall only be applied to paying off the debentures on account of which the instalments are payable.

Appropriation of reserve fund.

409. The Trustees shall from time to time, whenever any loans or debentures shall fall due by the Commissioners, realize the whole or a sufficient portion of the securities held by them as aforesaid on account of the reserve fund applicable to liquidate such loans or debentures and apply the sale proceeds thereof, so far as the same will extend, to satisfy such loans or debentures. The Trustees shall, at the end of every year, submit a statement to the Commissioners showing the amount which has been invested during the year under section four hundred and eight, and setting forth the date of the last investment made previous thereto, and also the aggregate amount of the securities then in their hands, and the aggregate amount which has up to the date thereof been paid off in respect of the said debentures and loans.

Account of reserve fund.

Such statement shall be laid before the Commissioners in meeting and published in the *Calcutta Gazette*.

Limit imposed on debenture loans.

410. The total sum borrowed by the Commissioners by way of debenture loans under this or any preceding Act shall not exceed such an amount that the sum payable thereon annually by way of interest and as instalments due to the reserve funds shall be more than ten per cent. on the annual valuation of Calcutta.

Commissioners may consolidate their loans.

411. Nothing in this Chapter shall be construed to prevent the Commissioners in meeting from inviting tenders at any time for a new loan to be called the "Municipal Consolidated Loan" on such terms as may be approved by the Governor-General in Council, and also inviting holders of municipal debentures to exchange their debentures for such Municipal Consolidated Loan stock at such rates as the Commissioners may consider fair and the Governor-General in Council may approve. The scrip of such stock shall be in such form as the Commissioners in meeting, with the previous sanction of the Governor-General in Council, may prescribe. The Commissioners shall repay such Consolidated Loan by annual payments at a rate of not less than one-sixtieth of the unpaid balance in each year in lieu of contributing to a reserve fund under section four hundred and seven, and the stock to be paid off shall be purchased in the open market; and the provisions of section four hundred and seven shall apply to the sums necessary to make such annual payment:

Provided that, if during any year no stock is obtainable in the open market at, or below, its par value, it shall not be obligatory on the Commissioners to make repayment until such stock is obtainable in the open market at, or below, its par value.

CHAPTER XV.

OF BYE-LAWS.

Power to make bye-laws.

412. The Commissioners in meeting may from time to time make bye-laws, not inconsistent with the provisions of this Act, with regard to—

Class VII.—Re. 1.

All itinerant dealers hawking goods for sale in baskets or trays.

(2). No person shall be required to take out more than one personal license, provided that if he is liable under different classes he shall take out a license under the highest class under which he is liable.

(3). When two or more persons carry on business jointly, they may take out a single license as a firm; but if any of the partners exercises any separate profession, trade or calling on his own account, or with other partner he must take out a separate license.

(4). A separate local license shall be requisite for each separate place of business. Provided that no separate license shall be necessary for adjacent premises forming one place of business, or for yards, godowns or factories auxiliary to a place of business, but in such cases the valuation of all the premises, yards or godowns shall be computed in determining the class under which the license must be taken out.

(5). When any person practises a profession, trade or calling for which a personal license should be taken out, and is also the owner or lessee of a place of business for which a local license should be taken out, he shall take out separate licenses, but one license will suffice if the place of business is auxiliary to his profession, trade or calling.

(6). When the owner or lessee of any place is liable to take out a license, the license should be taken out by the lessee, if there is any lessee; if not, by the owner.

(7). The liability of any person to take out a license, and the class under which he is liable, shall be determined in the following manner:—

(*a*)—Any person who has taken out a license for the preceding year or been fined under section ninety for not taking out a license during such year, shall be presumed to be liable and entitled to take out a license under the class in which he was then placed in the year for which the tax is being levied.

(*b*)—Any person who, in consequence of any change in his profession, trade, or calling, or place of business, or for any other reason, considers himself entitled to take out a license in a lower class than before, or to be altogether exempted, may present an application to that effect to the Commissioners at any time before the first day of July. If no application is made by that date he will be liable to take out a license as prescribed in clause (*a*).

The Commissioners shall pass orders on such application, and the license shall be taken out in accordance with such orders, unless appealed against under clause (*e*).

(*c*)—If the Commissioners consider that any person who has not taken out a license in the preceding year ought to take out a license, or that any person who has taken out a license for the preceding year but has not taken out a license for the current year ought to take out a license in a higher class or more than one license, they may serve him with a notice directing him to take out a license for the current year in such class as may seem to them proper.

(*d*)—If the Commissioners consider that any person who has taken out a license for the current year ought to have taken out a license in a higher class, they may serve him with a notice directing him to take out a license in such higher class the following year, and such person shall thereupon, unless such order is modified, be bound to take out a license in such higher class, clause (*a*) notwithstanding.

If a person is summoned for not taking out a license, and service of notice under clauses (*c*) and (*d*) is not proved, it shall be incumbent on the Commissioners to prove that the person summoned is liable to take out a license as well as the class under which he is liable.

(*e*)—Any person dissatisfied with the orders of the Commissioners under clause (*b*) or on whom a notice is served under clause (*c*) or clause (*d*) may appeal against the orders contained in it—

(1)—To a Bench consisting of the Chairman or Vice-Chairman and not less than three Commissioners, or

(2)—To a Court of Small Causes having jurisdiction in the place in which the profession, trade, or calling is said to be carried on.

(8). In case of an appeal to a Court of Small Causes under this Schedule, the said Court may follow the procedure laid down in sections four hundred and twenty-four and four hundred and twenty-five.

(*f*)—Such person shall, within fifteen days of the passing of the order, or of the receipt of the notice, deliver at the office of the Commissioners an application in writing, stating the grounds of appeal, and also informing the Commissioners whether he intends to appeal under clause (1) or clause (2).

No appeal shall lie unless the amount of the license as assessed has been deposited with the Commissioners.

The Commissioners may, if they think fit, extend the period of an appeal under clause (1).

(*g*)—The order of the Bench or Court, or, if no appeal is made, the order contained in the notice, shall be final.

(9). The Commissioners may at any time grant a license for any previous year for which no license has been taken out on payment of the amount of such license, but the production of such license shall not afford a valid defence if the licensee is prosecuted for failing to take out a license within the time required by this Act.

RESOLUTION ON THE BOARD'S REPORT ON WARDS' AND ATTACHED ESTATES IN THE LOWER PROVINCES FOR THE YEAR 1887-88.

REVENUE DEPARTMENT—LAND REVENUE.

Darjeeling, the 28th September 1888.

RESOLUTION.

READ—

The Report of the Board of Revenue on Wards' and Attached Estates in the Lower Provinces for the year 1887-88.

THIS excellent report, submitted on a new plan, is a great improvement over its predecessors. It is divided into three parts, the first of which contains a general review of the management of estates in the whole province; the second furnishes an account for the year of report of important estates with a rent-roll of Rs. 50,000 and upwards; and the third part gives special notices of estates taken in charge or released during the year. By this method of treatment, and the exclusion of all superfluous matter, the interest of the report has been enhanced, while its bulk has been materially diminished.

Demand, collection and balances.

2. The balances of revenue and cesses due to Government at the close of the year show some reduction. It is satisfactory to observe that the large arrears (Rs. 67,422) due from the Sultangacha estate have been paid since the close of the year, and that the property has been released from attachment. The collections of rent and cesses due to estates under the Court of Wards amount to 97·4 per cent. on the current demand. This is a larger percentage than has been attained for many

years past. The following comparative statement shows the demand and collections during the past three years :—

Year.	Arrear demand.	Current demand.	Collection.	Percentage of collection on current demand.	Remissions.	Balances.
	Rs.	Rs.	Rs.		Rs.	Rs.
1885-86	80,53,304	99,61,691	96,60,837	93·9	3,59,492	82,95,087
1886-87	81,87,509	1,02,96,849	98,80,751	94·0	3,00,426	84,84,428
1887-88	1,16,36,923	1,08,41,439	99,81,714	97·4	2,15,827	1,16,96,615

The collections were satisfactory in the Presidency and Burdwan Divisions, in portions of the Bhagulpore and Rajshahye Divisions, and in the districts of Chittagong and Noakholly. The result is worst in the Chota Nagpore Division, where the failure to collect is conspicuous in several of the estates under management.

3. The large increase in the arrear demand of the year is due to the assumption of charge of the Bhowanipore (Boroda Prosad Roy's) estate with a balance of over 27 lakhs of rupees, of which more than 25 lakhs are practically irrecoverable. The circumstances of this estate afford, as the Board remark, another striking illustration of the manner in which zemindari accounts are generally kept in Bengal. The current demand of rent and cesses in this property is only one and a half lakh of rupees. The accumulated balances amount to eighteen times the current demand; and although nearly the whole of them are irrecoverable, they have not been struck off. The Manager has now been directed to take measures for their early adjustment, and to apply for remission after careful enquiry. The Srinagar estate is another property which shows balances considerably in excess of the current demand. The demand of this estate is Rs. 2,62,239; and notwithstanding that over 10 lakhs of rupees of arrears, which were due from the time of the old proprietor, were remitted in 1884-85, the recorded balances still amount to Rs. 7,42,645. It is reported by the Settlement Officer that these arrears consist for the most part of rents of land long ago relinquished or abandoned, and are therefore unrealizable; but that until the settlement of each separate village is taken in hand, full particulars for remission cannot be supplied.

4. The current rent and cess demand of the Burdwan Raj estate was Rs. 45,64,664, and the arrears amounted to Rs. 39,07,569. The collections were Rs. 45,28,233, or 99·2 per cent. on the current demand, against 97·9 and 98·2 per cent. in the two previous years. The greater portion of the estate is let in putni, and the collections are therefore made without much difficulty. In Koojung, which is managed directly under the Collector of Cuttack, the demand is Rs. 1,19,167 and the collections Rs. 93,704, or 76·6 per cent.; while in Soojamoota, also under direct management, in the district of Midnapore, where the demand is Rs. 93,663, the collections amounted to only Rs. 9,206, or 9·8 per cent. The Board explain that the extremely unsatisfactory result in Soojamoota is due to the fact that the tenants have taken advantage of the dispute between the Dowager Maharani and the Court of Wards to evade payment of their rents to anyone. Subsequently they raised objections to the demand, as shown in the books of the Raj, on the ground that it included illegal cesses. The abwabs included in the Soojamoota rent-roll are 28 in number. Of these, 9, which were incorporated with the rent 18 years ago, are both equitably and legally payable, and they will in future be shown in the rent receipts, not as cesses, but as part of the rent, which in fact they really are. The claim to the remaining 19 cesses, including zemindari dâk cess and Company's batta, has been abandoned. Since the close of the year it has been necessary to entertain a special establishment for the recovery of more than Rs. 2,25,000 of arrears which were about to be barred by limitation. The Lieutenant-Governor trusts that the Collector will, by the exercise of his personal influence on the spot, be able to save the tenantry from the execution of the greater number of certificates which have been made.

5. In the Tikari estate, where the current demand of rent and cesses is Rs. 6,85,485 and the arrear demand Rs. 4,12,200, the collections amounted only to Rs. 6,25,684, or 91 per cent. on the current demand. It is explained that the management was hampered by the difficulties incident to the transition

from a system of farming leases to one of direct management. The fertility of the lands largely depends on the maintenance of the village embankment and irrigation works, which have been greatly neglected by the thikadars. But making all allowance for these difficulties, the results are not satisfactory. In the Dighaputtea estate, with a current demand of Rs. 4,74,519 on account of the property of the elder ward, the collections amounted to Rs. 4,73,565, or 99 per cent. In the Nashipore estate the collections were 111 per cent. on the current demand, and in the Cossim Bazar estate 115 per cent. In the Srinagar estate the collections were 96 per cent.; in Nurhan 91·6 per cent. only. Among other large properties, the collections were very satisfactory in the Syedpore, Chanchal, Nuddea, Malwar, Raj Krishna Banerjea and Courjon estates. In the Dhankoora estate the difficulties of management proved too great for the Manager, who resigned. The collections were only 78 per cent on the current demand. It is hoped that the present Manager, Baboo Troylokya Nath Lahiri, who brings a favourable reputation with him from his administration of the Burdhankoti estate, in Rungpore, will be able to show better results. The Kanika estate, in Cuttack, which was slowly recovering from the severe damage caused by the cyclone and storm-wave of September 1885, again suffered considerable injury from the cyclone of May 1887, and it was found necessary to remit collections in the area affected. The recoveries amounted to 88 per cent. on the current demand, against 82 and 75 per cent. in the two previous years. The Collector reports that rents throughout the estate are fair and moderate, but complaints have been made of illegal exactions by the mustagirs and village headmen, and it has been necessary to issue orders prohibiting the collection of unauthorized cesses.

Surveys and record of rights.

6. The whole question of the survey and record of rights in wards' estates has been under discussion during the year, and full reports on the subject have been received from the Board and from the Director of Land Records. After the amplest consideration, the principle has been established that surveys shall only be undertaken in those estates in which funds are available, and which have no proper rent-roll upon which a certificate of arrears could be based. The proposals of the Director were therefore considerably modified, and, in accordance with the suggestions of the Board of Revenue, the programme has been revised so as to include the following estates only:—

	Name of Estate.	Estimated area.	Estimated cost of surveys and records of rights.
		Acres.	Rs.
1.	Srinagar	500,000	2,40,119
2.	Sunkerpore	176,000	88,000

4.	Chooramon (ijmali properties) ...	52,910	26,455
5.	Burdwan Raj (Koojung) ..	229,366*	70,000
6.	Burdwan Raj (khas mehals, including Soojamoota)	98,000	50,000
7.	Kanika	333,392†	55,000
8.	Cossim Bazar (pergunnah Sarail) ..	195,370	1,00,000
9.	Dakhin Shahbazpore (subject to the consent of the proprietors to the survey)	62,824	31,412
10.	Jogesrah	1,276	500

7. Although the scheme now sanctioned appears to be meagre in comparison with the more ambitious proposals put forward by the Director, the Lieutenant-Governor considers that a programme which comprises the professional survey, the record of rights in, and the settlement of, eight or ten large wards' estates, comprising more than a million acres, is really a large undertaking, and quite as much as the Court of Wards is justified in attempting at present. His Honour entirely agrees with the Board of Revenue that the procedure under the Tenancy Act, which is calculated to produce very beneficial results where disorder prevails, should not be extended to other estates merely because they are large, or solvent, or valuable. It is also very important that

* Of this 100,000 acres are in forest, and the outer boundary only will be demarcated.
† Only 83,000 acres are supposed to be under cultivation.

in regard to each estate it is proposed to survey, the funds in hand and time available should be borne in mind. It is always advisable that the proprietors of estates should have some money in hand when their estates are released. A very large amount is indeed likely to be a fatal gift. But some money is necessary for inaugurating a new *regime* and for the expenses which a large landlord, just out of his tutelage, is bound by the pressure of those around him to undergo.

8. In regard to the first four estates abovementioned, action has already been taken. A party has been supplied by the Survey Department for the traverse and cadastral survey of the Srinagar estate. The settlement operations have been placed under Mr. Collin. The work commenced in December 1887, and it is calculated that it will be completed by the 31st December 1890. The Sunkerpore and Muldwar surveys are also being conducted by a professional party, but in the Chooramon estate the measurement has been done by non-professional agency. The Lieutenant Governor is aware that these operations are receiving the close attention of the Board and of the Director of Land Records, but he observes with some anxiety that in the Sunkerpore estate, where the proceedings are approaching completion, the expense incurred is much larger than was anticipated. The proceedings now in hand are necessarily experimental in character, and may therefore be expected to be more expensive than they will ultimately become when greater experience has been gained. It is unsatisfactory to observe the small proportion of the expense which had been recovered from the co-sharers, both in the Srinagar and Sunkerpore estates. The account given by the Board of the Chooramon settlement is not creditable to the Court of Wards' administration. The survey has been completed, but, through the neglect of the Manager, who appears to be too infirm for his work, the settlement has been left untouched, and it has been found necessary to appoint a special Settlement Officer to undertake duties which should properly have been discharged without any additional expense to the estate. The Commissioner writes of this property:—

"The financial position of the estate is not good, though it is under no liabilities, owing to heavy expenditure incurred on account of the survey and settlement of the estate. The collections have become bad, and the balances are mounting up. All the Government securities have been expended, and the Manager reports that it will be difficult to realize sufficient rent to pay up expenses before the collection of the new year 1295B.S. is commenced. Besides, the ward's house is in a dilapidated condition and ought to be rebuilt, but the Collector fears that it will be impossible to do so in the present condition of the estate."

The Lieutenant-Governor understands that the Board have already taken serious notice of the state of things described, and that no further orders of Government are required. It is necessary that the unremitting attention of all officers concerned should be devoted to the improvement of the property during the short period which remains before its proprietor will attain his majority.

It is reported that the putwaries of the Srinagar estate are being trained in survey work to enable them to correct the maps and maintain the records in future, and that similar attempts are being made in Dinagepore, but have not proved very successful, as only 15 men have received certificates of efficiency. These efforts should be persevered with, although the Lieutenant-Governor is not very sanguine of their success. It is important to enlist local co-operation as much as possible in all these proceedings.

9. In addition to these operations, which are being carried on under the supervision of the Director, the survey and settlement of the estates of Raj Krishna Banerjee and Fazal Ali Khan, in the Chittagong district, have also been effected. The result in these cases appears to be very successful from the financial point of view, and is creditable to the general Manager, Baboo Koilas Chunder Das, and Assistant Manager, Baboo Jogendro Kumar Bose, by whom the work has been done. The Lieutenant-Governor acknowledges also the valuable service rendered by Mr. Slack in his capacity of special Settlement Officer of wards' and encumbered estates in the Chota Nagpore Division.

Miscellaneous.

10. The account given by the Board of the condition of the tenantry in wards' estates and of the education of wards is generally satisfactory. The contribution in aid of schools and dispensaries during the year shows an increase; it amounts to

Rs. 98,209. Agricultural experiments have been conducted in several estates, as usual, and occasionally with success. The Board have, since the close of the year, issued orders to all Commissioners that, within the limits and under the conditions already laid down by Government, such encouragement as is practicable may be given to the progress of agricultural improvements in the properties under the charge of the Court of Wards. A sum of Rs. 1,000 has been sanctioned from the resources of the Cossim Bazar estate, as a contribution to the fund which is being locally realized, by merchants and zemindars who are interested in the silk industry, for experiments which, it is believed, will prove very valuable in improving the breed of silk-worms.

Burdwan Raj estate.

11. It is unnecessary to follow the Board's report throughout the detailed account furnished of the more important estates under management, or of those which were released during the year. The information given is complete, and will be useful for reference. But the Lieutenant-Governor considers it desirable to reproduce in this resolution the following remarks, which are recorded by the Collector of Burdwan, regarding the claims of the Dowager Maharani up to date:—

"In July 1887, when His Honour the Lieutenant-Governor paid a visit to Burdwan, the Dowager Maharani requested him to pass orders for the payment of her increased allowance and delivery of the minor landed properties to her and settlement of her claims to the jewellery. In regard to the making over of the minor properties and payment of the increased allowance, His Honour laid down the following conditions:—

"(*a*) That the papers of Koojung and Soojamoota should be first fully delivered by her.

"(*b*) That the hoarded coin and jewels should be counted and catalogued, and the jewels valued.

"In the November following I reported that the first condition, viz., the surrender of papers, had been fulfilled by her as far as lay in her power, though the Managers were divided in their opinion on this point.

"The hoarded coin was counted and catalogued in August 1887, but the general catalogue of the jewels is not yet finished. This work was begun in October by Mr. McIntosh, Assistant Collector, and subsequently placed by me in the hands of Mr. Taylor, the Joint-Magistrate. On his appointment as District Judge of Burdwan, on the 21st January last, the inventory work was stopped for some time. In March it was resumed by Mr. McIntosh, Assistant Collector, then by Mr. Brown, Assistant Collector, and on his transfer by Mr. McIntosh again. He was relieved by Deputy Collector Baboo Shyamadhaba Roy, specially deputed for this purpose. As the Dowager Maharani was not responsible for the delay in drawing up the catalogue, she was reported to have earned the fulfilment of His Honour the Lieutenant-Governor's promise, and the Board directed the immediate surrender to her of the minor landed properties, which were accordingly made over to her on the 26th March last. With regard to the payment of her increased allowance, the Board directed that this payment should be made as soon as the 160 items of jewellery included in schedule F were identified and catalogued, as this identification was a necessary preliminary to the settlement of her claim. The Dowager Maharani, however, refused to admit that the payment of the allowances could be delayed for the identification of the 160 items of jewellery. Meanwhile a dispute had arisen between her and the Managers, the latter claiming the right to catalogue the valuables in her apartments, while she refused to admit that these valuables belonged to the estate. She protested against any delay in the payment of the allowances on this account. Finally, she agreed to abide by the arbitration of Mr. Pugh as regards the 160 items of jewellery, and to accept the valuation of them by Messrs. Cooke and Kelvey of Calcutta. She also consented to execute the deed of compromise as settled by Mr. Pugh. The Board therefore directed me, on the 16th May 1888, to pay her allowance in future at the increased rate, and to arrange for the payment of the arrears of her increased allowance from the 28th September 1886 at once. These orders have since been carried out. Moreover, at the request of the Dowager Maharani, the draft deed of compromise has been drawn up by the Government Solicitor instead of by the Government Pleader of Burdwan. The conclusion of the compromise now only awaits the arbitration of Mr. Pugh, and meanwhile all its conditions, about which no dispute remained—that is, all but the terms regarding the jewellery—have been carried out."

The arbitration is over, but the Board report that the award has not yet been given, and that the terms of the deed of compromise have not been finally settled. An allowance of Rs. 9,000 a month, with arrears, with retrospective effect from the 28th September 1886, is now paid to the Dowager Maharani by the estate.

12. In July 1887 the Lieutenant-Governor gave his sanction to the adoption by the late minor Maharani Benodeyi Debi of Lala Bijon Behari Kapur, son of Lala Ban Behari Kapur, as a son to her husband, the late

Maharajah Aftab Chand Bahadur. It was with great regret that His Honour heard of the death of the Maharani on the 13th of May last. The young Maharaj Kumar, to whom the name has been given of Bijoy Chand Mahtab Bahadoor, is reported to be well behaved and very intelligent. His guardians are Lala Ban Behary Kapur, his natural father, and Lala Lachmi Narain Khanna, father of the late Maharani Benodeyi Debi. Since the close of the year a suit has been instituted in the High Court by the Dowager Maharani to set aside the adoption and to obtain possession of the Raj estate.

Services of officers.

13. The Lieutenant-Governor is glad to notice the services of the Commissioners and Collectors, who are commended by the Board for their work in the Wards' Department. The Board's observations will, as usual, be communicated to the Appointment Department. The following Managers are named by the Board for their efficient service:—

Baboo Bogolanund Mookerjee, Cossim Bazar estate, Moorshedabad.
„ Kali Naran Roy, Chanchal estate, Maldah.
„ Koylas Chandra Das, General Manager, Wards' estates, Chittagong.
„ Jogendra Kumar Bose, Assistant Manager, Wards' estates, Chittagong.
„ Gyanendra Lal Rai, Nuddea estate, Nuddea.
„ Troyloko Nath Lahiri, Burdhankotee estate, Rungpore.
„ Rasick Lal Ghose, Haripore estate, Dinagepore.
„ Moti Lal Mookerjee, Dalbhoom estate, Singbhoom.
„ Adhur Kali Mookerjee, General Manager, encumbered estates, Hazaribagh.
„ Poresh Nath Ghose, General Manager, encumbered estates, Manbhoom.
„ Krishna Chandra Gupta, Pogose estate, Mymensingh.
„ Okhoy Narain Deb, Jamkunda estate, Balasore.

14. The high estimation in which the Court of Wards' management is deservedly held in these provinces cannot fail to be amply sustained by the results which are shown in this report; and although in one or two instances, owing to the inefficiency of local agents, there may have been a comparative failure in administration, the general result is highly satisfactory and honourable to the Court of Wards. This success is largely due to the special knowledge and ability which Mr. Reynolds has displayed in presiding over this important department.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Offg. Secretary to the Government of Bengal.

FLOODS IN THE BURDWAN DIVISION.

THE following correspondence is published for general information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secy. to the Govt. of Bengal.

Dated the 2nd October 1888.

Famine No. 3305—135 Fam., dated Calcutta, the 2nd October 1888.

From—P. NOLAN, Secretary to the Government of Bengal,
To—The Commissioner of the Burdwan Division.

I AM directed to acknowledge the receipt of your letter No. 33RG, dated the 22nd September, 1888, submitting a report from the Collector of Burdwan, dated the 16th September, 1888, on the recent inundation of the Adjai and Damudar rivers in his district.

2. The action taken by Mr. Oldham and his Sub-divisional Officers is approved by Government, and the further report promised is awaited. I am to request that no time may be lost in submitting the full reports which have been called for from the other districts of your division, and especially from Midnapore, where the injury from floods appears to have been greatest. The Lieutenant-Governor is confident that in any cases where it may have been found necessary to afford relief to the suffering population, action has been at once taken.

3. The question of the Damudar embankments has repeatedly been under the consideration of Government in the Public Works Department, and, with reference to the present inundation, is being again considered. But the restoration of these embankments has always been condemned by Engineers, who have, on previous occasions, enquired into the matter, and the reasons for the rejection of the proposal are fully stated in Colonel McNeile's letter No. 452*I*, dated 12th March, 1885, to which the Collector refers in his report. These reasons still hold good, and therefore sufficient cause has not been found for modifying to any extent the orders on the subject.

4. The injuries caused by floods divide themselves into three classes,—(1) the deposit of *sand*, causing deterioration and even destruction (for the time being at least) to the soil, (2) the destruction of crops and villages by the erosive action of the floods, and (3) their destruction by excessive flooding. The first two classes can no doubt be remedied at a comparatively moderate cost. The floods of the Damudar have been under observation since the orders of the 12th March, 1885, were issued, and there appears to be some grounds for believing that it may be advisable to make certain arrangements at the main breach, (the Jankooli), in order that the discharge through it may be to some extent restrained. It is very doubtful, however, whether a gradual raising of the area injured temporarily by sand deposit will not in the end be extremely beneficial, and the results of the floods of the present season will possibly give an answer to the question whether the floods should be in any way restrained. As regards the third class of injuries, the objections mentioned in Colonel McNeile's letter to the closing of these breaches, acting as escapes, are as strong as ever, whilst the soil in most instances is greatly benefited by the fertilising silt deposited by the floods. Such benefit is, however, in some cases counterbalanced by the retention of the water on the flooded area for too long a time, and this is due to the want of a proper outfall. It is just as impossible now as ever to entertain either of the proposals hitherto put forward for the remedy of this state of affairs, viz, the retention of the floods of the Damudar within its own embankments down to the Hooghly, or the diversion of the flood spill into any other lines than those through which it now gradually finds its way into the Hooghly; but, in connection with the floods in the Cossye and Selye rivers, it appears necessary to investigate the possibility of improving the outfall of the Roopnarain river, and the

improvement of the latter would possibly affect beneficially the outfall of the Damudar flood spill. It is understood that a proposal for carrying out the investigation just mentioned is under the consideration of the Public Works Department of this Government, though grave doubts are expressed as to the feasibility of increasing the capacity of the Roopnarain river at all.

No. 33RG, dated Burdwan, the 22nd September 1888.

From—E. V. WESTMACOTT, Esq., Offg. Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Revenue Department.

WITH reference to your No. 3119—125Fam. of the 13th instant, I have the honour to submit copy of a further report, No. 1246G of the 16th idem, from the Collector of Burdwan, on the effects of the late floods caused by the overflow of the rivers Adjai and Damudar. Mr. Oldham is watching the matter sufficiently. He is in personal communication with me.

No. 1246G, dated Burdwan, the 16th September 1888.

From—W. B. OLDHAM, Esq., Collector of the Burdwan Division,
To—The Commissioner of Burdwan.

IN reply to your No. 177RG, dated 10th September 1888, calling for a report on the effects of the recent floods in the town of Cutwa and the Cutwa sub-division, and to your endorsement No. 61RG, dated 14th September 1888, on Government letter No. 3052—118Fam., dated 8th September 1888, enquiring about the results of the floods from the Damudar, I have the honour to furnish the following provisional report on the floods in the Burdwan district on the last week of 1888.

2. It has been ascertained that there has been no loss either of human life or of cattle from the floods. There has been considerable loss, amounting in many villages to total destruction, of the standing crops, and a very great number of huts have fallen down, though so far I cannot learn that any of the good mud houses of the ordinary kind to be found in a rural village have been seriously injured. Though I hold a balance of about Rs. 2,000 in my local Famine Relief Fund available for the relief of emergent cases, and there is a similar private fund held by private trustees in the town of Burdwan, no applications for such relief have yet been made, and no cases requiring it have been reported. The only applications which have been the direct outcome of the floods have been for the restoration or construction of certain embankments.

3. From the information now available, which I believe to be complete, I estimate the area of serious damage to crops, that is, in which the standing crops have either totally, or to the extent of three-fourths of them, been destroyed, to be 120 square miles. This area may be generally described as the margin of the Adjai for a depth of 1½ miles on each side of its course through the Cutwa sub-division; of a similar margin on the right bank of the Bhagiruthi for a distance of 20 miles in the same sub-division including the peninsulas; and in the head-quarters sub-division of a similar margin on the right bank of the Damudar from opposite Burdwan to Gotan in the south east extremity of the district about 20 miles. The floods of course penetrated very much further, but in large areas their incursion has been solely beneficial, and the extent of loss between those areas and the margin described varies.

20 × 3	= 60
20	= 60
20 × 1½	= 60
20 × 1½	= 30
	120

4. The effects of the floods in the different localities inundated will be very different. Floods from the Bhagiruthi, when so local as those now reported on are, have always been found to more than compensate for the immediate damage they cause. The same with some qualification may be said of the Adjai floods, though they sometimes leave long narrow stretches of sand. In this district the Damudar floods have been always most beneficial to the country in which they but sightly affect the standing crops by their depositing the silt, while they have been disastrous to the tract in which their rush has entirely destroyed the standing crops as they leave it coated with thick sand.

5. My information about the Cutwa sub-division has been drawn from the diaries just received of the experienced Sub-divisional Officer Baboo Jadu Nath Bose, who has been visiting the inundated tracts. The floods in the town of Cutwa reported to you under my endorsement No. 1111G, dated 31st August 1888, had no further effect beyond causing the extreme inconvenience and alarm and damage to some habitations described in that correspondence, and no further report regarding them is necessary. The most serious damage done in any one spot has been the destruction of the zemindari embankment at Fatehpore on the Adjai, which was constructed only in May last at a cost of about Rs. 8,000 raised by subscription. Though the Sub-divisional Officer found the Bhagiruthi peninsulas completely submerged, and the houses standing out of the water as if on piles, while the women and children had been sent to the mainland for safety, the male population were either busy fishing or amusing themselves in their enforced idleness. The main products of these tracts are their splendid cold-weather crops. In the Sub-divisional Officer's opinion the floods were far more extensive and severe in the Nuddea district than on the right bank of the Bhagiruthi. The Adjai flood was the highest within memory. The severest damage must have been caused

by its carrying away the Fatehpore embankment, and regarding this I will report again. The greater part of the country on its left bank, which I visited in February last, has been left uncultivated for years, partly because of its exposure to inundation and partly because the land has been spoiled by previous floods.

6. As regards the Damudar floods, the chief reference is the correspondence which closed with the orders of Government conveyed in Colonel McNeile's letter No. 452I, dated 12th March 1885, on the subject of the Jankooli embankment. It has been noticed in my successive Land Revenue and Annual Administration Reports that the agitation regarding this Jankooli case has never ceased to be maintained, chiefly by Baboo Chakan Lall Roy of Chakdighi and his brother talukdars. They are at this moment pressing Government to re-open the case, which has been frequently noticed by the Press, both English and Native, throughout the year. The present floods of course have afforded capital for this agitation, and though, as far as I have ascertained, they have not been so immediately destructive as those from the Adjai, the notice of them by the Press, which has taken no notice of the floods in Cutwa, is accounted for by the agitation regarding the Jankooli case. As these results were to be predicted with certainty, I had been very carefully watching the Damudar floods from the first, and as soon as they subsided, sent the Excise Deputy Collector on an excise tour through the south Damudar tract with orders to ascertain quietly what the result of the inundation had been. He returned yesterday, and the information, which I have provisionally given was obtained from his verbal report. Meanwhile the senior Sub-Deputy Collector has been sent out to hold a public enquiry, and I have arranged to spend four or five days in the flooded tract myself this week.

7. Meanwhile I am in a position to meet any cases requiring relief either in Cutwa or on the Damudar. As regards the means for preventing those calamities in future, the case of the south Damudar country is in the hands of Government, and I have nothing to add to the information which has been given in the correspondence regarding the Jankooli embankment and breach. As regards the floods from the Adjai, I cannot report till I have received further information from Cutwa, and till I have visited the localities myself; but in this case, too, I believe that no preventive measures can be adopted except those which are suggested and approved by the professional advisers of Government. The present case of the Fatehpore embankment adds confirmation to the instance afforded by the embankment which Mr. Larminie constructed at Jankooli in 1882 at a cost of Rs. 11,000, which was absolutely effaced within a month of its construction (*vide* the correspondence ending with this office No. 2114G, dated 26th February 1885).

No. 452I., dated Calcutta, the 12th March 1885.

From—Lieut-Col. J. M. McNeile, R.E., Joint-Secy. to the Govt. of Bengal, Public Works Dept,

To—The Commissioner of the Burdwan Division.

I am desired by the Lieutenant-Governor to acknowledge the receipt of your letter No. 110, dated 19th December last, on the subject of a breach in the Janculi embankment on the right bank of the Damooda, and the damage caused by the spill of flood-water at and near that place, and in reply to make the following remarks.

2. As noted in your letter, the restoration of the embankments on that bank of the river has been pronounced objectionable by the engineers who have thoroughly investigated the question, but it will be well here to explain briefly the reasons for this objection.

From calculations of the slope of bed and of the waterway of the river it is known that the total possible discharge between the embankments below the great bend of the river east of Burdwan is (approximately) 150,000 cubic feet per second, while the volume brought down by the river during a heavy flood is about 350,000 cubic feet, and there is consequently a total spill over the bank of about two lakhs of cubic feet per second escaping at various points below Sangatghola (a few miles above and on the opposite side to Jcojooty).

It is quite clear, then, closing the breaches at and below this point with anything like really effective embankments would only cause worse and possibly more disastrous breaches lower down. The water cannot be kept within bank or embankment limits down to the mouth of the river. It was to reduce the average depth of the flood passing over the country that the removal of 20 miles of embankments was ordered in 1856-59, and the same argument is equally valid now

3 Turning next to your suggestion to provide outlet channels, you will see that this would involve the construction of a new river capable of carrying in extreme flood 200,000 cubic feet per second, or larger than the actually existing channel of the Damooda itself. To prevent the risk of an excess of water passing down this channel, and to send the required amount down it to relieve the Damooda, a very extensive regulator would be necessary at the bifurcation, and the new channel must be carried down to the Hooghly, as neither the Damooda itself lower down, nor the Roopnarain could carry off such an additional volume: the new channel or river would therefore have to be some 60 miles in length.

All this would involve an outlay in work and land which it is not worthwhile attempting to estimate, and it must be recollected that in the case of any partially remedial measures, there would certainly in some year or years be loss caused where there is none now, or where it cannot be laid to the charge of any specific work. As soon as ever there was an excuse for charging any Government channel, or embankment, or want of embankment, demands for

compensation would pour in, and it is impossible to guess even what Government might be compelled to pay on this account.

4. It is not denied that the existing floods cause some damage, nor is it argued that such a spill as is under consideration ever occurs without in some cases serious flooding and loss of crop, but the floods are not wholly detrimental. The flow of water is in some years and in some places such as to drown or even wash away portions of the crops; but if this occurs early in the year, a second crop is successfully grown, and in any case a large quantity of fertilizing silt is spread over miles of country beyond the special tracts in which devastating floods are now complained of, and a gradual and very important and beneficial raising of the level of the country is in progress.

5. On a full consideration of all the facts of the case, the Lieutenant-Governor is of opinion that it is more than doubtful whether any practicable measures in the direction of partial remedy of the flooding complained of would not result in more harm than good; that nothing at all could be done except at great expense, for which there would be no return, while the entire outlay would have to be borne by Government; and that it is certain that any works executed would undoubtedly give rise to complaints elsewhere, quite as loud as these now made, and possibly more valid. His Honor is therefore unable to reconsider the orders passed on the subject of non-reconstruction of the Janguli and other embankments on the right bank of the Damooda, or to entertain proposals for any drainage works to carry off the flood spill into other lines than those through which it now gradually finds its way down to the Hooghly.

FLOODS IN THE MIDNAPORE DISTRICT.

THE following is published for general information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secy. to the Govt. of Bengal.

Dated 1st October 1888.

No. 28R.G., dated Burdwan, the 11th September 1888.

From—E. V. WESTMACOTT, Esq., Offg. Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Revenue Department.

I HAVE the honour to forward, for the information of His Honour the Lieutenant-Governor, copy of a report by the Collector of Midnapore on the effect of the recent floods in his district. I gather that they might have been prevented by a more efficient system of embankment; and it is for His Honour to consider whether estimates should be prepared of the cost of what is required. Respecting present distress, I think that Mr. Vowell is fully sensible of the gravity of the situation, and may be trusted to report promptly if relief is required. Beyond the injury done to their dwellings, I doubt whether much distress will be felt by the cultivators until the period when they might have expected a return from their winter crop. I believe there was not much in store which they could lose, and the labour market of Calcutta and its Suburbs is so easily accessible that the means of subsistence can be earned without difficulty. It is gratifying to learn that the Deputy Magistrate in charge of the sub-division of Ghatal, Baboo Kumad Nath Mukerji, has been doing his duty in the emergency.

No. 1818G., dated Midnapore Collectorate, the 8th September 1888.

From—C. H. VOWELL, Esq., Collector of Midnapore,
To—The Commissioner of the Burdwan Division.

I HAVE the honour to state that I have visited Ghattal with the Executive Engineer for the purpose of seeing the effect of the recent floods.

2. The heavy rains of the 23rd and 24th ultimo brought down all the rivers from the west and north-west in heavy flood, and the various circuit embankments under the Executive Engineer of Midnapore were breached in 137 places, being in many instances over-topped.

3. The tract of country most severely affected, rather more than 100 square miles, is comprised in thanas Daspore and Ghattal; the former thana is bounded on the north by the Selye and on the east by the Rupnarain rivers. Ghattal is bounded on the south by the Selye and on the east by the Darkeshwar.

4. With the exception of a few patches in the north-west of Daspore, the whole crop has, in that thana and in about 40 square miles of thana Ghattal, been swept away, and the fields are still under water. Great damage has been done to the mud huts of the villagers, which have fallen down in all directions. There has fortunately been very little loss of life, only four persons having been reported drowned, and the loss of cattle is also stated to have been small.

5. The Sub-divisional Officer, Baboo Kumad Nath Mukerji, showed great promptness in at once starting off himself and sending his canoongo and police in other directions, in order to relieve the worst cases of distress. The cost has been met from a fund raised on a previous occasion to meet such disasters. The people of Daspore thana have been very unfortuate of late years with their winter crop.

6. In 1885 it was swept away by flood, and again in 1887, while in 1886 the crop was a poor one. When these floods occur, the custom is to sow boro paddy over the tract, and it is irrigated by bunds thrown across the Selye and Cossye rivers by the zemindars.

7. The Sub-divisional Officer has considerable engineering knowledge, and I have requested him to see that these bunds are put up wherever necessary, and properly constructed. He has also been directed to report on the necessity of making loans to the cultivators under Act No. XII of 1884.

8. This crop, however, is not reaped until February or March, and the Sub-divisional Officer apprehends some distress among the labouring classes. For the present, paddy was coming plentifully into the market, and the price of rice had actually fallen at Ghattal.

9. There is cheap and easy communication for the people of this sub-division with Calcutta, and the custom of going away to find labour for a part of year is already common among large numbers.

10. It is therefore possible they may tide over the internal without assistance. I have, however, directed the Sub-divisional Officer to carefully watch the condition of the villages, and I shall myself be out on tour there within a month or two.

11. Considerable loss has also been caused in the other sub-divisions. From Contai I have not yet received detailed accounts; but the tract in Pataspore and Bhugwanpore thanas, which is suffering from want of drainage, is certain to be in a worse condition than last year.

12. In Tumlook the country to the east of the Cossye was swamped by a breach a short way below Panchkura. It was similarly flooded last year, but boro can be grown there.

13. In the head-quarter's sub-division damage has been done about Sabong, Pingla and Moyna on the south of the canal, but its extent cannot be at present gauged.

14. On the other hand, there is no doubt the abundant rain has done much good in parts where the crop had been previously very backward. This was especially the case in the strip of Contai along the sea coast.

DISTRESS IN KHOORDA.

THE following correspondence on the subject of the present distress in Khoordah is published for general information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Govt. of Bengal.

Dated 2nd October 1888.

No. 125T—R, dated Darjeeling, the 29th September 1888.

From—H. J. S. COTTON, Esq., Offg. Secy. to the Govt. of Bengal, Revenue Dept.,
To—The Secretary to the Government of India, Revenue and Agricultural Dept.

IN continuation of my letter No. 3066—419Fam., dated 10th September 1888, I am directed to submit, for the information of the Government of India, the accompanying copy of a letter from the Commissioner of Orissa, No. 1843R, dated 20th September 1888, and its enclosures, forwarding a report for the fortnight ending on the 31st August on the present scarcity in the districts of his Division.

2. It is satisfactory to find that with a seasonable rainfall the condition of the people has considerably improved. But the Lieutenant-Governor notices as an evidence of the real scarcity of food that while the works at Angul, when the labourers were paid in cash, failed to attract more than some 300 labourers a day, the number rose at once to about 1,500 as soon as the tehsildar began to pay them in grain at the daily rate of three quarters of a seer per man. It may be hoped, however, that with cheaper prices, improved prospects and the measures of relief which have been set on foot, all grounds for serious anxiety will soon pass away.

3. The Lieutenant Governor has nothing further to add to the observations of the Commissioner, which appear sound and judicious.

No. 1843R, dated Cuttack, the 20th September 1888.

From—C. F. WORSLEY, Esq., Commissioner of the Orissa Division,
To—The Secretary to the Government of Bengal, Revenue Department.

IN accordance with paragraph 9 of the Bengal Famine Code, I have the honour to submit copies of reports, noted in margin, from the Collector of Pooree and the Sub-divisional Officer of Khoorda, regarding the administration of relief in Khoorda sub-division during the fortnight ending 31st August 1888.

Letter from Collector of Pooree to Commissioner of Orissa, No. F, dated 11th September 1888.
Letter from Sub-divisional Officer of Khoorda to Collector of Pooree, No. 531, dated 8th September 1888.

2. No material change has occurred in respect of area and population affected, number of relief circles, and officers in charge; but the crops have been greatly benefited by good rain and favourable weather, and the condition of the people generally has improved.

3. A detailed list of the public works which are being carried out is given in the Sub-divisional Officer's report (paragraph 3). The total number is 115, of which—

4 are road works under the District Board,
1 is the Cuttack-Ganjam road work under the Public Works Department,
110 are Government khas mehal improvement works.

The Collector has been unable to supply figures showing the expenditure incurred and the numbers employed on works under the District Board and Public Works Department. The average daily number of persons employed on Estates Improvement works was 944, viz. 687 men, 54 women and 203 children, at a cost of Rs. 2,839. The numbers seem to have varied a good deal from day to day, probably according to the greater or less demand in each locality for labour in the fields.

4. The daily average number of persons receiving gratuitous relief is shown to have been 1,524, viz. 315 men, 366 women and 824 children. This number appears disproportionately large as compared with the number employed on village works. As to the excess over the preceding fortnight's figures, it is reasonable to believe that, as the working of the relief circles became more thorough and minute, many new cases of destitution would have been brought to light. But though this explanation is quite satisfactory up to a certain point, I earnestly hope and expect that, with improved prospects of crops, cheaper food-grains, and the substantial assistance afforded by relief measures, the expenditure on gratuitious relief will be found to have decreased considerably during the present month.

5. Tuccavi advances, amounting to Rs. 59,853-8, were made to 20,724 cultivators during the month of August, the amount advanced during the fortnight under review having been Rs 18,944-8.

6. The stock of food-grains in the sub-division is reported to be sufficient, and mahajans in some places have begun to resume their business of lending grain. Prices of food-grains have become fairly easy, the price of common rice ranging from 15¾ to 21 seers, and *moong* and *kulthi* selling at much the same rates

7. In the 7th paragraph of his report, the Sub-divisional Officer refers to the opening, as a relief measure, of paddy godowns at Pichkuli and Baligurh in the Western Circle No. III, and also of another such godown at Jenkia in the Rameswar Circle No. IV. As the purchases of grain seem to have been

made locally, and no competition with grain-dealers is allowed, the measures, in my opinion, are free from objection.

8. The instructions issued by the Collector to the Sub-divisional Officer for restricting the grant of advances, and to all circle officers for confining gratuitous relief strictly to those who cannot work for their living (*vide* paragraph 11 of the Collector's report), were confirmed by me without delay. It is most desirable that, having enabled the cultivators by the grant of necessary advances to tide over a period of sharp pressure, we should gradually withdraw and make way for the revival of customary transactions between them and the mahajans, wherever the latter are willing or may appear prepared to take our place. Our policy now should be, as I have impressed on the Collector, not to maintain fully and continuously the system which we have hitherto been compelled to apply, but to contract or suspend operations from time to time by the light of daily experience and observation, and again, if necessary, to renew them.

9. The Sub-divisional Officer has observed, in paragraph 9 of his report, that "anyhow a further sum of Rs. 10,000 should be sanctioned for gratuitous relief." The Collector has left the remark unnoticed, and I am disposed to think that it is unnecessary at present to ask for any additional specific sum. Before accepting any estimate in this matter, it will be best to await the results of the instructions lately given by the Collector. Any reasonable amount that may in the meantime be urgently needed I will myself sanction in anticipation of the approval of Government. But at present I really fail to see how, if the prospects of crops have greatly improved, if grain be fairly cheap and employment everywhere available, and if the Circle Inspectors have nearly gauged the full extent of helpless destitution, we can be justified in apprehending a continuance or increase of such distress. The interests of distressed persons themselves, and of the public alike, require that the administration of gratuitous relief in villages, which is specially open to abuse and injurious in its tendencies, should be firmly restricted or discontinued at the very earliest opportunity.

10. I again regret to note that a few deaths (8) have been reported as being more or less due to starvation. Of these, not more than one (if even one) can be proved to have resulted from starvation alone. Sad as such occurrences are, I fear that they are not peculiar to Khoorda, but are common in most years to all thickly-populated countries and districts. At the present time each such occurrence is reported with an avidity that is unknown in ordinary years, when it would probably be ascribed to the disease most prevalent for the time being. I am convinced that all reasonable precautions have been taken for the saving of life, and that the circle officers can in no way be held responsible for such isolated cases of death as have been specially brought to notice.

11. In paragraphs 6—9 of his report, the Collector has furnished a few details regarding the administration of relief in the South Chilka tracts. The necessary assistance has been rendered quietly, efficiently and economically.

12. I now proceed to make a few remarks regarding the condition of Banki, Angul, and the Tributary State of Baramba.

13. The special enquiries that were being made in Banki at the time of submission of the last fortnightly report (28th August) have shown that, with the exception of a very few villages in the extreme south-western corner of the estate, viz. Kalaputhur and other adjacent villages, there is no such pressure as is likely to require measures of relief properly so-called. But within the last two days Mr. Desgratoulet, the District Engineer, who has been on tour in that neighbourhood, has reported instances of individual distress, which lead the Collector and myself to think that some special assistance may be necessary. As a precautionary measure, therefore, we have resolved to open some additional small improvement works in the affected tract, and to place them under the charge of the District Engineer, who will also be supplied with a moderate sum of money for the relief of any destitute families which may come under his notice. The affected area adjoins the most distressed circle (No. III) of Khoorda sub-division. In another portion of the estate, where some pressure is felt, tuccavi advances and district works will in all probability afford the requisite assistance.

14. In Angul district there has been a steady improvement during the present month, and I expect that all cause for anxiety will shortly

disappear. For a time there was a great scarcity of grain, and the Estates Improvement works failed to attract more than some 300 labourers a day. But when the chsildar lately imported 500 maunds of rice from Talcher State, and began to pay the labourers in grain at the daily rate of three-fourth seer per man, the number at once rose to about 1,500. Employment is now available in the fields, and fairly good crops of maize and *marua* are being harvested. These will shortly be followed by the *beali* rice harvest, which is expected to be good. The late or *sarad* rice crop also promises well. I am happy to state that the ryots of the affected trac: (the western half of Angul) have to a man declined to take tuccavi advances when limited to one-fourth of the small rents which they pay, a proportion which I considered sufficiently high under all circumstances, and that the sanctioned sum of Rs. 300 remains intact. The measures already adopted, viz. the remission by Government of Rs. 4,917 arrears of rent, the relaxation of Forest Rules, the opening of Estates Improvement works, and the judicious distribution of small sums in the shape of charitable relief, have enabled the distressed classes to weather the difficulties caused by the almost unparalleled failure of the rains in June and July, and by the partial loss of crops in 1887. I consider that the tehsildar, Baboo Narain Chundra Naik, has shown firmness and resourceful capacity in dealing with the recent state of things in Angul.

15. Copies of the reports submitted by Baboo Nanda Kishore Das, Assistant Superintendent of the Tributary Mehals, after his visits to the States of Baramba and Narsingpore (now under direct management) were forwarded to the Chief Secretary with my letters Nos. 1072P.W. and 1080P.W., dated 3rd and 6th September 1888 respectively. I need only here mention that, on the facts reported, I increased the amount sanctioned for tuccavi advances in Baramba State from Rs. 2,000 to Rs. 4,000, and approved of advances being made up to an aggregate sum of Rs. 1,000 to petty dealers for the importation of grain, and that I considered it unnecessary to make any grant for tuccavi advances in Narsingpore. I may add that in consequence of the improved position in Angul, and of his services being required for work of another kind, Baboo Nanda Kishore Das was not deputed to visit that district.

16. Several of the Chiefs in the south-western half of the Tributary Mehals have been obliged this season to give exceptional aid to their tenants, but owing to the comparatively scanty population of these States, the distress in no case could have been so severe as in Khoorda.

17. I must apologise for my delay in submitting these reports, which has been due to my being engaged in holding sessions in Dhenkanal State.

No. F, dated Camp Khoorda, the 11th September 1888.

From—D. B. ALLEN, Esq., Collector of Pooree,
To—The Commissioner of the Orissa Division.

I HAVE the honour to submit the following report in accordance with section 9, Chapter I of the Famine Code for the fortnight ending 31st ultimo, together with a copy of the Sub-divisional Officer's report, No. 531 of the 8th instant.

2. According to Mr. Taylor, "the area of distress during the fortnight under report, the portion of the population affected, and the number of relief circles, remain much the same as was given in his last report;" *but* "the general state of the affected tracts has improved during the fortnight owing to the good rainfall, opening of so many works, and the improved state of the crops."

3. The condition of each circle in detail is given in the extracts from the reports of Circle Inspectors, quoted in paragraph 2 of Mr. Taylor's report.

4. The views expressed by the Sub-divisional Officer are confirmed by the daily reports submitted to me by the police officers in charge of every thanna, and outpost throughout the district, and also by my own observations. I was touring about the sub-division from the 16th to the 25th ultimo, and was up in the western circle when the heavy rainfall (which was general all over the sub-division) commenced on the 20th. Speaking generally, there is no lack of water now for the paddy-fields, which have been puddled and weeded, and, where necessary, transplanted. The latter operation is still going on, and that and weeding has afforded great relief to the landless day labourers, who have all along been the chief sufferers from the prevailing distress.

It must be remembered, however, that the paddy crop is not yet out of danger. The late rains have rendered it safe for the present, but it is backward in a greater part of every circle, and a cessation of rain later in the season may still cause a considerable failure, and consequently a renewal of severe distress. As the Inspector of Rameswar Circle remarks, "there is for the present a lull in the distress, yet the relief operations must continue for some time," if we are to prevent actual deaths from starvation.

5. From the South Chilka tracts the Inspector reports that heavy rain began to fall from the 20th, and the people have taken advantage of this rainfall to go in for transplantation. The crops here will no doubt suffer severely, as they have, more or less, for the last three years; but, as pointed out last April, the people residing in this neighbourhood are not dependent on their fields for a living. They have salt work, fishing, and other sources of subsistence, and though more clamorous for relief than anywhere else in the district, they are not really reduced to a state approaching starvation. A report from the District Superintendent, who has been inspecting the outposts in that neighbourhood, corroborates the views expressed above.

6. The number of public works open in or near the affected tracts within the sub-division are detailed by Mr. Taylor in paragraph 3 of his report. In addition to these works, two small tanks have been excavated at Nathpur and Satpara to relieve the distress south of the Chilka under the supervision of the Salt Inspector.

7. The daily average numbers in receipt of gratuitous relief in the sub-division are given in paragraph 4 of Mr. Taylor's report. In Satpara the expenditure during the fortnight has been only Rs. 13-7.

8. Mr. Taylor gives the daily averages of men, women, and children employed on works in paragraph 5 of his report, but these figures apply only to those employed on works described in 3(*d*). (*a*) To these should be added 960 or 64 persons a day employed in the South Chilka tracts. For (*a* and *b*) works no accurate figures have been supplied me either by the Executive or the District Engineer.

9. As regards clauses (6), (7), and (8) of Chapter I, I have little to add to Mr. Taylor's report, except to point out that though advances have been freely given, yet the amount so given is probably not 25 per cent. of the amount applied for. In the Sudder sub-division a number of applications for advances was made during the fortnight, but they were refused by me in every case, as I was satisfied that they were not legitimate demands for assistance, but merely attempts to obtain funds for paying rent, or for other objects than those represented in these applications. In Satpara the expenditure during the fortnight on works and gratuitous relief has been Rs. 214-7-3. The balance in hand was Rs. 35-13-1, and Rs. 100 has been sent afterwards.

10. It will also appear, from Mr. Taylor's report, that the instructions conveyed in the remaining chapters of the Famine Code have been carried out so far as has been practicable, considering the peculiar conditions of this distress, which has been felt in all its intensity by only the poorest classes over a large area, though no doubt the numbers affected would have been much larger but for the timely assistance given, chiefly in the form of advances under the Agriculturists Loans Act.

11. I need only add that, in accordance with paragraph 6 of your No. 1647R of the 28th ultimo to the Government of Bengal, I issued instructions to the Sub-divisional Officer on the 30th ultimo (as reported to you in my No. 881 of that date) to restrict the grant of advances in future to residents of villages, where there had been failure last year of at least half the crop, and to issue instructions to all circle officers that gratuitous relief should in future be confined strictly to those who cannot work for their living. This has now been done.

12. Though the numbers who have been relieved gratuitously during the past fortnight exceed those that were so treated in the preceding one, I am not prepared to admit that such relief has been granted hitherto too freely. From a perusal of the diaries and nominal rolls, it appears that Circle Inspectors have, as a rule, been exercising great care in this matter. The only case where I am inclined to think that the Circle Inspector has been perhaps too generous, especially to Brahmins and other respectable Hindus, is in the Bapur Circle. I propose going there very shortly, and will test the work done in this circle, and if I find my suspicions are confirmed, will take measures to prevent a continuance of this ill-judged liberality. Meanwhile, very stringent orders have been sent by Mr. Taylor forbidding the grant of gratuitous relief, except where it is actually indispensable.

No. 531, dated Khoorda, the 8th September 1888.

From—W. C. TAYLOR, Esq., Sub-divisional Officer of Khoorda,
To—The Collector of Pooree.

Chapter I, section 9, Famine Code.—In accordance with section 9, Chapter I of the Famine Code, I have the honour to submit a report for the fortnight ending on the 31st August 1888.

1. The area of distress during the fortnight under report, the portion of the population affected, and the number of relief circles, remain much the same as was given in my last report. The only difference as regards circles is that I have placed Baboo Darpanarain Das in charge of zillah Balbhadrapur in addition to Bapur, as Baboo Gagan Chundra Das had more than he could do in zillah Rameswar and Kuhuri.

2. *Section 9, clause 2.*—The general state of the affected tracts has improved during the fortnight, owing to the good rainfall, opening of so many works, and the improved state of the crops.

For the north-east circle Baboo Nadia Chand Dutt reports that "the state of the rice crop throughout is encouraging. The *mandia* crop at places, and chiefly on the side of Bhargavi and Dayah rivers, is excellent, and will be gathered within a fortnight. The *beali* crop on the banks of Bhargavi and Dayah rivers is very good, but unfortunately this crop is limited in zillahs Khoorda and Tapung. The *panichi* rice crop in zillah Dandimal will be gathered within the 15th of the current month.

"The rainfall is good at present. A statement for the fortnight obtained from the Forester of Dandimal is given below :—

"During the fortnight under report the condition of the people is improving, and that no death from starvation will occur if the relief operations continue up to the end of the current month."

For the North-West Circle, Moonshi Dadar Buksh reports that "the state and prospects of crops at present are not very promising everywhere.

"The rainfall in the first fortnight was 6·85 inches, and second fortnight 8·76.

"The condition of the distressed people in general is gradually improving. The cause of this may be attributed to the adult members being able to get field and other works, and their condition will be more so if some more works be started here and there.

"On the 20th ultimo, while I was returning from Paniara, I heard from a passenger at Makund Prosad that one old woman was lying on the road at Padannur and was about to expire. On this I immediately sent my peon with some *chura* and sugar. The peon went to the spot and fed her and informed me of the matter. As there was heavy shower that evening, I sent a cart and brought her here. Fire was made, and she was warmed and fed with milk for several days together. She is now improving, and there is no fear for loss of her life. Had not the matter been brought to my notice immediately, she would have most probably breathed her last on the road. She is under my care. This day a cloth worth annas 7½ has been given to her.

"This old woman is now quite well and declines to go home."

It is reported by Canoongo Netranund Putnaik that one named Dina Barik of Kuaput in Haldia died of starvation. The zemindar of Haldia is to blame for this death, as he did not himself take proper care of the poor man, nor did he inform me of his distressed condition."

Baboo Bhagbut Nand, for the western circle, reports that "the copious and continued rainfall from 20th to 23rd ultimo, and the occasional showers since fallen, have enabled the ryots to puddle all the lands; but as the rain came too late, and as the plants were previously attacked with *mooli*, the outturn of the paddy crop will be very poor.

"Heretofore *suan* was rendering great assistance to the people, but after puddling it has totally disappeared. The people are now managing with the wages they get for weeding, doing work on roads, bunds, &c., executed from the Estates Improvement Fund and the gratuitous relief distributed among them. After 8 or 10 days the grain from weeding will be discontinued. *Mandia* has been grown on a limited scale in this circle for want of sufficient surplus waste lands, and no material assistance can be expected from this source.

"As reported before, 4 annas of the total population have no property whatever and live by day labour. Three annas of these will have to be kept up by supply of labour, and the remaining one anna, physically unfit to do work, by gratuitous relief at least up to end of November.

"The only case of death from starvation that came to my notice is that of Madhub Guru of Hatbust. The sarbarakar reported his death to have resulted from starvation. I visited the place on the 24th ultimo, and after enquiry came to know that Madhub had been to Calcutta and returned home, being attacked with dysentery. He suffered from the disease for two months, and was improving when this scarcity of food-grains appeared. He was compelled to take *suan* which aggravated his illness, and he died on the 12th ultimo."

For Rameswar Circle Baboo Gagan Chundra Das reports that "the prospect of the crop is yet uncertain. The weeding is in progress in most fields. Generally speaking, it may be said that the prospect of crop—I mean paddy—is good from Nalsing and Barpakharia to the north and Kuhuri to the south, and in other parts not very encouraging. The large tracts of land from Sarpani to Siko, and from Siko to Gur Mantir, and to the south and west of it, hold out a very bad prospect, and I believe there will be more or less complete failure of the crop; but I must say it is yet in a state when it is difficult to speak with certainty the one way or the other.

"There was good rainfall on 17th, 24th, and 25th August 1888, and sprinkling of it on several other days.

"The lower rates at which the construction of improvement works has been given to piece-workers do not attract the people, and I am glad to note this has not interfered much with the field work. At present the people are engaged in weeding the paddy-fields, but in a few days the weeding will be over, and they will be thrown out of employment, and will be helped by the work in these roads and dams we are constructing for tiding over the present difficulty. There is some work on the Public Works Department road, and the contractors complain of the difficulty of getting coolies now.

"Five deaths from starvation were reported during the fortnight, but I have not been able to ascertain the truth of the report, and it must be received with caution. At the same time I think the deaths may be due wholly or partially to deficient nourishment. In fact, I think many deaths will ensue when the crops will first become cheap and available, as the starving people will eat more than they can digest.

"For the present, I should say there is a lull in the distress, yet the relief operations must continue for some time. The nature and extent of the distress should not be considered very light in consideration of the paucity of deaths, as the time of death is not yet over, and there may be many more deaths in a few days if the relief operations are closed soon."

For Banpur Circle, Baboo Durpouarain Das reports that "the state of crop in this circle appears on the whole prosperous and fair; but the paddy plants sown in May and June on some lowlands in Simas, Chatragur, Kanthimal, Panchupalli, Sunakhalla and Ninruna having been covered over by *suan* grass have to a great extent been rotten after they were puddled. The ryots have, however, now re-cultivated a portion of such lands and transplanted them with fresh plants, and there remain still more lands for transplantation.

"There had been sufficient rain during the month under notice, and no rain is wanted for a fortnight."

3. *Section* 9, *clause* 3.—The public works opened during the fortnight are—

(*a*).—1. Road work under the District Board on the Baghmari and Bolegurh road, Western Circle.
2. Road work on the Khorda and Patnaikia road.
3. Road work on the Bhaliabari and Bingy Tangy village road.
4. Road work on the Kurharmal and Bajpur village road.

(*b*.)—Repairs and metalling along the whole length of the Ganjam trunk road, and repairs to the Daya river embankments, all under the Executive Engineer, Pcoree Public Works Division.

(*c*.)—Nil.

(*d*.)—The Government khas mehal improvement works carried out from funds allotted by the Board of Revenue from the management grant, and specially distributed with a view to relief.

Daily average	315	366	824	1,524

(*b*) Persons relieved through private agency.—No private agency relief opened in August, and no data regarding numbers relieved by private charity.

5. *Section* 9, *clause V.*—The daily average number employed on the works named in clause 3 cannot be given accurately, as the persons working and number employed vary from day to day. The total numbers employed are given at 10,995 men, 865 women, and 3,253 children from which the daily averages struck come to—

(*a*) Men	687
(*b*) Women	54
(*c*) Children	203

6. *Section* 9, *clause* VI.—We have not organized relief under this clause, but a few seers of cotton have been given to females at Jujharsing for spinning, and it is proposed to give them remuneration at the minimum ration rate.

* This includes 294 persons of whom details are not available.

Three bharans of paddy were given out by Rai Bhagbat Mahanti, Bahadur, Tehsildar of Khordah, for husking in Jajharsing village. The number of women and girls employed on this work is not known.

7. *Chapter I, section* 9, *clause* 7.—The stock of grain in the estate is sufficient, but mahajans seeing the prospect of crops to be unfavourable will not advance their grain as usual; but since there has been copious rainfall throughout the sub-division, they have begun in some localities to lend paddy more or less freely to their old constituents and also to sell for cash.

Section 7.—The following is a list of prices of food-grains and salt prevailing in the several circles as reported by circle inspectors, canoongoes and police, in seers of 80 tolas per rupee:—

	Paddy, seers.	Rice, seers.	Moong, seers.	Kolthi, seers.	Salt, seers.
North-west and North-east Circles	36	15½ to 18$\frac{7}{8}$	15½ to 17$\frac{1}{8}$	14$\frac{1}{8}$ to 19½	9 to 10$\frac{1}{8}$
Western Circle	36	15½ to 21	18$\frac{1}{8}$	17	9
Rameswar Circle	34 to 36	15½ to 18$\frac{7}{8}$	15$\frac{1}{8}$	17$\frac{1}{8}$	10$\frac{1}{8}$
Banpur Circle	34 to 44	17 to 18	21	15$\frac{1}{8}$	9

Baboo Nadia Chand Dutt reports that the selling price of foodgrains and salt in his circle was as follows:—

Rice	17$\frac{1}{16}$	seers per rupee.
Paddy	36	ditto.
Moong	15$\frac{13}{16}$	ditto.
Kalai	14$\frac{7}{16}$	ditto.
Salt	9	ditto.

Munshi Dadar Bux reports that the prices of food-grains and salt during the fortnight were as follows:—

Paddy	36	seers per rupee.
Rice	18$\frac{6}{16}$	ditto.
Kalai	19$\frac{1}{16}$	ditto.
Moong	17$\frac{1}{16}$	ditto.
Kolthi	28$\frac{14}{16}$	ditto.
Salt	10$\frac{8}{16}$	ditto.

Baboo Bhagbat Nand reports that the price of rice varied from 15$\frac{13}{16}$ to 21 seers (80 tolas weight) per rupee, but that rice was not procurable without great difficulty in any village of the circle. Since the opening as a relief measure of paddy godowns at Pichkali and Bolegurh, the difficulty has to some extent disappeared. It is absolutely necessary that these godowns should be kept up till end of November or even longer. Care is taken not to interfere with the local price quoted for dhan, which is 36 seers, by measure, equal to about 36 seers of 80 tolas per rupee.

For the Rameswar circle, Baboo Gagan Chandra Das reports that the prices of food-grains and salt are gradually coming down. Several mahajans are now selling paddy at Gooipara, Burpokharia, Olsing, Sarpari, Bhusandpore, Mantir, Arong, and this is a most hopeful sign. The price of salt has come down from 2 annas 3 pies to 1 anna 6 pies a seer. A godown for the sale of paddy at 36 seers was opened at Jenkia, the head-quarters of the circle. The neccessary dhan was purchased at Olsing, only three miles from Jenkia, and the village *mudi* received an advance of Rs. 20, with which he purchases rice at Tangy at 14 seers, selling at Jenkia at 13 seers.

For Banpore Circle, Baboo Darpanarayan Das reports that the foodgrains are available for purchase in that circle at the following rates:—

Paddy	34	seers per rupee.
Rice	17$\frac{1}{16}$	ditto.
Moong	21	ditto.
Kalai	15$\frac{12}{16}$	ditto.
Arhur	15$\frac{12}{16}$	ditto.
Kolthi	28$\frac{14}{16}$	ditto.
Salt	9	ditto.

Chapter I, section 8*A*, *Clause* 8.—Rupees 45,000 under the Agriculturists Loans Act was received during the first fortnight from the Collector of Pooree, which was sanctioned by Government in their No. 2570—95 Fam. of the 6th August 1888, and Rs. 20,000 during the fortnight under notice, which also was sanctioned by Government in their No. 2682—104Fam., dated 14th August 1888.

At close of the month Rs. 20,000 more was sanctioned by the Commissioner of the Division and the Collector in his No. 877 of the 30th ultimo. These further advances are restricted as a general rule only for those villages where the loss of crops was estimated for last year at not less than eight-sixteenths.

Rupees 28,372 was sanctioned by Government in their No. 2570-95Fam. of the 6th ultimo for works of estates improvement, of which Rs. 10,000 was received during the first fortnight, and Rs. 5,000 during the period under review on bills passed by the Collector. For gratuitous relief Rs. 15,000 was sanctioned, *vide* Government letter quoted above.

Charitable Relief.

9. (*a*) Under this head out of the Rs. 15,000 received Rs. 8,137-6 was made over to the circle inspectors for administration of relief up to 31st August 1888, and Rs. 1,980 was advanced for purchase of paddy and rice for sale at places where not procurable. This amount will, as far as possible, be recouped, excluding Rs. 150 worth of paddy which was given away gratuitously by Moonshi Dadar Bux in his circle.

During the current month the expenditure will be, I think, heavier than that during August, as we are finding severe distress in places where it was not expected. Anyhow a further sum of Rs. 10,000 should be sanctioned, as the Rs. 4,882-10 in hand will not last beyond the 18th instant.

The expenditure during the fortnight was Rs. 3,840-13-10, and 24,389 persons were temporarily relieved during the same period or 16 days.

The average per head therefore comes to 2 annas 6 pies, or to less than one pice each per diem. As this small sum is evidently insufficient by itself, a great number of those relieved must have done work or eked out a livelihood in some other way.

(*b*). Out of Rs. 15,000 received on account of improvement works, Rs. 2,679-4-8 was paid for works executed before relief operations were commenced, and Rs. 7,810 spent on works opened after the beginning of the relief operations, and Rs. 478 has been laid out in the purchase of tools. Rs. 2,839 was spent during the fortnight under review.

Section 9, *clause* 8 *(d)* (2).—Of the amount sanctioned under the Agriculturists' Loans Act, Rs. 59,853-8 was advanced to 20,724 ryots of the estate during the month, of which Rs. 18,944-8 was spent during the fortnight under report.

(*c*). Balance in hand at close of month—

(*a*). Rupees 4,882-10 gratuitous relief.

(*b*). Rupees 4,032-11-4 improvement works, *plus* Rs. 13,372 not drawn yet.

(*d*) (2). Rupees 5,146-8 taccavi advances, *plus* Rs. 20,000 received in September.

Required for gratuitous relief Rs. 10,000 more.

Circle organization and relief.

10. *Chapter II, section* 10, *Famine Code.*—As reported for the past half of August, the estate was divided into five relief circles as follows:—

I. North-east Circle under Baboo Nadia Chand Dutta, Sub-Deputy Collector, as Circle Inspector in addition to his regular duties, assisted by Canoongoe Janardan Dass as Assistant Inspector.

II. North-west Circle under Munshi Dadar Bux, Sub-Deputy Collector, in addition to his regular duties, assisted by Canoongoe Netranand Patnaik.

III. Western Circle, Baboo Bhagbat Nand, temporary Sub-Deputy Collector on relief duty, assisted by Baboo Hiralal Mukherjee, Inspector of Police, and Canoongoe Chintamani Patnaik.

IV. *Rameswar Circle.*—Baboo Gogan Chandra Das, Deputy Magistrate and Deputy Collector of Pooree, assisted by Canoongoe Banabar Das.

V. *Banpur Circle.*—Baboo Darpanarayan Das, Excise Inspector and Income-tax Assessor, assisted by Canoongoe Ras Behari Patnaik.

11. Since writing my last report the circles have been all divided into blocks or local agencies in accordance with section 21 of the chapter. Government sarbarakars and other persons of respectability have been appointed local agents, and I have given two local agents jointly for each local agency. In addition to the local agents, sub-inspectors of relief have also been appointed for each circle.

12. The organization now consists of—

1. Circle Inspectors, Deputy and Sub-Deputy Collectors.
2. Assistant Inspectors, Canoongoes and Police Inspectors.
3. Sub-Assistant Inspectors.
4. Local Agents.

13. The number of local agents and sub-inspectors for each circle are as follows:—

		Block.	Local Agent.	Sub-Inspector.
1.	North-Eastern Circle	36	72	5
2.	North-West „	17	30	6
3.	Western „	67	95	14
4.	Rameswar „	36	74	7 or 8
5.	Banpur „	9	32	...

14. Each pair of local agents have about ten villages to attend to, and each sub-inspector has to supervise the work of about nine local agents.

15. The duties of inspectors and assistant inspectors, sub-inspectors, and local agents are those prescribed in Chapter 2 of the Code.

16. *Chapter III, Famine Code.*—So far as applicable, the provisions of Chapter III have been attended to in the works opened; but as these works are items of ordinary khas mehal improvement, and as our object has been to keep the distressed in their own villages

by providing work within a reasonable distance, all the sections of the chapter are not applicable.

17. *Chapter IV, Famine Code.*—It has not been found necessary as yet to open poor houses. Village relief and local works have hitherto been found sufficient.

18. *Chapter V.*—The provisions of sections 82, 84, 85 have been attended to. Some commencement has also been made under sections 82 and 83, but cotton and thread are not easily obtainable. No orphanages have as yet been opened, and so far as known no children have been abandoned or left without friends or relations.

19. *Chapter VI.*—No measures for the protection of cattle are at present required.

20. *Chapter VII.*—The police are acting in accordance with this chapter so far as is necessary.

21. *Chapter VIII.*—The public health has been fairly good, and there has not been anything special for medical officers to do.

22. *Chapter IX.*—Khordah sarbarakars are local officers under this chapter, but they have not as yet been directed by Government to submit the reports prescribed in the Famine Code.

23. The local agents and sub-inspectors have now been directed by me to supply all necessary information regarding the condition of the people, the state and prospects of crops, and the approximate areas under cultivation of different crops, with lists of the distressed persons in their blocks.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, p passing temporary showers, t thunder, ▵ dew.

Rainfall.—Generally. The normal means of air pressure and temperature are the arithmetical average of means of the readings during the same period for the last ten years. The humidity of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The mean rainfall is the arithmetical means or average of the rainfall in that district deduced from the returns sent in by the sub-divisional station for the period in question during the past ten years. The number of stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

CALCUTTA, *the 2nd October* 1888.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 28TH OF SEPTEMBER 1888.

At the close of the previous week the inrush of monsoon winds following in the rear of the severe cyclonic storm which had passed through Orissa on the 16th still continued to flow over Bengal. The monsoon winds were, however, gradually diminishing in force, and for the first two or three days of the week only, weather in Bengal and over the Bay remained of very light south-west monsoon character. Pressure commenced to fall from the 23rd, the fall being generally moderately rapid at the stations on the Arakan and Pegu coasts, and on the 24th and 25th suspicious weather obtained in the east of the Bay, but this tendency to the formation of a barometric depression passed away, and weather again became fine. The westerly element in the wind directions then commenced to increase in strength, and in some cases winds became even north-westerly, and gradually the easterly and south-easterly winds which had set in on the 24th were driven back, and rainfall gradually became lighter and more local in character from the middle of the week, and though on the 23rd a considerable amount of rain fell, on Friday, the 24th, only a few showers were reported. At the end of the week, therefore, conditions were clearly those which usually obtain at the close of the rainy season in Bengal. Pressure was fairly uniform over the province; temperature had risen rather rapidly, and was about 2° above the normal; more or less westerly, and in some cases even north-westerly, winds were reported at all except the extreme eastern stations. Humidity had decreased moderately at the western and central stations in the province, and fine weather generally was reported, rain showers being very few in number, and generally light in amount.

Pressure—Has been above the normal for the greater part of the week, though at its close it had become nearly normal, and the mean pressure has been in excess by amounts which range up to about a tenth of an inch at some of the western stations, the excess at Cuttack equalling 0·113 inch and at Hazaribagh 0·110 inch. The general mean pressure of the province has been above the normal by about 0·07 inch to 0·08 inch. In Assam pressure has been in excess of the normal by 0·043 inch.

Temperature.—Owing to the comparative lightness of the rainfall during the week, temperature has generally been in excess of the normal. The mean temperature of the whole province for the week has been 1·5° above the normal, and in Orissa the excess has equalled 2·5°, and in South-West Bengal and North Bengal the excess has been 2°. In Assam a slight excess of 0·2° only is reported.

Rainfall—As previously stated, has been comparatively light during the week. The heaviest falls have occurred in North Bengal, the stations in which have averaged 1·32 inches, which is, however, more than two inches in defect of the normal. In East Bengal a fall of 1·10 inches has been received which is again nearly two inches less than the usual amount. Orissa and South-West Bengal have received falls, which average rather less than an inch, and both are about an inch and a quarter in defect of the normal. North Behar has only received a fall of about half an inch or two and a half inches less than the usual fall at this period; while South Behar and Chutia Nagpur have received falls which average about a quarter of an inch, and these districts are one and two-thirds inches in defect. The falls generally over the province have therefore not equalled more than about 30 per cent of the normal.

The following districts have, however, received fairly good falls during the week:—Nuddea, Rajshahye, Rungpore, Darjeeling, and Singbhoom; while on the other hand the falls in Bogra, Mozufferpur, Durbhunga, Sarun, Shahabad, and Gya have been particularly scanty.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 28th of September 1888:—

MEMORANDUM.

THE chief features in the mortuary statistics of the districts in Bengal, for the month of July 1888, deduced from the table annexed to this memorandum, are—

1. That the deaths of 113,931 persons were registered out of a population of 66,163,884 in these districts, presenting a death-rate of 20·64 per 1,000 per annum, against 19·08 per 1,000 in the preceding month, and 24·84 per 1,000 during the corresponding month of 1887, indicating, as compared with the former period, a fair advance in the registration of deaths, and that of the latter period a great retrogression.

2. That the highest casualty-rates were returned from the following districts :—

Districts.	Ratio per *mille.*	*Districts.*	Ratio per *mille.*
Darjiling	45·12	Patna	27·96

Manbhum	31·80	Monghyr	25·80
Gya	28·44	Cuttack	25·68

3. That, referring to the incidence of the diseases mentioned in the table given below, it is seen that cholera prevailed with considerably less fatality during the month under notice, as compared with the results of the corresponding month of the preceding year, and that the death rates from the other diseases exhibited only fractional variations :—

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

Such person shall at the same time pay to the Commissioners such sum as shall be payable by him for the half-year commencing on the first day of April or October (as the case may be) for the carriages and animals specified in such statement, according to the rates prescribed in the Fourth Schedule.

Any person who becomes the owner or takes charge between the first day of April and the first day of October, or between the first day of October and the first day of April, of any carriage or animal shall, within a week of his becoming owner or taking charge, send to the office of the Commissioners a similar statement together with the amount payable for the whole of the then current half-year, according to the rates prescribed in the Fourth Schedule.

The Commissioners may, if they are satisfied that any such carriage has not been used within the half-year, or that any such carriage or animal has been kept for only a portion of the then current half-year,

refund, or remit, the whole, or such portion thereof as they may think fit, of the amount so payable.

For the purposes of this section, a livery stable-keeper shall be deemed to be the owner or to be in charge of every animal in his stables.

On payment of tax, Commissioners to grant license.

79. Whenever any person shall pay to the Commissioners the amount of the tax which shall be payable by him in respect of all carriages and animals kept in Calcutta, the Commissioners shall grant to such person a license to keep such carriages and animals during the current half-year ending upon the thirtieth day of September or the thirty-first day of March next after the grant of such license, and no longer.

A license may at any time be granted for any previous half-year for which no license has been taken out on payment of the amount due for that half-year.

Penalty.

80. Whoever owns, or is in charge of, any carriage or animal without the required license shall be liable to a fine not exceeding three times the amount payable by him in respect of such license, and not being less than one and a half times such amount. And such fine shall, when levied, be taken in full satisfaction of the demand on account of such license.

Commissioners may compound for carriages with livery stable-keepers and others.

81. The Commissioners, at their discretion, may compound, for any period not exceeding one year, with livery stable-keepers and other persons keeping carriages for hire, or animals for sale or hire, for a certain sum to be paid for the carriages or animals so kept by such persons in lieu of the taxes prescribed in the Fourth Schedule.

Penalty.

82. The provisions of section eighty shall apply to any person who, having compounded for the payment of a certain sum under the last preceding section, refuses or neglects to pay such sum; the amount due for a license being taken as the amount thus compounded for.

Power to compel production of the books of livery stable-keepers.

83. The Commissioners may, by a notice in writing, require any person who shall carry on the trade or business of a livery stable-keeper to produce, for the inspection of the Commissioners, or of any officer authorized by them in that behalf, all books and accounts relating to such trade or business.

Power to inspect stables and seize carriages and animals if tax unpaid and owner unknown.

84. The Commissioners may, at any time between sunrise and sunset, enter and inspect any stable or coach-house or any place wherein they may have reason to believe that there is any carriage or animal liable to taxation;

and if the Commissioners at any time find any carriage or animal in respect of which no license has been obtained, the Commissioners may, if the owner or person in charge of such carriage or animal is unknown, by a written order authorise any of their subordinate officers to take possession of such carriage or animal, and the Commissioners shall make such order as they think fit respecting the custody thereof.

Disposal of carriages and animals seized.

85. If any person within one month establishes his claim to the possession of such carriage or animal, the Commissioners shall order it to be delivered to him on payment of the tax due, together with such costs as the Commissioners may have reasonably incurred in taking possession of, and keeping, the same. If no person within such period satisfies the Commissioners that he is entitled to such carriage or animal, it may be sold for the recovery of the tax and costs aforesaid; and if any person whose carriage or animal has been sold establishes his claim to the net proceeds of such sale, the Commissioners shall order the proceeds of such sale, less the tax due and all costs incurred in consequence of the seizure and sale, to be delivered to such person.

List of persons licensed to be entered in a book.

86. The Commissioners shall, from time to time, cause to be prepared and entered in distinct columns in a book to be kept at the office of the Commissioners and to be open to the inspection of any person who shall apply for leave to inspect the same, a list of the persons to whom during the then current period of six months a license has been granted under section seventy-nine and of the carriages and animals in respect of which the same has been granted.

PART II.—*Of the tax on Professions, Trades, and Callings.*

Persons exercising certain professions, trades, and callings in the town to take out a license.

87. Every person who shall exercise in Calcutta any of the professions, trades or callings prescribed in the Second Schedule, shall annually take out a license, and shall pay for the same such sum as is in the Second Schedule mentioned.

The Commissioners may in their discretion remit, or refund, any portion of the sum so payable if they are satisfied that any such person has exercised any such profession, trade, or calling for a portion of the year only.

They may also reduce any person from a higher to a lower class, or exempt any person altogether on the ground of his inability to take out such license.

License to be granted by Commissioners and to specify particulars.

88. The license mentioned in the last preceding section shall be granted by the Commissioners, and shall specify—

(*a*) the date of the grant thereof,

(*b*) the name of the person to whom the license is granted,

(*c*) the profession, trade or calling, and if the license is a local license the place of business in respect of which it is granted, and the sum paid for such license.

Such license shall have effect and continue in force from the commencement of the year on account of which it is granted until the thirty-first day of March of that year.

Liability and class how to be determined.

89. The liability of any person to take out a license, and the class under which he shall be deemed bound to take out such license, shall be determined in accordance with

the procedure laid down in rule (7) of the Second Schedule.

Penalty for exercising trade or profession without a license.

90. Whoever exercises any trade, profession, or calling without the license required by section eighty-seven on or after the first day of July in any year, shall be liable to a fine not exceeding three times the amount payable by him in respect of such license, and not being less than one and a half times such amount. And such fine shall, when levied, be taken in full satisfaction of the demand on account of such license.

Commissioners may require list of persons in any house.

91. The Commissioners may, by a notice in writing, require the occupier of any house to forward to them within seven days a list, signed by him, of the names of all male persons residing or carrying on any trade, profession, or calling, in such house, and of their respective professions, trades, and occupations.

Penalty.

92. Whoever, being the occupier of any house, fails to forward such list when required to do so under the last preceding section, shall be liable to a fine not exceeding Rs. 100.

Commissioners to prepare a list of all persons required by this Act to be licensed.

93. As soon as may be after the first day of April in every year, the Commissioners shall prepare a list of the persons licensed for the preceding year under section eighty-eight, which shall state the particulars specified in that section, and such list shall be kept in the office of the Commissioners, and be open to public inspection at all reasonable times.

PART III.—*Of the Registration of Carts.*

Registry and numbering of carts.

94. Every cart kept or used within the limits of Calcutta or Howrah shall be registered in the office of the Commissioners with the name and residence of the owner, and shall have affixed thereto the number of such registration in such manner as the Commissioners shall direct.

Penalties.

95. Whoever keeps or is in possession of a cart not duly registered as required by the last preceding section shall be liable to a fine not exceeding three times the amount payable by him in respect of such registration, exclusive of the amount so payable; and whoever, being the owner or driver of any cart, shall fail to affix the registration number required by the last preceding section, shall be liable to a fine not exceeding Rs. 5.

Fee for registration.

96. The registration of carts under section ninety-four shall be made, and the numbers assigned half-yearly on or after the first day of April and the first day of October in each year, upon such days as the Commissioners shall appoint, and a fee of Rs. 4 shall be paid for each registration.

The Commissioners may in their discretion remit any portion of the fee so payable if they are satisfied that the cart hereinbefore required to be registered, as mentioned in section ninety-four, has been kept or used for a portion of the half-year only.

When any registered cart is transferred within any half-year, it shall be registered anew in the name of the person to whom it has been transferred; and a fee of four annas shall be paid for every such last-mentioned registration.

The total net proceeds of the fees half-yearly received by the Commissioners for the registration of carts, after deduction of the charges incurred on account of such registration, shall be divided between the Municipalities of Calcutta and Howrah, and such other Municipalities adjacent to Calcutta or Howrah as the Local Government shall declare to be entitled to a share in such receipts, in such proportion as the Local Government may, from time to time, determine.

Last three sections not to apply to certain carts.

97. The three last preceding sections shall not apply to carts—

(*a*) which are the property of the Government;

(*b*) which are the property of the Commissioners of Calcutta or Howrah, or of any adjacent Municipalities; or

(*c*) which are kept at any place more than eight miles distant from Government House and are only temporarily and casually used within the Municipality of Calcutta or Howrah.

On failure to register, the Commissioners may seize and sell cart and animals.

98. If any person owns or keeps any cart hereinbefore required to be registered, without having caused the same to be registered, the Commissioners may seize such cart (provided the same be not employed at the time of the seizure in the conveyance of passengers or goods), together with the animals or cattle drawing the same, and may detain them.

And all Police Officers shall, on the application of the Commissioners, seize and detain any such cart, animals or cattle.

If the cart, animals, or cattle so seized be not claimed within ten days, they may be sold by auction by order of a Magistrate, and the proceeds of such sale may be applied to the expenses incurred on account of the seizure, detention, and sale; and the surplus (if any), if not claimed within a further period of twenty days, shall be paid to the credit of the Corporation.

PART IV.—*Of the Tax on Petroleum.*

Levy of a tax on petroleum.

99. The Commissioners in meeting may, with the previous sanction of the Local Government, prohibit the introduction into Calcutta for the purpose of storage therein of petroleum intended for consumption elsewhere, and may thereafter, with the like sanction, levy a tax not exceeding four annas per case of ten gallons on all petroleum introduced into Calcutta for consumption therein.

Rules for taxing petroleum.

100. The Commissioners in meeting may, from time to time, with the sanction of the Local Government, make rules as to all or any of the following matters:—

(*a*) the detention and examination of petroleum introduced into Calcutta for consumption therein;

(*b*) the collection of the tax levied on petroleum;

(*c*) Such other matters connected with the introduction of petroleum into Calcutta for consumption therein as the Commissioners in meeting may, from time to time, think fit to regulate:

Provided that no rule shall render petroleum passing through Calcutta in transit for any place beyond it liable to taxation or to any detention or examination whatsoever under this Act.

And all petroleum introduced into Calcutta, contrary to any rules made under the provisions of this section, may be seized and confiscated.

All petroleum confiscated under this section shall become the property of the Commissioners.

CHAPTER IV.

OF RATES.

PART I.—*Of imposing the Rates.*

Rates.

101. The Commissioners may, as provided in section seventy-one, impose the following rates upon all houses and lands within the town :—

(*a*).—The general rate not exceeding 13 per cent. on the annual valuation.

(*b*).—A water-rate not exceeding 6 per cent. on the annual valuation :

Provided that houses and lands, no part of which is within 150 yards of the nearest stand-pipe or other supply of filtered water available to the public, shall pay 3 per cent. less than houses otherwise situated.

(*c*).—A lighting-rate not exceeding 2 per cent. on the annual valuation.

(*d*).—A sewage rate not exceeding 2 per cent. on the annual valuation.

Appropriation of the Water-supply Fund.

102. The water-rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the Water-supply Fund.

The Water-supply Fund shall be credited with the receipts of the water-rate, with all receipts arising out of the sale of water, and with all miscellaneous receipts connected with the water-supply.

It shall be debited with—

(*a*).—The annual interest on all sums borrowed from time to time, whether from Government, or by way of debenture loan for the construction or extension of water-works for the supply of filtered or unfiltered water.

(*b*).—The annual expenditure requisite for the repayment of these loans, or for the creation of a Reserve Fund for their future repayment.

(*c*).—The cost of maintaining in an efficient condition the supply of filtered water to Calcutta.

(*d*).—The cost of maintaining in an efficient condition the supply of unfiltered water to Calcutta.

(*e*).—The establishments and miscellaneous expenditure necessary for the purposes specified in clauses (*c*) and (*d*).

(*f*).—Such a proportionate share of the cost of collection, of general supervision and of the Head Office, as the Commissioners in meeting may from time to time direct.

Appropriation of the lighting fund.

103. The lighting-rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the Lighting Fund.

The Lighting Fund shall be credited with the receipts of the lighting-rate, with the receipts, if any, arising out of the sale of gas or electricity, and with all miscellaneous receipts connected with the lighting of the town.

It shall be debited with—

(*a*).—The annual interest on all sums which may hereafter be borrowed for the construction of gas-works or for supplying electricity for the lighting of Calcutta.

(*b*).—The annual contributions to the Reserve Fund for the future repayment of such sums.

(*c*).—All expenditure necessary for the efficient lighting of the town by gas, oil, electricity, or any other means.

(*d*).—The establishments and miscellaneous expenditure necessary for the purposes specified in clause (*c*).

(*e*).—Such proportionate share of the cost of collection, of general supervision, and of the Head Office as the Commissioners in meeting may, from time to time, direct.

Appropriation of the Sewage Fund.

104. The sewage rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the Sewage Fund.

The Sewage Fund shall be credited with the receipts of the sewage rate, with the proceeds, if any, arising from the sale of night-soil, the receipts from licenses under section three hundred and eleven, and with all miscellaneous receipts connected with the working of the Night-soil Removal Department.

It shall be debited with—

(*a*).—The cost of the establishments maintained under section three hundred and thirteen.

(*b*).—The cost of maintenance of all public latrines and urinals and of the establishments for their cleansing.

(*c*).—Such proportionate share of the cost of inspecting, maintaining, and cleansing the public sewers as the Commissioners in meeting may from time to time determine.

(*d*).—Such proportionate share of the cost of collection, of general supervision, and of the Head Office as the Commissioners in meeting may from time to time determine.

Appropriation of the General Fund.

105. The general rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the General Fund.

The General Fund shall be credited with the receipts of the general rate, with all moneys paid to the Commissioners in accordance with the provisions of this Act other than those assigned to the Water-supply Fund, Lighting Fund or Sewage Fund, and with such other

moneys received by the Commissioners as the Commissioners in meeting may from time to time direct to be credited to the General Fund.

It shall be debited with all expenditure incurred in accordance with the provisions of this Act other than that debitable to the Water-supply Fund, Lighting Fund or Sewage Fund, and with all other expenditure that may be lawfully incurred by the Commissioners which the Commissioners in meeting shall direct to be debited to the General Fund:

Provided that, when any of the other rates are levied at a maximum, but not otherwise, grants may be made by the Commissioners in meeting in aid of any fund dependent on such rate if the receipts of the Fund fall short of the requisite disbursements.

The four rates to be levied as a consolidated rate.

106. These four rates, after having been fixed under section seventy-one of this Act, shall be levied as one consolidated rate, and the collections made on account of this rate shall be divided between the General Fund, the Water-supply Fund, the Lighting Fund and the Sewage Fund in the proportions at which the rates are being levied for the time being without reference to the year on account of which each payment is made.

Such deduction shall, however, be made from the proportion to be credited to the Water-supply Fund as may seem to the Commissioners in meeting to be approximately equivalent to the diminished productiveness of that rate, owing to the partial exemption of certain premises under clause (*b*) of section one hundred and one.

Rate by whom and when payable.

107. The consolidated rate shall be payable half by the owners of the houses and lands, and half by the occupiers thereof. It shall be payable on the first day of April, first day of July, first day of October and first day of January for the quarters, respectively, commencing on those dates.

PART II.—*Of the Owner's share of the Consolidated Rate.*

If assessment be made at a higher annual value than the amount paid by the occupier, owner may recover difference from him.

108. If the annual value of any house or land as determined under Chapter V shall in any case exceed the amount of rent payable to the owner, the owner may in such case recover from the person who pays him rent the difference between the sum assessed upon him as the owner's share of the consolidated rate and the sum at which he would have been assessed had the house been valued only at the amount of rent actually payable to him, and such difference shall be added to the rent and shall be recovered by the owner from the person liable for the payment thereof.

Refund of owner's share of consolidate rated.

109. When any house or land whereon the consolidated rate is assessed under Chapter V has been vacant for sixty consecutive days during any year, the person liable to pay the owner's share of the consolidated rate shall, if notice in writing be given to the Commissioners of such house or land being vacant, be liable to pay only one-fourth of the consolidated rate due on account of the period of vacancy—the period of vacancy being calculated from the date on which the notice is delivered; if more than one-fourth of the consolidated rate has been paid in advance, the surplus shall, on demand, be refunded.

No refund unless application be made within six months from vacancy.

110. No refund shall be made under the last preceding section unless the same shall be applied for within six months from the date of vacancy of the house or land on account of which the refund is applied for.

PART III.—*Of the Occupier's share of the Consolidated Rate.*

Refund of occupier's share of consolidated rate when house ceases to be occupied.

111. When any house or land whereon the consolidated rate is assessed under Chapter V is vacant, the person liable to pay the occupier's share of the rate up to the period of such vacancy shall, if he has paid for the whole quarter, be entitled to a refund of all the rate paid by him for the period during which the house is vacant, or for the period during which it may have been occupied by a new occupier, if notice shall have been given in writing to the Commissioners of such house or land being vacant; and the date of vacancy shall be calculated from the date of delivery of such notice at the office of the Commissioners.

No refund of rates unless application made within six months from vacancy.

112. No refund of rates shall be made under the last preceding section unless the same is applied for within six months from the date of cessation of occupation of the house or land on account of which the refund is applied for.

Rate payable on house or land becoming occupied.

113. Whenever any house or land which shall have been unoccupied shall be occupied during any quarter, there shall be forthwith payable in respect of such house or land the full occupier's share of the consolidated rate for the period between the date of occupation and the last day of the quarter.

Person sub-letting to different persons to be deemed occupier.

114. Whenever any person holding any house or land at a rent from the person liable to pay the owner's share of the consolidated rate in respect of such house or land has or may sub-let the same to different persons holding in severalty, the person so holding shall, for the purposes of this Act, be deemed to be the occupier of such house or land.

Power to impose entire rate on owner in certain cases.

115. If any house is occupied by more than one person holding in severalty, or is valued at less than Rs. 200, the Commissioners may impose the entire consolidated rate upon the owner of such house.

Owner to recover from occupier rate paid by owner.

116. If the entire rate is paid by the owner of any house under the last preceding section, such owner may, if there be but one occupier of the house, recover from such occupier half of the rate so paid by such owner;

and if there be more than one occupier, he may recover from each occupier half of such sum as shall bear to the entire amount of rate so paid by him the same proportion as the value of the portion of the house in the occupation of such person bears to the entire value of such house.

Imposition of consolidated rate in the case of bustee land.

117. The entire consolidated rate imposed upon bustee land and the huts built thereon shall, after deducting therefrom a sum equal to one-eighth of such rates, be paid by the owner of such land. The sum deducted shall be retained by the owner of the land as a set off against the expenses which may be incurred in collecting the portion of the rate recoverable from the occupiers of the land or the owner or occupiers of huts built thereon, under the provisions of the next succeeding section, and as a commutation of all refunds in respect of huts which are vacant or which may be removed or destroyed during the continuance of the period for which the rate is imposed:

Provided that no additional rates shall be imposed on account of any new huts built or of any huts enlarged during the year for which the valuation remains in force, under the provisions of section one hundred and twenty-four.

Owner to recover from occupier rates paid by owner.

118. Whenever a rate is imposed on bustee lands, the Commissioners shall cause the land and the huts standing on it to be separately valued, and the owner of the land may recover from the owner of each hut half the consolidated rate paid by him for the land on which the hut stands, and the entire consolidated rate payable on account of the hut.

Owner to have same power for recovering rates as for recovering rent.

119. Every owner who, under the provisions of sections one hundred and sixteen and the last preceding section may be entitled to recover any sum from the occupier of any house or of any portion thereof, or from the owner of any hut, shall have for the recovery of such sum all such and the same remedies, powers, rights, and authorities as if such sum were rent payable to him.

Occupier of house or land may be required to furnish name of owner.

120. The Commissioners may by a notice in writing require the occupier of any house or land to furnish them, within fifteen days, with the name and address of the owner of such house or land, and such name and address, when so received, shall be registered provisionally in the assessment book kept under section one hundred and twenty-eight.

On failure occupier liable to owner's rates.

121. If the occupier of any house or land shall refuse or neglect to furnish the information so required of him under the last preceding section, he shall be liable to pay the rates payable by the owner on account of such house or land, and on non-payment thereof the Commissioners may recover the same by distress and sale of any moveable property found in the house or on the land:

Provided that no arrear of rate which has remained due from the owner of any house or land, for more than one year, shall be so recovered from the occupier thereof.

CHAPTER V.

OF THE ASSESSMENT OF HOUSES AND LAND.

Annual value of house or land how to be ascertained.

122. For the purpose of assessment under this Act, the annual value of land and the annual value of any house built for letting purposes or ordinarily let shall be the gross annual rent at which such land or house might reasonably be expected to let from year to year, less, in the case of a house, an allowance of 10 per cent. for the cost of repairs, and for all other expenses necessary to maintain the house in a state to command such gross rent. The annual value of any house not built for letting purposes and not ordinarily let shall be 5 per cent. on the sum obtained by adding the estimated present cost of building the house, less a reasonable amount to be deducted on account of depreciation, if any, to the estimated value of the land valued with the house as part of the same premises.

When a house is occupied by the owner under such exceptional circumstances as renders a valuation of 5 per cent. of the cost of building, less depreciation, excessive, a lower percentage may be taken.

The value of land so estimated shall not include the value of any machinery thereon.

Annual value to be assessed by the Commissioners; valuation to remain in force for six years.

123. All valuations of houses made by the Commissioners prior to the commencement of this Act shall remain in force during the period for which they were so made, and on the expiration of such period, the annual value at which any house is to be assessed shall be fixed by the Commissioners for a period of six years, and thereafter for successive periods of six years:

Provided that for the purpose of dividing the town into districts under section one hundred and twenty-nine, the Commissioners may retain the valuation of the houses in any part of Calcutta for a further period not exceeding six years, or may, with the same object, make a re-valuation for a less period than six years.

Bustee lands may be valued annually.

124. Bustee lands with the huts upon them, or lands that are waste or used for agricultural purposes, may be valued annually at the discretion of the Commissioners, and shall be so valued on the application of the owner. When not re-valued, the former valuation shall remain in force from year to year until a re-valuation is made.

Intermediate valuation in certain cases.

125. Any house, the valuation of which may have been cancelled on the ground of irregularity, or which for any other reason may have no annual value legally assigned to it, may be valued at any time under section one hundred and twenty-two for such period as remains unexpired in the district in which it is included under section one hundred and twenty-nine.

When substantial improvement made, Commissioners may re-value.

126. If during the currency of any period mentioned in section one hundred and twenty-three any substantial alteration and improvement is made to any such house, the Commissioners may cause such house to be again valued, even though such period has not expired, and such last-mentioned valuation shall be in force, and the rate shall be imposed according to it, until the expiration of the said period of valuation.

When substantial injury done, Commissioners may re-value.

127. If during the currency of any period mentioned in section one hundred and twenty-three the value of such house shall suffer depreciation from any cause proved to

the satisfaction of the Commissioners to have been beyond the control of the owner or occupier thereof, the Commissioners shall as soon as practicable, on application being made to them in writing by the owner or occupier of such house, cause it to be again valued, even though the current period of valuation has not expired, and such last-mentioned valuation shall be in force, and the rate shall be imposed according to it, until the expiration of the said period of valuation:

Provided that if any substantial alteration and improvement shall be made, prior to the expiration of the said period of valuation, to the house which shall have been again valued as aforesaid, the Commissioners may cause such house to be again valued as under the last preceding section.

Annual value fixed to be entered in a book.

128. The annual value fixed by the Commissioners as hereinbefore provided shall be entered in a book to be kept at the office of the Commissioners, wherein shall also be written—

(*a*) number of premises;
(*b*) description of premises;
(*c*) name of person primarily liable to pay the rate;
(*d*) amount of valuation;
(*e*) amount of rate payable quarterly;
(*f*) if exempted, the ground of exemption.

This information may be contained in as many books as the Commissioners may, from time to time, determine which shall together constitute a book to be called the "assessment book."

When the name of the owner or occupier is not known, it shall be sufficient to designate him in the assessment book as the "owner" or "occupier."

Owner or occupier may apply to have his name entered as such in assessment book.

Any owner or occupier may at any time apply to the Commissioners to have his name entered as owner or occupier in the assessment book, and the Commissioners shall, unless there is sufficient reason to refuse such application, (which refusal shall be in writing) cause such name to be entered in the assessment book.

Where there are gradations of owners or occupiers, and doubt exists as to who is entitled to be registered as owner or occupier of any premises, the Commissioners shall determine which of the several owners or occupiers is entitled to be registered as such, and their decision shall remain in force for the purposes of this Act till set aside by the order of a competent court.

No owner or occupier whose name is not entered in the assessment book shall be entitled to object that any bill, notice of demand, warrant or other notice of any kind required by this Act to be served on the owner or occupier of any house or land, has not been made out in his own name:

Person paying owner's share of consolidated rate may be registered provisionally as owner.

Provided that any person who has paid the owner's share of the consolidated rate for the last preceding quarter may, if there is no opposition to his application to be registered as owner, but such application is rejected or postponed for want of evidence, claim to have his name provisionally registered as owner, and when his name is so provisionally registered he shall enjoy all the privileges and incur all the liabilities attaching to the owner of any house or land under this Act so long as no other person claims to be registered as owner.

A list shall be published annually, in such manner as the Commissioners may determine, stating the names of all persons who are provisionally registered and the premises in respect of which they are so registered.

Any name provisionally registered as that of an owner of any premises shall after three years, if no objection be taken, be transferred to the assessment book as that of the owner of such premises.

New valuations or measurement to be made.

129. For the purpose of valuing houses for a period of six years, the Commissioners shall divide Calcutta into such and so many districts as they may think fit, and proceed to make separate valuations district by district, and shall enter the same in the assessment book.

Returns may be required for purpose of valuation.

130. The Commissioners, by a notice in writing, may require the owner or occupier of any house or land to furnish them with returns of the measurements and of the rent or annual value thereof; and the Commissioners, or any person authorized by them in that behalf, may at any time between the hour of seven in the forenoon and sunset enter on, and inspect, survey, and measure such house or land after giving a notice in writing of not less than twenty-four hours.

Penalty.

131. Whoever refuses or fails to furnish any such return for the space of one week from the day on which he shall have been required so to do, or knowingly makes a false or incorrect return, and whoever hinders, obstructs, or prevents any Commissioner, or any person appointed by the Commissioners as aforesaid, from entering or inspecting or measuring any such house or land shall be liable to a fine not exceeding Rs. 200 for every such offence.

Public notice of valuation to be given.

132. When the valuation of any of the districts into which Calcutta may have been divided by the Commissioners in accordance with the provisions of section one hundred and twenty-nine shall have been completed, the Commissioners shall give public notice thereof, and of the place where the statement of valuations of all the houses included in such district may be inspected. Such notice shall be by advertisement in at least two English newspapers, and in two Vernacular newspapers, published in Calcutta, and also by placards posted up in conspicuous places throughout such district.

And the person in whose custody the statement of valuations may be, shall permit any person, being the owner or occupier of any house or land included in the district or the agent of such owner or occupier, to inspect the records and to make extracts therefrom without payment of any fee, and any person, not being such owner or occupier to inspect and make extracts, in like manner, on payment of a fee of one rupee in respect of each entry extracted.

Notice when valuation made for first time or increased.

133. The Commissioners shall, in all cases in which any house is for the first time valued, or in which the valuation of any house previously valued is increased, give special

notice thereof to the owner or occupier of the same, and when the valuation is increased as aforesaid, the said notice shall state the grounds of such increase.

Notice to be given before re-valuing bustee land.

134. Before re-valuing any bustee, or other land under section one hundred and twenty-four, the Commissioners shall give notice to the owner of the land that on or after a date, not less than fifteen days from the receipt of such notice by the owner of the land, such re-valuation will take place, and if the valuation so made exceeds the previous valuation, the Commissioners shall give to the owner a special notice of the amount of the valuation with full details thereof.

Person dissatisfied with valuation to give notice of objection.

135. Any person who is dissatisfied with a valuation made under this Chapter shall in the case of houses, within fifteen days after the publication of the notice referred to in section one hundred and thirty-two, or after receipt of the notice referred to in section one hundred and thirty-three, when such notice is received after the publication of the notice referred to in section one hundred and thirty-two, and in the case of bustee or other land within fifteen days after the receipt of the special notice referred to in section one hundred and thirty-four, deliver at the office of the Commissioners a notice in writing stating the grounds of his objection.

Objection to be entered in register and to be investigated and determined by Chairman or Vice-Chairman.

136. All such objections shall be entered in a register to be maintained for the purpose, and on receipt of any objection, notice shall be given to the objector of a day and place when his objection will be investigated.

On the day and place notified, the Chairman or Vice-Chairman (if the case is referred to him by the Chairman) shall hear the objection in the presence of the objector if he shall appear, or the Chairman or Vice-Chairman may, for reasonable cause, adjourn the investigation. When the objection has been determined, the order passed shall be recorded in the register of objections, together with the date of such order.

Person dissatisfied with decision of Chairman or Vice-Chairman may appeal to Small Cause Court.

137. Any person dissatisfied with the orders passed on his objection may appeal to the Court of Small Causes having jurisdiction in the place where the house, land or bustee land is situated. Such appeal shall be presented to the Court of Small Causes within thirty days of the decision of the objection under section one hundred and thirty-six, and shall be accompanied with an extract from the register of objections containing the orders objected to. No appeal shall be admitted unless an objection has first been taken under section one hundred and thirty-five.

The valuation made by the Commissioners subject to such alterations as may from time to time thereafter be duly made, shall be entered in the assessment book, and the assessment calculated on the said valuation shall, subject to such alterations as aforesaid, be deemed to be the amount payable during the whole period for which the valuation is in force, and this period shall be calculated from the commencement of the quarter next succeeding that in which any such amendment shall be so authenticated; and until such date the old valuation shall continue in force, notwithstanding that the period for which it was made may have expired.

Alteration or amendment of valuation.

140. The Chairman or Vice-Chairman may at any time amend the assessment book by inserting therein the name of any person whose name ought to be so inserted, or by inserting any house or land liable to the rate, or by inserting a valuation when the house or land liable to be valued has not been valued, after giving notice to any person interested in the making of the amendment of a day, not being less than fifteen days from the date of the service of such notice, when such amendment is to be made; the Chairman or Vice-Chairman may also strike out the name of any person, or any house or land not liable to the rate or reduce the amount of the valuation without notice:

Provided that no reduction shall be made inconsistent with the provisions of section one hundred and thirty-eight.

If any amendment shall be made in cases where notice is required, the same shall be deemed to have been made on the expiration of fifteen days after service of the said notice; and any person interested in such amendment may object by application in writing to the Commissioners, to be left at their office three clear days before the day fixed in the said notice; and the provisions of sections one hundred and thirty-five, one hundred and thirty-six, one hundred and thirty-seven, and one hundred and thirty-eight shall, so far as may be practicable, apply to such objection.

Provided that when the premises in respect of which the default is committed are a place of business, and the moveable property distrained is shown to the satisfaction of the Commissioners to have been left there for repairs or safe custody in the ordinary course of business, it shall be released.

For every notice of demand under this section which the Commissioners shall cause to be served upon any person, a fee, not exceeding one rupee, shall be payable.

Such fee shall be added to the amount of the rate in respect of which the notice is given, and, if not duly paid, may be levied in the same manner as such rate may be levied.

Inventory—notice of distress.

143. The officer charged with the execution of a warrant of distress under the last preceding section shall forthwith make an inventory of the moveable property seized under such warrant, and shall at the time give a notice in writing in the form contained in the Seventh Schedule, or to the like effect, to the person in possession thereof at the time of the seizure, that the said moveable property will be sold as therein mentioned.

Sale.

144. If the warrant is not in the meantime discharged or suspended by the Commissioners, the moveable property seized shall be sold and the proceeds, or such part thereof as may be necessary, shall be applied in discharge of the said arrears and costs;

and the surplus, if any, shall be returned on demand to the person in possession of the moveable property at the time of the seizure.

All distresses under this Chapter shall be reasonable and the amount of property seized shall be proportionate to the arrears due, and all sales of property under this section shall, so far as may be practicable, be regulated by the procedure now in force, or hereafter to be in force in the Court of Small Causes with respect to sale after distress.

Fees shall be payable upon warrants issued under this Act according to the rates set forth in the table of fees contained in the Eighth Schedule.

All officers and servants of the Corporation are prohibited from purchasing any property at any such sale.

Provided that no arrear of rate so due shall be recovered from the occupier if it has been due for more than one year, or for a period during which the occupier was not in occupation.

Rates due from vendor may be recovered from purchaser.

147. The purchaser of any house or land for which any sum is due on account of the rate payable by the owner at the time of such purchase shall be liable for the amount due on account of such rates for any period not exceeding one year prior to the purchase.

Distress not unlawful for want of form.

148. No distress levied under this Act shall be deemed unlawful, nor shall any party making the same be deemed a trespasser, on account of any defect or want of form in the notice, schedule, summons, notice of demand, warrant of distress, inventory, or other proceeding relating thereto, nor shall such party be deemed a trespasser on account of any irregularity committed by him; but all persons aggrieved by such irregularity may recover, in any court of competent jurisdiction, full satisfaction for any special damage sustained by them.

Commissioners may sue instead of proceeding by distress.

149. Instead of proceeding by distress and sale, or in case of failure to realize by distress and sale the whole or any part of the sum due in respect of any rate, the Commissioners may sue, in any court of competent jurisdiction, the person liable to pay the same.

What are not domestic purposes.

152. A supply of water for domestic purposes shall not include a supply of water for animals, or for washing carriages, where such animals or carriages are kept for sale or hire, or a supply for any trade, manufacture, or business, or for fountains, or for watering gardens or roads, or for any ornamental or mechanical purposes.

153 The Commissioners shall, so far as may be reasonably practicable, between the hours of six in the forenoon and eight in the

afternoon, keep and maintain throughout their pipes and mains a sufficient supply of filtered water under a pressure of not less than ten feet for the domestic use of the rate-payers, and shall every day, for not less than two hours in the forenoon and one hour in the afternoon, maintain a pressure of water in the service pipes and mains sufficient to raise the water in all houses and places in which the same may be introduced within the area at present supplied to a height of not less than thirty feet, and shall test the purity of the water supplied once every week or at such intervals of time as the Commissioners in meeting may direct.

Supply for business.

154. The Commissioners may supply water through a meter, for other than domestic purposes, if the person requiring such supply make application to the Commissioners in writing, specifying the purpose for which such supply is required and the quantity likely to be consumed.

The Commissioners may thereupon, subject to such charges or rates as may have been fixed by the Commissioners in meeting, lay down, or allow to be laid down, the necessary communication-pipes and works of such dimensions and character as may be fixed by the Commissioners.

No meter shall be necessary in any case in which the applicant agrees to pay such sum per mensem for the use of the water as may be fixed by the Commissioners.

When water is supplied by the Commissioners through a meter, it shall be presumed that the quantity indicated by the meter has been consumed until the contrary is proved.

If the Commissioners have reason to believe that the occupier of any house consumes more filtered water than he is entitled to as aforesaid, it shall be lawful for the Commissioners to provide a water-meter at their own expense, and attach the same to the water-pipes of the said house; and any water which may be used over and above the quantity to which the occupier is entitled as aforesaid shall be paid for by him at the rate of one rupee for every three thousand gallons:

Communication-pipes to be made of required dimensions and at expense of house-holder.

158. Whenever the Commissioners shall deem it practicable and consistent with the maintenance of an efficient water-supply, they shall allow any person living in a masonry house and paying the water-rate hereinbefore mentioned to lay down communication-pipes from the service pipes of the Commissioners for the purpose of bringing into his house or land a supply of water for domestic use in accordance with the scale of ferrules prescribed under the ninth schedule;

Provided that if the house is so situated that the size of the ferrule prescribed for the use of such house under such scale is insufficient to pass the daily supply of water which the occupier of such house is entitled to receive under section one hundred and fifty-five, the Commissioners shall permit the use of a ferrule of such size as shall be sufficient to pass such supply:

If ferrule prescribed by schedule insufficient, Commissioners shall permit use of larger ferrules.

Provided also that the Commissioners may at their own expense replace any ferrule, used for the supply of water to any house at the time when this Act comes into force which is of larger size than the occupier of such house under such scale is entitled to use, by a ferrule of the size prescribed under such scale for the use of such house:

Commissioners may replace existing ferrule by another.

and if the Commissioners at any such time be refused admittance into such house or land for the purposes aforesaid, or be prevented from making such examination as aforesaid, they may forthwith turn off or cut off the water from such house or land:

Provided that nothing hereinbefore contained shall authorize an entry into any room appropriated for the zenana or residence of women, which by the custom of the country is considered private, unless a notice in writing of not less than four hours be given.

When pipes are out of repair, Commissioners may cut off, or turn off water.

161. In the event of any pipes, works, or fittings connected with the supply of water to any house or land being at any time found on examination by the Commissioners to be out of repair to such an extent as to cause any waste of water, the Commissioners may cause the water to be turned off or cut off from the house or land, after giving notice in writing of not less than twenty-four hours to the person in occupation thereof, and may recover the expense incurred for cutting off the water from the occupier of such house or land.

Water may be turned off or cut off on neglect to pay the rate.

162. If any person supplied with water shall neglect to pay the water-rate hereinbefore mentioned at any of the times of payment thereof, or the charge made for the said water when supplied for other than domestic purposes, the Commissioners may cause the water to be turned off or cut off from the house or land in respect of which such rate or charge is payable, and may recover the expense from such person:

163. The occupier of any house or land in which water supplied by the Commissioners under this Act is from negligence or other circumstances under the control of the said occupier wasted, or in whose house or land the pipes, works, and fittings for the supply of water shall be found to be out of repair to such an extent as to cause any waste of water, shall be liable to a fine not exceeding Rs. 20.

Penalty.

242. The Commissioners may, in addition to, or in lieu of, exercising the powers conferred on them by section two hundred and forty and the last preceding section, prosecute any person who shall build a new house without sending in the ground plan required by section two hundred and thirty-five, or who shall build or re-build or materially alter the structure of any house without making the application required by section two hundred and thirty-six, and such person shall, on conviction, be liable to a fine not exceeding Rs. 100 and to a further fine not exceeding Rs. 20 for every day during which the offence is continued after he has been convicted of such offence.

Provisions applicable to buildings constructed under section two hundred and thirty-six.

243. The following provisions shall apply to buildings which it is proposed to construct under section two hundred and thirty-six :—

(*a*). The levels and width of foundation shall be such as the Commissioners consider satisfactory.

(*b*). No house shall be built upon a lower level than will allow of the drainage of such house or building being led into some public sewer then existing or projected, or into some tidal river into which the Commissioners are empowered to empty their sewers.

(*c*). The plinth of such building shall be at least two feet above the centre of the nearest street.

(*d*). The building shall not be erected over any sewer or drain belonging to the Commissioners without their written consent.

(*e*). Every privy shall be so situated and so constructed as not to be a nuisance to the neighbours or dangerous to the health of the inmates.

(*f*). Every building shall be provided with adequate ventilation.

(*g*). No building shall cover a greater portion of the ground belonging to the owner of it and forming part of the same or adjacent premises, than is consistent with the free circulation of air, supposing the owners of contiguous lands to cover their land with buildings to the same extent.

If Commissioners fail to pass orders within thirty days, person may build or rebuild house.

244. If the Commissioners fail to pass orders within thirty days, as required by sections two hundred and thirty-seven and two hundred and thirty-eight, the person making such application may, notwithstanding anything hereinbefore contained, proceed to build or rebuild the house.

Hoards to be set up during repairs.

245. Every person intending to build or take down any house, or to alter or repair the outward part of any house, where any public street will be obstructed or rendered inconvenient by means of such work shall, before beginning the same, cause sufficient hoards or fences to be put up, in order to separate the house where such works are being carried on from the street, and shall keep such hoard or fence standing and in good condition, to the satisfaction of the Commissioners, during such time as the public safety or convenience requires, and shall cause the same to be sufficiently lighted :

Provided that no person shall put up a hoard or fence without the written permission of the Commissioners, and shall not keep up such hoard or fence for a time longer than that specified in such written permission.

Penalty.

246 Every person who begins to build, or to take down, or alter, or repair any house contrary to the provisions of the last preceding section, or who, without a license, erects or sets up any hoard, scaffolding, or fence whatsoever, or who, having obtained permission, fails to put up such fence or hoard, or to maintain the same standing and in good condition, or who does not, while such

hoard or fence is standing, keep the same sufficiently lighted, or who does not remove the same when the time specified in the permission has elapsed, shall be liable to a fine not exceeding Rs. 50 for every such offence, and to a further fine not exceeding Rs. 20 for each day during which the offence is continued after he has been convicted of such offence.

PART III.—*Of Building Regulations regarding Huts and Bustees.*

Notice in prescribed form to be given before building a hut.

247. Before beginning to build, re-build or add to any hut, the person intending so to do shall make an application to that effect to the Commissioners in a form to be provided by them (for which no charge shall be made.) Such form shall require a ground plan of the hut drawn to the scale of eight feet to the inch and such other details as the Commissioners may prescribe. On receipt of such application, the Commissioners shall, within fourteen days, express their approval of the proposed work, or their disapproval on any one or more of the following grounds:—

(*a*) That the site is ill-chosen with reference to adjacent huts or with reference to any present or proposed roads.

(*b*) That the ventilation will be defective.

(*c*) That the arrangements for scavenging or drainage are defective.

(*d*) That the hut will be within thirty feet of a tank.

(*e*) That the hut will be on the site of a tank which has been so recently filled up as to be prejudicial to the health of a person dwelling in it.

(*f*) That the plinth is not two feet above the level of the centre of the nearest street.

(*g*) That the erection of the proposed hut will infringe some specified bye-law made under this Act.

If the proposal is approved the hut may be built, re-built, or added to at any time within six months after the date of sanction. If it is disapproved on any of the grounds above stated, the work shall not be commenced till such modifications have been made in the plan of the proposed hut as the Commissioners may deem necessary.

Power to demolish hut built without sanction.

248. If any hut be built, re-built, or added to without making such application to the Commissioners as is required by the last preceding section, or before the approval of the Commissioners has been obtained under that section, the Commissioners may cause such hut or so much of it as has been constructed to be demolished or altered in such manner as they may prescribe; and the expenses of such demolition or alteration shall be paid by the person failing to comply with the provisions of this Act.

Penalty.

249. The Commissioners may, in addition to, or in lieu of, exercising the powers conferred on them by the last preceding section prosecute any person who builds, re-builds, or adds to any hut in contravention of the provisions of section two hundred and forty-seven, and such person shall be liable to a fine not exceeding Rs. 100 for any such offence, and to a further fine not exceeding Rs. 20 for every day during which the offence is continued after he has been convicted of such offence.

If Commissioners fail to pass orders, the person making application may proceed to build or rebuild the house.

250. If the Commissioners fail to pass orders within fourteen days as required by section two hundred and forty-seven, the person making such application may notwithstanding anything hereinbefore contained proceed to build or rebuild the house.

Powers of the Commissioners with respect to bustees.

251. The Commissioners may define the external limits of any bustee, and may from time to time modify such limits; and for the purposes of this Act, land comprised within such limits shall be deemed to be a bustee:

Provided that every bustee shall consist of one or more complete plots of bustee land, separately numbered as such in the assessment book, and no plot bearing only one number shall be divided so as to fall within the limits of separate bustees. The existence of one or more houses with the land attached thereto, within the limits defined as above, shall be no bar to the bustee lands within such limits being deemed to be a bustee: Provided also that the Commissioners shall have no power under this Part of exercising any control over such houses and land attached, except by acquiring the whole or any portion of them by purchase or in the manner provided by Chapter XIII, Part II.

Commissioners may call upon bustee owners to furnish a standard plan.

252. The Commissioners may at any time serve a notice upon the owners of a bustee, calling on them to prepare a joint plan thereof to the scale of forty feet to the inch showing the manner in which such bustee should be laid out with the huts standing in regular lines and with a free passage in front of and behind each line, of such width as may be necessary for ventilation and for scavenging. The plan shall also show the proposed drains of the bustee, the water-supply, bathing arrangements (if any) and the privy accommodation to be provided for the use of the tenants, the roads which are to be maintained for their benefit, the land, if any, which is to be kept as common land, the tanks which are to be filled up or conserved, and any other proposed improvements.

Plan finally approved by Commissioners to be taken as standard plan.

Such plan, when prepared as above, shall be considered by the Commissioners, and such modifications shall be made therein as the Commissioners shall require. After any plan has been finally approved of by the Commissioners, it shall be taken as the standard plan of the bustee. If any land within the limits of a bustee is not bustee land, the standard plan shall be so prepared as clearly to distinguish it from the bustee land.

When a call has been made on the owners of the bustee to prepare a joint plan under this section, no hut shall be built, re-built, or added to within the bustee till a standard plan has been prepared.

Commissioners, under certain circumstances, may prepare a standard plan.

253. If the owners of a bustee cannot agree among themselves in the preparation of a joint plan, or if they for any reason prefer to have a joint plan prepared for them by the Commissioners, or if they fail to comply with the notice to submit a

joint plan within the space of sixty days, the Commissioners shall, within a further period of sixty days, themselves prepare a plan to the scale and in the manner prescribed in the last preceding section for which they may charge the owners at such rate not exceeding Rs. 3 per bigah as the Commissioners in meeting may fix. The cost of preparing such plan may be recovered as a rate under this Act.

Objections to Commissioner's plan to be entertained.

254. When a plan has been prepared by the Commissioners under the last preceding section, they shall fix a day for the hearing of objections on the part of the owners; and may at their discretion modify the plan in accordance with any objections made. When the objections have been disallowed, or when the plan has been modified in conformity with any objections raised, it shall be approved of by the Commissioners, and shall thereafter be taken as the standard plan of the bustee.

Commissioners may require huts to be built in conformity with the standard plan.

255. When a standard plan has been prepared for any bustee under sections two hundred and fifty-two or two hundred and fifty-four, no hut shall be built, re-built, or added to in such bustee, unless the hut or the portion to be added occupies a site, or portion of a site marked as the site for a hut in the standard plan. The Commissioners may, at any time by paying compensation to the owner of any hut not in conformity with the standard plan, require him to take down his hut and re-build it in conformity with such plan. Such compensation shall, in the event of dispute, be determined in the manner provided in this Act for the settlement of disputes respecting damages and expenses.

The Commissioners may at any time serve a notice upon the owners of any bustee, calling upon them to construct the roads, privies, drains, and other details shown in the standard plan of any bustee, so far as may be practicable in the existing arrangement of the huts, and if any tank is shown as to be filled up or improved, may call upon the owner to fill up or improve such tank. Till such notice is complied with, the Commissioners may refuse to sanction the building or re-building of any hut in the bustee, or any addition to any existing hut.

Remodelled bustees.

256. When a bustee has been brought into conformity with a standard plan which has been prepared for it, it shall be deemed to be a remodelled bustee.

Report by medical officers on unhealthy bustees.

257. When it appears to the Commissioners in meeting that any bustee is, by reason of the manner in which the huts are crowded together, or for any other reason, in such an unhealthy condition that the procedure provided by sections two hundred and fifty-two to two hundred and fifty-six will be too dilatory for improving such bustee, they may cause it to be inspected by two medical officers who shall make a report in writing on the sanitary condition of the said bustee.

Such report shall be accompanied by a plan which shall be approved of by the medical officers as a proper standard plan of the bustee, and they shall certify which of the changes necessary to bring the bustee into conformity with the proposed standard plan should be taken in hand forthwith, in consequence of the unhealthy condition of the bustee, and which can await the procedure prescribed in sections two hundred and fifty-two to two hundred and fifty-six. The former changes shall be shown in a Schedule attached to the report to be called Schedule A; and this Schedule shall clearly indicate the huts which should wholly or in part be removed, the roads and drains which should be constructed, the tanks or low lands which should be filled up, and any other works necessary to remove or abate the unhealthy condition of the bustee. If for the purpose of making such roads or effecting any other improvement, it is necessary to purchase or acquire any land within the bustee which is not bustee land, the schedule shall specify the land which should be purchased or acquired.

On receipt of report Commissioners may cause notice to be served.

258. On receipt of the report of the medical officers, the Commissioners in meeting may cause a notice to be served upon the owners or occupiers of the huts, or at the option of the Commissioners, the owner of the land on which such huts are built, requiring them to carry out and execute within a reasonable time, to be fixed by the Commissioners for such purpose, all or any of the works specified in the aforesaid Schedule A annexed to the report, or any portion thereof respectively.

The Commissioners in meeting shall also approve of the standard plan prepared by the medical officers with such modifications as they may deem proper.

Commissioners may carry out works if owners or occupiers refuse.

259. If, after the service of the notice referred to in the last preceding section, such owners or occupiers, or the owners of the land, shall refuse or neglect to carry out and execute the said works within the time appointed, the Commissioners may cause all or any of the said works, or any portion thereof respectively, to be executed; and the expenses thereby incurred, including such reasonable compensation as the Commissioners think fit to pay to the owners or occupiers of huts destroyed or removed, shall be paid by the owners of the land:

Expenses may be recovered by instalments or remitted in case of poverty.

Provided that the Commissioners in meeting may order the expenses so incurred to be recovered by instalments from the said owners, of the land or, if it should appear to them that any such owner is unable by reason of poverty to pay the same, may order the same or any portion thereof to be paid out of the General Fund.

Sale of huts.

260. If any of the said huts be pulled down, the Commissioners shall cause the materials of each hut to be given to the owner of the hut; or if the owner be unknown, or the title disputed, the materials shall be sold and the proceeds shall be held in deposit by the Commissioners until the person interested therein shall obtain an order from a competent court for the payment of the same.

A Court of Small Causes shall be deemed a competent court for the purpose.

Commissioners on the report of medical officers may acquire land.

261. The Commissioners may, at any time, after the receipt of the report of the medical officers acquire by purchase, or in the manner provided by

Chapter XIII, Part II, any land other than bustee land shown in that report as land which should be acquired.

When an unhealthy bustee to be deemed remodelled bustee.

262. After the works specified in Schedule A attached to the report filed under section two hundred and fifty-seven, or so much of such works as are approved by the Commissioners in meeting, have been completed, the provisions of section two hundred and fifty-five shall apply to such bustee until it is brought into complete conformity with the standard plan approved in accordance with the provisions of section two hundred and fifty-eight, after which the bustee shall be deemed to be a remodelled bustee.

Provisions as to standard plan.

263. No standard plan, prepared under sections two hundred and fifty-two, two hundred and fifty-three, two hundred and fifty-seven, or two hundred and sixty-eight shall, without the consent of the owners, show more than one-fifth of the area of the bustee as roads or more than one-half as open lands not to be built upon, whether such open land be common ground, roads, or spaces behind a line of huts; but no tank that is not filled up shall be taken into account in calculating the above proportion. The proposed standard plan shall also, as far as possible, provide for one or more huts being completely contained in each separate plot of bustee land within the bustee and for a due proportion of roadway and open ground in each plot; and if a greater portion of any one plot is taken for roads or open ground than the proportion allowed by this section, the compensation which should be paid to the owner of this plot and the persons who should pay such compensation by reason of their benefiting thereby shall be specified; if no other owner can be equitably called upon to pay such compensation, it shall be paid by the Commissioners. The compensation thus fixed shall not be payable till the plot belonging to the owner entitled to it has been brought into complete conformity with the standard plan.

Effect of notice of intention to change character of bustee land.

264. Any owner of bustee land included within the limits of a bustee may at any time give notice to the Commissioners that he intends to change the character of the whole or of any portion of the land belonging to him, so that it will cease to be bustee land. If his notice refers only to a part of his land, a separate number shall be forthwith assigned in the assessment book to the part to which the notice applies. From the date of such notice no application shall be received for building, re-building, or adding to any hut in the land to which the notice applies, and the owner shall be bound to remove all existing huts within six months after giving such notice. When all the huts have been removed, the land shall cease to be liable to the incidents of bustee land, and, according to its situation, shall either be altogether excluded from the limits of the bustee, or shall be shown in the standard plan of the bustee as land within the said limits which is not bustee land.

Roads in standard plan if not public streets remain private.

265. The roads shown in the standard plan of a bustee which are not already public streets shall, unless the Commissioners and the owners concerned otherwise agree, remain private streets; and the portion which falls on the land of each owner shall belong to such owner. Any portion which falls on land acquired or purchased by the Commissioners under section two hundred and sixty-one shall remain the property of the Commissioners.

Every such private street shall at all times be kept open to the conservancy carts of the Commissioners for the purpose of scavenging in the bustee, and shall also be kept open for the use of all the tenants of the bustee, but no such use, whether by the conservancy carts or by the tenants, shall be held by any lapse of time to confer a right of way on the public, so as to bring such street within the definition of a "public street."

Roads in a bustee not affected by change of character of bustee land.

266. If any portion of the land which it is sought to remove from the incidents of bustee land is shown in the standard plan of the bustee as a road or part of a road, the notice shall be held not to apply to such road without the express consent of the Commissioners, but such road shall continue part of a private street open to the use of conservancy carts and of the tenants of the bustee.

Owners of a bustee, when standard plan is prepared, deemed occupiers of the open spaces.

267. When a standard plan has been prepared for a bustee, the several owners of the bustee land shall be respectively deemed to be the occupiers of the roads, common ground, and of such drains of the bustee as serve more than one hut, so far as constructed in accordance with such standard plan, and the owner of each hut shall be deemed to be the occupier of the land occupied by his hut, of that portion of the open space behind his hut which appertains to it, and of any drain which is for the sole use of his hut.

Power to purchase, improve, and re-sell or lease unhealthy areas.

268. Notwithstanding anything contained in sections two hundred and fifty-seven to two hundred and sixty-two, the Commissioners in meeting may, upon receipt of the report prescribed under section two hundred and fifty-seven, pass a resolution to the effect that any bustee is an unhealthy area, and that, in the opinion of the Commissioners, the acquisition of the bustee, or any part thereof, by purchase, lease, or otherwise, is necessary for the purpose of making the requisite improvements thereon, and shall proceed to make a standard plan for the improvement of such land, and shall forward such plan, accompanied by such estimates as shall be necessary for a due understanding of the same, together with a copy of such resolution, for the consideration and sanction of the Local Government.

On receipt of such sanction, the Commissioners in meeting may acquire such land or any part thereof in the manner provided by Chapter XIII, Part II.

When the sanction of the Local Government has been accorded to any standard plan for the improvement of any land acquired by the Commissioners as above provided, the Commissioners in meeting may sell or let any part of the acquired land to any person for the purpose and under the condition that he will, as respects the land so purchased by, or leased to, him, carry out such standard plan.

The Commissioners may, instead of selling or letting the land acquired by them as aforesaid, themselves bring the bustee into conformity with such standard plan.

The Commissioners shall be bound to sell or lease such land in the manner aforesaid, or themselves to carry out the improvement sanctioned under this section within the term of four years from the date of their acquiring such land, unless the Local Government shall specially extend such term.

When a bustee has been improved under this section, it shall be deemed to be a remodelled bustee.

269. The Commissioners in meeting may sanction the employment of a special establishment for the cleansing of bustees, and when such establishment has been sanctioned, they may impose a rate to defray the cost of such establishment, on the owners of such bustees:

Commissioners may levy a rate for cleansing bustees.

Provided that, without the consent of the owners, no such rate shall be levied upon any remodelled bustee.

270. If any bustee for which no such establishment as is referred to in the last preceding section is maintained, appears to the Commissioners to be in a filthy condition, the Commissioners may serve notices upon the occupiers as defined in section two hundred and sixty-seven, requiring them within three days to cleanse the same, and if the occupiers do not comply with the terms of such notices to the satisfaction of the Commissioners, the Commissioners may cleanse the whole or any portion of the bustee which requires cleansing, and may recover the cost incurred by them from the occupiers of such portions of the bustee as they have cleansed in such manner as a rate may be recovered.

Commissioners may require bustees in a filthy condition to be cleansed.

CHAPTER XI.

OF DRAINAGE WORKS, DRAINS AND PRIVIES.

271. The Commissioners may carry out such a complete system or systems of sewerage and drainage as they may think fit, subject to the approval of the Local Government, and such alterations as may from time to time be ordered by it.

Commissioners to drain Calcutta.

272. All public sewers and drains, and all sewers, drains, tunnels, and culverts in, alongside, or under any public street, whether made at the cost of the Commissioners or otherwise, and all works, materials, and things appertaining thereto, shall vest in, and belong to, the Commissioners.

Public sewers, drains, tunnels and culverts vested in the Commissioners.

273. The Commissioners shall have power to construct within Calcutta, and when necessary for the purposes of outfall or distribution of sewage without Calcutta, such sewers as they may think necessary for keeping the town properly cleansed and drained, and may carry such sewers through, across or under any road, street or place, and after reasonable notice in writing into, through or under any premises or lands whatsoever, and may from time to time enlarge, lessen, alter, arch over or otherwise improve, modify or change, or close up or destroy all sewers, vested in them, provided no nuisance is created by such operations; and if any person is thereby deprived of the lawful use of any drain or sewer, the Commissioners shall provide another as effectual for his use within one hundred feet from some part of his premises. The Commissioners shall cause their sewers to be so constructed, kept and cleansed as not to be a nuisance or injurious to health, and for the purpose of cleansing, flushing and emptying them may construct and place either above or under ground, such reservoirs, sluices, engines or other works as may be necessary, and may cause such sewers to communicate with, and be emptied into, such places as may be fit and necessary within Calcutta, and if necessary for the purpose of outfall or distribution of sewage without Calcutta, and may cause the sewage and refuse therefrom and from the town to be collected for sale, or for the improvement of land, or for incineration, or for any purpose whatsoever, but not so as to create a nuisance.

Powers of Commissioners in making public sewers.

If a sewer is carried into, through or under any lands not belonging to the Corporation, the Commissioners shall make compensation to the owner thereof for any damage sustained by him by reason of such sewer being so carried into, through or under his land. In case of dispute, the amount of compensation payable by the Commissioners shall be determined in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

274. When the contents of any sewer or drain, or any other flow of filth or refuse, are discharged into any river or stream in the bed or channel of which the quantity of water at any season of the year is so much diminished, by natural or artificial causes, as to be insufficient to keep such channel clean or clear, the Commissioners, with the sanction of the Local Government, may make such alteration in the bed of such river or stream as may prevent such sewer and drain-water from spreading over the surface of such bed, or from accumulating and stagnating in parts thereof to the injury of health or the annoyance of the surrounding population.

Bed of stream receiving sewage to be cleared.

275. If any person, without the written consent of the Commissioners first obtained, makes or alters any drain leading into any of the sewers or drains vested in the Commissioners, or makes such drain, or carries out such alterations, with materials not approved of by the Commissioners, the Commissioners may cause such branch drain to be demolished, altered, re-made, or otherwise dealt with as they shall think fit;

Unauthorised drains leading into public sewers may be demolished.

and the expenses thereby incurred shall be paid by the person making or altering such branch drain.

276. Whoever, without the written consent of the Commissioners first obtained, makes or alters any drain leading into any of the sewers or drains vested in the Commissioners by this Act, shall be liable to a fine not exceeding Rs. 200.

Penalty for altering or making unauthorized drains leading into public sewers.

277. If any house or land within one hundred feet of a public sewer or surface drain fit for use, or of some tidal river or other place at which the Commis-

Commissioners empowered to make drains from houses which are not properly drained.

sioners are empowered to empty their sewers, be at any time not drained to the satisfaction of the Commissioners by sufficient surface drains or pipes communicating with some sewer, surface drain, tidal river, or other place as aforesaid, the Commissioners may, if the owner neglects to do so within fifteen days after notice, construct or lay through or from such house or land, suitable drains of such materials, of such size and with such fall, as they shall think necessary for the complete draining of such house or land;

and the expenses thereby incurred shall be paid by the owner.

For the purpose of efficiently draining any house or land under this section, the Commissioners may require any court-yard, alley, or passage between two or more houses, to be paved with such materials and in such manner as may be approved of by them, and may require such paving to be kept in proper repair. They may also require the level of any such court-yard, alley or passage to be raised if necessary, for the efficient drainage thereof.

Commissioners may construct certain portions of drains under public drains and streets.

278. The Commissioners themselves may construct and lay down such portions of the drains mentioned in the last preceding section and sections two hundred and eighty-two and two hundred and eighty-three, as may be carried through or under any public drain, aqueduct, or street, and the expenses thereby incurred shall be paid by the owner.

Sewage and rain-water drains to be distinct.

279. Whenever it is provided in this Chapter that steps shall or may be taken for the effectual drainage of any premises, it shall be competent to the Commissioners to require that there shall be one drain for sewage and polluted water, and another and an entirely distinct drain for rain-water or unpolluted subsoil water or for both, each emptying into separate municipal drains or other suitable places.

Underground drains connected with the sewers to be made under a license.

280. It shall not be lawful for any person to make any underground drains in connection with the public sewers unless he shall hold a license from the Commissioners under such rules and regulations as the Commissioners may, from time to time, lay down, and which shall be printed on the back of the license.

Any person holding such license, who shall infringe or break any such rule or regulation, shall be liable to have his license cancelled, and he or any person making any underground drain in connection with the public sewers without a license shall be liable to a fine not exceeding Rs. 20.

Penalty.

Supervision of certain works.

281. The Commissioners may cause the work of laying underground drains to be supervised while in progress, and from time to time during their execution may order such reasonable alterations therein, additions thereto, and abandonment of part or parts thereof, as may to the Commissioners appear, on the fuller knowledge afforded by the opening of the ground, requisite to secure the complete and satisfactory execution of such works as aforesaid.

Group or block of houses may be drained by a combined operation.

282. If it appear to the Commissioners that a group or block of houses may be drained more economically or advantageously in combination than separately, and a sewer of sufficient size already exists, or is about to be constructed, within one hundred feet of any part of such group or block of houses, the Commissioners may cause such group or block of houses to be drained by a combined operation;

and the expenses thereby incurred shall be paid by the owners of such houses, or, in the case of bustee land, by the owners of the land in such proportions as shall to the Commissioners seem fit.

Not less than fifteen days before any work under this section is commenced, the Commissioners shall give notice to the owners of all the land or houses to be drained of the nature of the proposed work and an estimate of the expenses about to be incurred in respect thereof and the proportion payable by each owner.

Commissioners may require the owner of a drain to allow another to use it.

283. Whenever a drain belonging to one or more persons has been laid in any street or passage common to more than one house, and it is deemed desirable to drain any other premises into such drain, the Commissioners may require the owners of such drain to allow a connection therewith to be made on such terms as may seem to them equitable, and the owner or owners of the drain shall be entitled to refuse to allow the connection to be made until the terms prescribed have been accepted and any order for payment made by the Commissioners has been complied with.

Sewers in streets to be covered with traps.

284. All underground drains in streets (public or otherwise) shall be provided by the Commissioners or by the persons to whom they severally belong with proper traps or other coverings and means of ventilation, so as to prevent stench.

If the owner of any private sewer or underground drain shall, for ten days after notice given to him by the Commissioners, neglect or delay to provide proper traps or coverings and means of ventilation as aforesaid, the Commissioners may forthwith provide and apply the same;

and the expenses thereby incurred shall be paid by the owner.

Power of Commissioners to erect or affix to building, pipes for ventilation of sewers.

285. The Commissioners may erect on, or fix to, any house or wall such properly jointed pipes as they may deem necessary for the proper ventilation of the sewers belonging to them, and such pipes shall be carried to a height of not less than six feet above the highest part of the highest adjacent house, and erected so as not to occasion any nuisance or inconvenience to any house in the neighbourhood.

Branch drains, privies, cess-pools, stables, and cow-houses to be under the control of the Commissioners, and to be kept in good order by owners.

286. All branch drains, as well within as without the house or land to which they belong, and all privies, cess-pools, stables and cow-houses in Calcutta, shall be under the survey and control of the Commissioners as regards their site, material, dimensions and construction, and shall be altered, supplied with water, connected with a sewer, paved, repaired, kept in proper order, stopped up, or demolished, at the costs and charges

of the owner of the house or land to which the same belong, or for the use of which they are constructed or continued;

and if the owner of any house or land to which any such drain, privy, cess-pool, stable or cow-house belongs, neglect, during eight days after notice in writing, to execute the work in the manner required by the Commissioners, the Commissioners may cause the work to be executed in respect of such drain, privy, cess-pool, stable or cow-house;

and the expenses thereby incurred shall be paid by the owner.

Obstructions in private drains to be removed.

287. If any private drain is obstructed, the occupier of the premises in which such drain is situate shall, within six hours after receiving notice to do so from the Commissioners, cause the obstruction to be removed, and if he make default, the Commissioners may cause the necessary work to be done and the expenses thereby incurred shall be recoverable from such occupier.

Commissioners may alter any branch drain, privy, cess-pool, stable or cow-house made contrary to their order.

288. If any branch drain, privy, cess-pool, stable or cow-house be constructed contrary to the directions, bye-laws or regulations of the Commissioners, or contrary to the provisions of this Act, or if any person, without the consent of the Commissioners, constructs, rebuilds or unstops any branch drain, privy, or cess-pool which has been ordered by them to be demolished or stopped up, or not to be made, or constructs or rebuilds any stable or cow-house which has been ordered by them to be demolished or not to be built, the Commissioners may cause such amendment or alteration to be made in any such branch drain, privy, cess-pool, stable or cow-house as they think fit;

and the expenses thereby incurred shall be paid by the person by whom such branch drain, privy, cess-pool, stable or cow-house was improperly constructed, rebuilt, or otherwise dealt with.

Penalty for persons making or altering drain, contrary to the orders of the Commissioners.

289. Whoever constructs any drain, privy, cess-pool, stable or cow-house after the commencement of this Act contrary to the directions, bye-laws or regulations of the Commissioners, or contrary to the provisions of this Act, or, whoever without the consent of the Commissioners, constructs, rebuilds or unstops any drain, privy, or cess-pool which has been ordered by them not to be made or to be demolished or to be stopped up, shall be liable to a fine not exceeding Rs. 50.

363. Any Magistrate, on the application of the Commissioners setting forth that there is just cause to believe that any article, which has been rendered or has become noxious or unfit for use as food or drink for man, is in the possession of any person for the purpose of being sold, offered, or exposed for sale, may grant a warrant to enter upon the premises of such person and to search for and seize such article;

and if it appear to the Magistrate that any such article, whether discovered with or without a warrant under this section, is noxious or unfit for such use, he shall order it to be forfeited and disposed of in such way as to him shall seem proper.

Prohibition of the sale of articles of food not of the proper nature, substance or quality.

364. No person shall sell to the prejudice of the purchaser any article of food which is not of the nature, substance or quality of the article demanded by such purchaser under a penalty not exceeding Rs. 100 for the first offence, and not exceeding Rs. 500 for any offence after a conviction for a first offence: Provided that an offence shall not be deemed to be committed under this section in the following cases, that is to say—

(1) Where any matter or ingredient not injurious to health has been added to the food, because the same is required for the production or preparation thereof as an article of commerce, in a state fit for carriage or consumption, and not fraudulently to increase the bulk, weight or measure of the food or conceal the inferior quality thereof.

(2) Where the food is unavoidably mixed with some extraneous matter in the process of collection or preparation.

The term "food" shall include every article used for food or drink by man other than drugs or water.

In any prosecution under this section it shall be no defence to allege that the vendor was ignorant of the nature, substance or quality of the article sold by him, or that the purchaser, having bought only for analysis, was not prejudiced by the sale.

No proceedings to be had without leave of the Commissioners.

Meat subjected to the process of blowing shall be deemed unfit for food.

Power to destroy unwholesome articles.

366. Upon the seizure of any article of food under the last preceding section, the same may, if the owner or the person in whose possession the same is found consents, be forthwith destroyed or so disposed of as to prevent it being used as food; but if the owner or the person in whose possession the same is found do not consent, then, if it appear to the Chairman, Vice-Chairman, Health Officer, or any Commissioner to whom the same may be brought that the same is unfit for food, he shall order the same to be destroyed or so disposed of as to prevent it being used as food. Nothing in this section contained shall be construed to apply to the sale of drugs used by practitioners of indigenous medicines, when such drugs are not sold in a shop or place where medicines are dispensed upon prescription.

Inspection of drugs.

369. The Commissioners, may, at all reasonable times, enter into and inspect any place kept for the sale of drugs, or in which drugs are sold, and if they have reason to suspect that any drug in the said place is adulterated, or by reason of age, or the effect of climate, has become inert or unwholesome, or has otherwise become deteriorated in such a manner as to lessen its efficacy, to change its operation, or to render it noxious, may remove the same on giving a receipt specifying the nature and quantity of the drug removed and its approximate value; and if it appear to any Magistrate that the said drug removed as aforesaid is adulterated, or has become inert, unwholesome, or deteriorated as aforesaid, he may order the same to be destroyed, or to be so disposed of as to him may seem fit. Commissioners to issue certificates prohibiting the use of improper burial and burning places.

381. If the Commissioners in meeting, with the sanction of the Local Government, shall certify, in manner hereinafter provided, that any burial ground or place of burial, or that any place used for the burning of corpses, is in such a state as to be dangerous to the health of persons living in the neighbourhood thereof;

or that any church or other place of public worship is dangerous to the health of persons frequenting the same, by reason of the state of the vaults or graves within the walls of, or underneath, the same, or in any churchyard or burial ground adjacent thereto;

and shall also certify that a fitting place for interment or burning (as the case may be) exists within a convenient distance and is available, no person shall, after a time (not less than two months) to be named in such certificate, bury or burn, or permit or suffer to be buried or burned, any corpse in, upon, within, or under the ground, church, or place of worship to which the certificate relates, except in so far as may be allowed by such certificate.

Notwithstanding any certificate under section three hundred and eighty-one where, by usage or otherwise, there is any right of interment in or under any church or chapel, or in any vault of such church or chapel, or of any churchyard, burial ground, or place of burial affected by such certificate, or where any exclusive right of interment, or any exclusive right to ground for the purpose of interment, has been purchased or acquired, the Commissioners may, if, on application made to them, they are satisfied that the exercise of such right or the use of such ground will not be injurious to health, grant a license for such exercise or use during such time and subject to such conditions and restrictions as they may think fit.

Power to license fuel shops at burning grounds.

384. The Commissioners shall, from time to time, grant licenses to persons applying for such, for the sale at burning grounds, of fuel and other articles used for the cremation of dead bodies, and shall in meeting prescribe a scale of rates for the sale of such articles; and any person not so licensed who shall, within three hundred yards of any such burning ground, sell or offer for sale any such fuel or other articles, shall be liable to a fine not exceeding Rs. 50.

The Commissioners may, on good and sufficient cause, revoke or withdraw any such license they may think fit, and any person to whom any such license is granted, who shall charge for the sale of any such article any higher rate than the rate fixed for such article in such scale, shall, at the discretion of the Commissioners, be liable to have his license cancelled, and shall also be liable to a fine not exceeding Rs. 10.

The Commissioners shall not be bound to grant a fresh license to any person whose license may have been revoked, withdrawn, or cancelled under the provisions of this section.

PART IX.—*Of Nuisances.*

Nuisances which may be dealt with summarily.

385. The following nuisances shall be deemed to be nuisances liable to be dealt with summarily in manner provided by this Chapter:—

(*a*) Any premises in such a state as to be a nuisance or injurious to health:

(*b*) Any tank, well, ditch, gutter, watercourse, privy, urinal, cesspool, or drain so foul or in such a state as to be a nuisance or injurious to health:

(*c*) Any animal so kept as to be a nuisance or injurious to health:

(*d*) Any accumulation or deposit which is a nuisance or injurious to health:

(*e*) Any house or part of a house so overcrowded as to be dangerous or injurious to the health of the inmates:

(*f*) Any factory, workshop or workplace not kept in a cleanly state, or not ventilated in such a manner as to render harmless, as far as practicable, any gases, vapours, dust or other impurities generated in the course of the work carried on therein that are a nuisance or injurious to health, or so overcrowded while work is carried on as to be dangerous or injurious to the health of those employed therein:

(*g*) Any fireplace or furnace which does not, as far as practicable, consume the smoke arising from the combustible used therein, and which is used for working engines by steam, or in any mill, factory, dye-house, brewery, bake-house, or gas-work, or in any manufacturing or trade process whatsoever, and any chimney (not being the chimney of a private dwelling-house) sending forth black smoke in such quantity as to be a nuisance:

Provided—

1*st.*—That a penalty shall not be imposed on any person in respect of any accumulation or deposit necessary for the effectual carrying on of any business or manufacture, if it be proved to the satisfaction of the Magistrate that the accumulation or deposit has not been kept longer than is necessary for the purposes of the business or manufacture, and that the best available means have been taken for preventing injury thereby to the public health.

2*nd.*—That where a person is summoned before any Magistrate in respect of a nuisance arising from a fireplace or furnace which does not consume the smoke arising from the combustible used in such fireplace or furnace, the Magistrate shall hold that no nuisance is created within the meaning of this Act and dismiss the complaint, if he is satisfied that such fire-place or furnace was constructed before the passing of this Act, and in such manner as to consume as far as practicable, having regard to the nature of the manufacture or trade, all smoke arising therefrom, and that such fireplace or furnace has been carefully attended to by the person having the charge thereof.

Information of nuisances.

386. Information of any nuisance, referred to in the last preceding section, existing in Calcutta, may be given to the Commissioners by any person aggrieved thereby or by any officer of the Commissioners.

Commissioners to serve a notice in case of nuisance.

387. On the receipt of any information respecting the existence of a nuisance, the Commissioners shall, if satisfied of the existence of a nuisance, serve a notice on the person by whose act, default, or sufferance the nuisance arises or continues, or if such person cannot be found on the owner or occupier of the premises on which the nuisance arises, requiring him to abate the same within a time to be specified in the notice, and to execute such works and do such things as may be necessary for that purpose: Provided—

1*st.*—That where the nuisance arises from the want or defective construction of any structural convenience, or where there is no occupier of the premises, notice under this section shall be served on the owner:

2*nd.*—That where the person causing the nuisance cannot be found, and it is clear that the nuisance does not arise or continue by the act, default or sufferance of the owner or occupier of the premises, the Commissioners may themselves abate the same without further order.

Where notice insufficient, Commissioners may prefer a complaint.

388. If the person on whom a notice to abate a nuisance has been served makes default in complying with any of the requisitions thereof within the time specified, or if the nuisance, although abated since the service of the notice, is, in the opinion of the Commissioners, likely to recur on the same premises, the Commissioners may cause a complaint relating to such nuisance to be made before a Magistrate, and such Magistrate shall thereupon issue a summons requiring the person on whom the notice was served to appear before him.

Magistrate's order.

389. If the Magistrate is satisfied that the alleged nuisance exists, or that, although abated, it is likely to recur on the same premises, the Magistrate shall make an order on such person requiring him to comply with all or any of the requisitions of the notice or otherwise to abate the nuisance within a time specified in the order, and to do any works necessary for that purpose; or an order prohibiting the recurrence of the nuisance and directing the execution of any works necessary to prevent the recurrence; or an order both requiring abatement and prohibiting the recurrence of the nuisance.

The Magistrate may, by his order, impose a penalty not exceeding Rs. 50 on the person on whom the order is made.

Order when a building is unfit for habitation.

390. Where the nuisance proved to exist is such as to render a house or building, in the judgment of the Magistrate, unfit for

human habitation, the Magistrate may prohibit the using thereof for that purpose, until, in his judgment, the house or building is rendered fit for that purpose; and, on the Magistrate being satisfied that it has been rendered fit for that purpose, the Magistrate may determine his previous order by another declaring the house or building habitable, and from the date thereof such house or building may be let or inhabited.

Penalties for disobedience of orders.

391. Any person not obeying an order to comply with the requisition of the Commissioners or otherwise to abate the nuisance shall, if he fails to satisfy the Magistrate that he has used all due diligence to carry out such order, be liable to a penalty not exceeding Rs. 5 per diem during his default; and any person knowingly and wilfully acting contrary to an order of prohibition shall be liable to a penalty not exceeding Rs. 10 per diem during such contrary action; moreover, the Commissioners may enter the premises to which any order relates, and abate the nuisance, and do whatever may be necessary in execution of such order, and recover the expenses incurred by them from the person on whom the order is made.

This Part, as regards nuisances, not to affect rights under other law

392. The provisions of this Part relating to nuisances shall be deemed to be in addition to, and not to abridge or affect any right, remedy or proceeding under any other law for the time being in force:

Provided that no person shall be punished for the same offence both under the provisions of this Part and under any other law.

All the debentures aforesaid issued under the authority of this Act shall be in the form contained in the twelfth Schedule, or in such other form as the Commissioners in meeting, with the previous sanction of the Governor-General in Council, may determine, and shall be transferable by endorsement, and the right to sue in respect of the moneys secured by any of such debentures shall be vested in the holders thereof for the time being without any preference by reason of some of such debentures being prior in date to others.

Payment of moneys due on old debentures by issue of fresh debentures.

406. The Commissioners in meeting may at any time, with the sanction of the Governor-General in Council, raise, by the issue of new debentures, any money that may be required to pay any moneys for the time being due on any debentures issued under the authority of this Act, or of any enactment hereby expressly repealed.

Establishment of reserve funds.

407. The Commissioners shall set aside quarterly out of their income, before making any disbursements in respect thereof,

such sum as may be required for the payment of the interest and instalments payable to the reserve funds which may fall due within the quarter on any debentures issued under the authority of this Act, or of any enactment hereby expressly repealed.

The instalments payable to the reserve funds shall be at the rate of one per cent. per annum on the aggregate unpaid sum borrowed by the Commissioners after the first day of April 1881, and at the rate of two per cent. per

annum on the unpaid balance of all debenture loans contracted before that date.

Surplus to be invested.

408. The Commissioners shall apply the reserve set aside under the last preceding section so far as it is required or so far as it extends to repay such debenture loans issued by them as shall fall due in the course of the year and shall invest the surplus (if any) of the said sum, after repayment as aforesaid, or in case there has not been any amount due or paid in respect of such loans or debentures during the year, then they shall invest the whole of the said sum in Government securities, or in any securities guaranteed by Government, or in Calcutta municipal debentures, in the names of the Secretary to the Government of Bengal in the Financial Department and the Accountant-General of Bengal respectively for the time being, to be by them held as Trustees for the purpose of repaying at due date from time to time the several loans contracted or debentures issued by the Commissioners. And all moneys and securities now held by any Trustees for the Commissioners, for the purpose of paying off any sums borrowed by them, not being sums borrowed from the Secretary of State for India in Council, shall be held by them upon the trusts hereinbefore declared.

All interest accruing due to the Trustees shall also from time to time be invested by them in like manner and held upon the like trust:

Provided always that the accounts of the fund formed by the payments made at the rate of two per cent. per annum and the fund formed by the payments made at the rate of one per cent. per annum shall be kept separate and distinct, and each reserve fund shall only be applied to paying off the debentures on account of which the instalments are payable.

Commissioners may consolidate their loans.

411. Nothing in this Chapter shall be construed to prevent the Commissioners in meeting from inviting tenders at any time for a new loan to be called the "Municipal Consolidated Loan" on such terms as may be approved by the Governor-General in Council, and also inviting holders of municipal debentures to exchange their debentures for such Municipal Consolidated Loan stock at such rates as the Commissioners may consider fair and the Governor-General in Council may approve. The scrip of such stock shall be in such form as the Commissioners in meeting, with the previous sanction of the Governor-General in Council, may prescribe. The Commissioners shall repay such Consolidated Loan by annual payments at a rate of not less than one-sixtieth of the unpaid balance in each year in lieu of contributing to a reserve fund under section four hundred and seven, and the stock to be paid off shall be purchased in the open market; and the provisions of section four hundred and seven shall apply to the sums necessary to make such annual payment:

If no application is made by that date he will be liable to take out a license as prescribed in clause (*a*).

The Commissioners shall pass orders on such application, and the license shall be taken out in accordance with such orders, unless appealed against under clause (*e*).

(*c*)—If the Commissioners consider that any person who has not taken out a license in the preceding year ought to take out a license, or that any person who has taken out a license for the preceding year but has not taken out a license for the current year ought to take out a license in a higher class or more than one license, they may serve him with a notice directing him to take out a license for the current year in such class as may seem to them proper.

(*d*)—If the Commissioners consider that any person who has taken out a license for the current year ought to have taken out a license in a higher class, they may serve him with a notice directing him to take out a license in such higher class the following year, and such person shall thereupon, unless such order is modified, be bound to take out a license in such higher class, clause (*a*) notwithstanding.

If a person is summoned for not taking out a license, and service of notice under clauses (*c*) and (*d*) is not proved, it shall be incumbent on the Commissioners to prove that the person summoned is liable to take out a license as well as the class under which he is liable.

(*e*)—Any person dissatisfied with the orders of the Commissioners under clause (*b*) or on whom a notice is served under clause (*c*) or clause (*d*) may appeal against the orders contained in it—

No appeal shall lie unless the amount of the license as assessed has been deposited with the Commissioners.

The Commissioners may, if they think fit, extend the period of an appeal under clause (1).

(*g*)—The order of the Bench or Court, or, if no appeal is made, the order contained in the notice, shall be final.

(9). The Commissioners may at any time grant a license for any previous year for which no license has been taken out on payment of the amount of such license, but the production of such license shall not afford a valid defence if the licensee is prosecuted for failing to take out a license within the time required by this Act.

FLOODS IN THE 24-PERGUNNAHS AND NUDDEA DISTRICTS.

THE following reports from the Commissioner of the Presidency Division with their enclosures are published for general information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secy. to the Govt. of Bengal,

Dated the 6th October 1888.

No. 47MG, dated Calcutta, the 26th September 1888.

From—A. SMITH, ESQ., Commissioner of the Presidency Division,

To—The Secretary to the Government of Bengal, Revenue Department.

I HAVE the honour to submit herewith a memorial presented to His Honour the Lieutenant-Governor by some Catholic Missionaries, regarding the distressed condition of the people in the southern portion of the 24-Pergunnahs owing to the recent floods. A copy of letter No. 551G, dated the 19th instant, from the Collector of the 24-Pergunnahs, reporting on the above memorial, is also submitted herewith for the information of the Government.

2. I agree with the Collector in thinking that no aid is now required, and, from knowledge of the resources of the locality concerned, I do not think it likely any will be required when the floods subside.

3. The further reports promised, and the result of the examination with the Executive Engineer of the embankment, with a view to the provision of sluices where needed, will be submitted when received.

No. 551G, dated Alipore, the 19th September 1888.

From—C. W. BOLTON, Esq., Officiating Collector of the 24-Pergunnahs,
To—The Commissioner of the Presidency Division.

I HAVE the honour to submit the following report on the memorial* regarding the recent floods in the southern portion of this district, submitted to His Honour the Lieutenant-Governor by certain Roman Catholic Missionaries, which was forwarded to me with your memorandum No. 14Ct.M.G., dated the 8th instant.

* Herewith returned.

2. I had intended, before the receipt of the memorial, to travel to Diamond Harbour by road and return by train, in order to obtain a general idea of the extent of damage done by the floods, and had not started earlier because it would have been useless to do so while the crops were completely submerged. The actual damage done could only be ascertained after the subsidence of the water, when the proportion of the crops which had survived the long immersion could be seen. I accordingly proceeded to Diamond Harbour by road on the 11th instant. The road passes through low and comparatively high country, and a fair indication of the effects of the floods in the Diamond Harbour sub-division may be obtained from the state of tracts traversed. As far as Bistupur, 12 miles from Alipore, I found that the crops had suffered to some extent, but not very badly, while in places they were looking extremely well. At Bistupur itself great damage had been done, and I was informed that some villages to the north-east were equally bad. Between Bistupur and Rajarhat some villages had lost the greater part of their crops, while others had suffered less. From Rajarhat to Sarisha, however, the destruction appeared general, the whole country being under water; but a small portion of the crops might even here survive on further subsidence of the water. From Sarisha to Diamond Harbour the crops looked well, though backward, the country being high on account of its proximity to the river. In the neighbourhood of Diamond Harbour itself there was a very large expanse of green crops. On my journey back by rail, I found the country under water from about two miles out of Diamond Harbour to Mograhat. North of Mograhat for four or five miles, there was much water in parts, but after that the country presented the ordinary aspect at this season of the year, and the crops looked well. The portion of the sub-division which has suffered most from the floods is, therefore, the tract lying between two parallel lines from Rajarhat to Sarisha, running in a direction between east and south-east as far as the Sunderbuns. What the precise extent of the destruction in this tract has been it is still impossible to say, but I fear that hardly one-fourth of the crop has escaped. Until the water has subsided another foot or more no correct estimate of the loss can be formed, and I propose accordingly to have another local enquiry made at the end of this month, and shall then submit a further report. After that, again, another enquiry will be made when the rains have completely ceased, in order to estimate finally the probable outturn of the crops. Although outside the above tract there are excellent crops, I was struck by the backward condition of the plants, and I fear that unless the rains are later than usual, even these crops will not yield a good outturn, owing to the delay in the breaking of the rains and the short fall for some weeks after the plants were transplanted late, and they are not as far advanced as usual at this time of the year. Their backwardness has no doubt also rendered them less able to bear the long immersion following the heavy rain which brought about the floods. Transplantation could also not be completed in many villages until after the heavy rain, and it may be even now going on in a few places. Good rain in the last week of this month, and even in the first week of October, is thus needed to ensure the healthy growth of these crops until the ear begins to form. I was glad to find in many of the villages submerged that there were still seedlings available, and that they were being transplanted wherever practicable. The extent of land thus cultivated will, however, be very small.

3. For enquiry in connection with the memorial, I deputed the Sudder Sub-Deputy Collector to visit the villages in the Sudder sub-division, and the Diamond Harbour Sub-Deputy Collector to visit those in that sub-division. The former inspected the crops of 35 villages which lie north-east of Bistupur between Amgachi and Bonhughly, and he estimates that only four annas of the *aman* crop has survived, while the *aus* crops, owing to damage by the floods, will not yield more than a three-anna outturn. I am inclined to think that this estimate for both crops is too low. The villages visited by the Diamond Harbour Sub-Deputy Collector lie immediately to the south of Mograhat, embracing an area of about six miles in length by four in breadth. The whole of this area he found under water, the crops being entirely submerged, except about 400 bighas in one village. The crops are, he fears, entirely lost in this tract. After every allowance for possible exaggeration and for crops which may yet appear alive above the water, it is quite clear that the damage done in the villages visited by this officer has been very extensive, and that the people will be very badly off for some time to come. Taking the sub-division as a whole, however, the Sub-divisional Officer thinks, and I do not believe his estimate to be too sanguine, that there will be a six-anna

crop. In other parts of the district, notwithstanding some destruction here and there, there will, I think, be a fairly good crop. I do not therefore anticipate any want of food, although prices may rise. As regards the villages where the greatest damage has been done, I see no necessity at present for any relief measure. The destruction of the *aman* crop will be felt by the people later, when they would in the ordinary course have reaped the produce. In any case they would not at this season have been gathering in a fresh stock of food. The missionaries state that they are actually suffering because, having no crop in prospect, they cannot procure advances from the money and grain-lenders. This is doubtless to some extent true; but these advances cannot be long withheld from them, and friends and relations will give temporary assistance in grain or money to those who require it. In any case it is impossible at this season to undertake relief by road works, as the state of the country will not admit of the construction of roads, and cash advances are altogether undesirable as a form of relief. As regards the fishermen to whom the missionaries refer, it should be stated that they have resumed their occupation and are likely to gain rather than lose from the accumulation of water.

4. On full consideration, I think that no official action is at present required for the assistance of the people in the flooded tract, and I am hopeful that none will be required later. Equally destructive floods have occurred elsewhere from time to time without relief being undertaken by the State, and it is reasonable to expect that in this case also the people, though suffering a good deal, will pass through the calamity without the need of relief. It is satisfactory to note that in almost every petition which has been presented to me in connection with these floods, the only definite request made is that the zemindars may be desired not to press for rents, and in Government estates that the collection of rents may be kept in abeyance. The people themselves apparently do not anticipate that they will be in want of food. It is impossible to suggest officially to the zemindars that they should abstain from the collection of rents, unless the Government is prepared to suspend at the same time the collection of the land revenue—a measure which I could not advocate in this case. I am, moreover, disposed to think that the zemindars will not, under the circumstances, be wanting in consideration to their tenants. In the Government estates leniency will be shown in the collections according to the condition of each tenant, and it may be necessary later to recommend remissions.

5. A further report as to the state of the inundated tract will be submitted to you after the end of this month, and a fuller report after the 15th October. The severity of these floods and their long continuance are attributed by the people to the blocking up of the drainage by roads, embankments and cross dams across certain natural outlets, and there appears to be much truth in this view. The insertion of sluice gates in suitable places would, no doubt, be a great boon to the country: but the zemindars and their tenants have hitherto shown no readiness to provide the funds, and the works have been deferred from year to year. If still in charge of the district during the next cold weather, I propose visiting the whole line of embankments with Executive Engineer, selecting sites for sluice gates, and making a strong effort to get the landlords and ryots of all villages to be benefitted to subscribe. If the sites of the sluice gates be selected so as to serve the largest number of villages, the proportionate cost to each village would be reduced, and the probability of obtaining the co-operation of the landlords and ryots would be greater.

To the Hon'ble Sir Steuart Colvin Bayley, Lieutenant-Governor of Bengal.

Your Honour—

We the undersigned Catholic Chaplains residing in the villages situated south of Calcutta, beg to solicit Your Honour's kind consideration and the assistance of Government on behalf of the distressed population of the whole district in which we labour, in consequence of the late storm and the complete ruin of their crops.

We respectfully represent that, in more than forty villages over which our ministrations extend, the poor inhabitants, Christians as well as Hindoos, are left without any hope of a harvest this year, and owing to the abundance of water cannot have recourse to fishing which is their means of subsistence at this time of the year.

We have liberally spent what scanty means we had for the relief of their misery; but the magnitude of the calamity forces us to apply to Government for aid.

What makes the situation of our poor villagers quite helpless is that they cannot, as in other years, live by small loans of paddy which they borrow on the security of the coming harvest.

Living, as we do, for a great number of years in the very midst of these poor people, we think that we are best able to point out their real wants and to see that the assistance reaches the truly needy. This is what prompted us to submit the present memorial, and to entreat Your Honour to give it your favourable consideration.

With every respect, we beg to remain,

Your Honour's most obedient servants,

Julian Banckaert, S.J.
Albert Maene, S.J.
J. Dejains, S.J.
Fred. Gregory, S.J.

Memo. by—A. SMITH, Esq., Commissioner of the Presidency Division.

COPY submitted to the Secretary to the Government of Bengal, Revenue Department, for information.

2. It will be seen that the injury to crops has been greatest in the Sudder sub-division.

3. The enquiries I have made satisfy me that there neither is any severe distress, nor is there any likely. The discomfort will pass away with the subsidence of the water, which has already fallen.

4. The flood of 1885 followed on two years of drought, and found the cultivators in some difficulty at the commencement. It was followed by inordinately good cold-weather crops, and the two intermediate years have been years of good harvest. The ryots are thus well set up, and meet the present calamity with the advantage thus given.

5. It was feared in 1885 that sickness might attend the drying up of the floods, but none came, and it is to be hoped that none may come this year.

6. Some sickness then appeared among cattle, owing, it was believed, to the use of the fresh vegetation as food. If this should occur, some help in the shape of veterinary doctors may be needed to meet it. Action, however, may wait till it is seen if the aid is needed or not.

7. I do not anticipate that any other aid will be needed. One result of the floods is to increase the demand for labour. Road damages have to be repaired. Cold-weather crops, especially wheat, will be sown on a larger scale than usual, and the larger area needs more labour. Flood injuries to the houses of the well-to-do have also to be put right. All this affords labour to those who need it. The loans under the Agricultural Loans Act, for which budget provision exists, will permit of aid where needed to the cultivators themselves, and I agree with the Collector in thinking it unlikely the whole sum available will be wanted.

To—The Commissioner of the Presidency Division.

I HAVE the honour to submit a statement showing the estimated outturn of the *aus* and *amun* rice crops in this district in the present year. The holding off of the rains till nearly the end of June, and excessive rainfall in July and August, have been unfavourable to the rice crops, and a very large quantity of the *aus* on the *chur* lands has been lost.

2. The floods of the Bhgairuthi have been unusually high in the Sudder sub-division (thannas Kaligunge and Nakasipara), and the spills of the Jellinghee and Churni were also more severe than usual in the Chupra and Hanskhali thannas. There has been much discomfort in the riparian villages, where flood-water has risen higher than in ordinary years on the village sites.

3. I do not think that there is any severe distress, nor do I anticipate that there will be. One or two applications only for loans under the Agricultural Loans Act have been presented to me, which are now being enquired into. I have an allotment of Rs. 12,000 for advances under the Agricultural Loans Act, and I do not expect that I shall have to spend nearly the whole allotment. The Sudder canoongoe is enquiring as to the necessity of making advances in thannas Nakashipara and Kaligunge in the Sudder sub-division, which appear to have suffered most from the inundation.

4. I have also asked the Sudder Local Board to begin road works in the thannas last named, as early as possible, in order that the labouring classes may be able to get work before the harvests.

INUNDATIONS OF THE DAMUDAR AND ADJAI RIVERS IN THE BURDWAN DISTRICT.

THE following report from the Commissioner of Burdwan with its enclosures is published for general information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,
Secy. to the Govt. of Bengal.

Dated 9th October 1888.

No. 39RG, dated Burdwan, the 28th September 1888.

From—E. V. WESTMACOTT, Esq., Offg. Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Revenue Department.

IN continuation of my No. 33RG of the 21st instant, I have the honour to submit herewith copy of a letter No. 1320G of the 27th instant, with its enclosures, from the Collector of Burdwan, reporting on the effects of the recent floods in his district by the overflow of the rivers Adjai and Damudar. I am satisfied that Mr. Oldham, with whom I am in daily communication, has correctly estimated the amount of damage done. I make no remark on the engineering questions raised, which must be settled by professional engineers.

No. 1320G, dated Burdwan Collectorate, the 27th September 1888.

From—W. B. OLDHAM, Esq., Collector of Burdwan,
To—The Commissioner of the Burdwan Division.

IN continuation of my No. 1240G, dated the 18th instant, I have the honour to furnish the final report on the effects of the floods of the last week of August 1888 in this district The total area, in which crops were lost or very seriously damaged by them, is 50 square miles.

I.—THE ADJAI AND BHAGIRUTHI FLOODS, CUTWA SUB-DIVISION.

2. In my previous report, the area of total loss of, or very serious damage to, crops from these floods was estimated, on the details therein given, at 90 square miles. From the more accurate information now obtained, and a rough map furnished by the Sub-divisional Officer of Cutwa, this estimate must be reduced to 30 square miles. I have eliminated the loss from the Bhagiruthi floods, which were calculated to have affected an area of 30 square miles altogether. Though the lands were entirely submerged, and the rice crops on them entirely destroyed, the lands themselves are all *chur*, on which rice is cultivated to provide for the event of the rivers not rising, but by far its most remunerative crops are wheat and other winter and spring crops, and these are most remunerative after a flood which has drowned the rice. It would be misleading, therefore, to reckon the recent loss of the rice on these tracts as serious damage, even if it is damage at all. The Sub-divisional Officer's letter No. 448G, dated 22nd instant, a copy of which I beg to annex, shows this very clearly. The great duration of the recent floods, while improving the silt deposits, very much enhanced the immediate inconvenience, and the damage to huts ordinarily done by a flood with prolonged wet weather; and in view of these facts, I have written for the Buxar wheat, which the Sub-divisional Officer wishes to distribute, and will entertain the applications for the advances under the Loans Act to which he refers. The only special reason for considering the latter is that rent collections must stop till the winter crops are harvested, when they will be paid with interest. The only request the people themselves have made to me is to induce the talukdar to stay his ordinary collections till they get in their *rabi* crops when, they say, they will pay him in full.

3. My estimate of the area of total loss or serious damage from the Adjai floods was 60 square miles. But from the Sub-divisional Officer's map, I find that, instead of covering a continuous belt of country one-and-a-half miles broad on each side of the river throughout its course in the sub-division, as I first gathered from his diaries, the belt which they did cover is interrupted. Along the right bank it only runs for 10 miles in the extreme west of the sub-division. This was from the breach in the zemindari embankment at Fatehpore and was the scene of the heaviest damage done by the recent floods anywhere in the district. But even this tract includes a large area of waste land. The next belt of seriously damaged country is on the left bank of the Adjai from opposite Cutwa town, where the Bhagiruthi water joined the flood westward for 11 miles to the border of the Beerbhoom district. This tract of country has always been exposed to the combined Adjai and Bhagiruthi spill, and large stretches of it have been covered for years with course grass, and the cultivation in it is not continuous and is always precarious. The area is about 25 square miles, of which fully

10 square miles were waste. The area affected by the Fatehpore breach is 15 square miles, of which five square miles were waste. There was another isolated area on the right bank nearer Cutwa, where the Adjai overflow joined a marsh which overflowed. The area of damage from this was five square miles, though it, too, will be compensated for by the *boro* or April rice cultivation, which will be carried on in the marsh. So far as is known, there has been no extensive sand coating from these floods; and, as already reported, there was no loss of life or cattle. It seems I was mistaken in saying the Adjai flood was the highest ever known. The Assistant Engineer informs me that by his readings near the Bhedia Railway-station (Loop Line, East Indian Railway), the flood of 1885 was three feet higher. At Cutwa town, however, where the mouth of the Adjai, as is usual with these rivers, is choked, the flood was the highest ever known. Its duration, too, was unexampled.

II.—THE DAMUDAR FLOODS.

4. These were by nearly a foot the highest on record. As regards their effect and the communication made by Ambica Churn Gupta to Government regarding them (received under your No. 59RG of 7th September 1888), which I beg herewith to return, I cannot do better than attach a copy (extract) of a letter, which I wrote to Lala Ban Bihary Kapur, who had addressed me on benalf of certain memorialists, and the public concerned, regarding the Jankooli breach, on the subject. Every village in the tract affected was visited either by myself or the Excise Deputy Collector, or the senior Sub-Deputy Collector. In my first report I estimated the area of total loss and serious damage at 30 square miles on the basis of a continuous marginal belt. On visiting this belt myself, I found that it was by no means continuous, and I have reduced my estimate to 20 square miles, of which 15 square miles were affected by the Jankooli breach. Of the damage done by it, a considerable portion has been the work of previous years. No application for relief in any form, even by loans under the two Agriculturists Loans Acts, has been made from this south Damudar tract, either to myself or to my subordinates while on tour, or at my office here. In this connection it is worth mentioning that a private relief fund, held by native managers, gentlemen of good position, which was first raised in 1885 to meet distress following on the inundation of that year, exists in Burdwan. When the disastrous fire at Culna took place in March 1887, this fund contributed liberally to the relief that was then required. I enquired if the managers intended to take any steps with regard to the recent floods, and was informed that there was absolutely no occasion for doing so, as all that the people had suffered from was the fright and temporary inconvenience inseparable from such an occasion.

5. With regard to the Jankooli breach, I promised to bring the state of affairs to the notice of Government, though I believe Government must be acquainted with the subject from enquiries made in the Public Works Department on the many memorials which have been presented direct. The last orders communicated to this office were those conveyed in Colonel McNeil's No. 452J, dated 12th March 1885, and the subsequent orders received with your office No. 422, dated the 18th March 1886, by which the Collector of this district was forbidden to take proceedings for the closure of this breach. The aspect of the country at and from Jankooli is indeed deplorable. As far as the eye can see, it is covered with a barren coating of sand, or a rank growth of *khasia* grass, a product which is almost absolutely useless. The once flourishing village of Jankooli is reduced to nine houses, occupied by labourers, and in all its area there is not, as far as I could see (for I could not distinguish silt from sand in the prevailing slush) a single rood of cultivable land. The taluqdar of it, and the neighbouring village of Kalara, has lost all income from his taluq. This state of things has prevailed ever since the zemindari embankment at Jankooli was first breached in 1881; but what continues to cause alarm, and to keep up the agitation on the subject, is the uncertainty as to how far the volume of sand which each flood carries through this breach will be borne and deposited. A map showing the area destroyed by sand was prepared in 1885, and the Assistant Engineer informs me that another is now under preparation. Of course, in view of the decisions on the subject already given, it is impossible for me to suggest a remedy. I have only to say that, after a careful consideration of the terms and consequences of the agreement entered into in 1805 by Government with the Rajah of Burdwan, I think that any remedy which may be thought practicable should be undertaken by Government and not left to the people themselves.

6. In my letter to Lala Ban Bihari Kapur I have referred to the comparative safety of the country south and west of the Damudar; and though this involves an engineering question, I beg permission to say a few words regarding it. The most casual observer, who walks, as I did, along both banks of the Damudar, cannot fail to be struck with the difference in the country on each side. I believe that a prominent motive for the order which was passed in 1855 for the removal of some of the embankments on the right bank was to afford relief to the left bank embankment. The wisdom of that order, as regards the country on the right bank, has been proved by the sequel, for it has risen to a height which will soon secure it from any inundation. It, therefore, presents a solid barrier to the floods, which flow far above not only the fields, but the habitations on the left bank. The relief which the removal of the right bank embankments has been giving must soon cease to operate, and it is impossible to shut one's eyes to the catastrophe which in each successive rains must threaten the people and houses and crops and important public works—the Eden Canal, if not the Railway—which at present are only guarded by the frail protections of the left embankment.

No. 4486, dated Cutwa, the 22nd September 1888.

From—Baboo Jadunath Bose, Sub-divisional Officer, Cutwa,
To—The Collector of Burdwan.

With reference to your No. 1260G of the 19th instant, asking if any relief is wanted for the people of the inundated tracts, I have the honour to state that up to the moment of writing this report, no emergent cases of distress have come to my notice.

2. I have visited almost the whole of the inundated tract, except the portion south of Ketugram, and it appears to me that time is yet required to develop any distress should it hereafter occur.

3. The damages done by the inundation have not yet been fully ascertained, all the lands not having yet emerged out of the flood, and the information in connection with it being still in course of collection.

4. The only relief asked by the people themselves as yet is in the shape of agricultural loans under the Act, of the aggregate amount of Rs. 647, by about 52 ryots, of chur Sujapore, Mongram, and Narsingpore, in the Sujapore portion of the flooded tract.

5. In Agradipa, which is comparatively lower than the Sujapore tract, the damage appears to be somewhat heavier. The zemindar informed me that he had relieved some urgent cases of distress.

6. Agradipa is peculiarly situated, and the zemindar would suffer by desertion of his ryots if he did not interest himself in protecting them. The people of the Dhaoras or Buna hamlets only asked some relief work to be started after the subsidal of the flood, as they would soon be in want of work. I shall report again should any actual necessity for relief work hereafter arise.

7. There can be no doubt that the inundation will leave a rich silt by which the ryots will largely profit. The silt in the Sujapore chur had, I ascertained, in places been about nine inches or even a foot deep. The lands remained under water for about three weeks; people say the inundation has been of the longest duration known for some years. The layer of silt deposited must therefore have been comparatively thicker. I think we would not be much out of the mark to estimate the average thickness at four to six inches.

8. The ryots were frank enough to tell me that under favourable circumstances they looked forward to a splendid *rabi* crop. The only difficulty in prospect was to tide over the intervening period before the ripening of the crop.

9. The ryots of Sujapore alone told me that the silt of the Bhagirathi was not so good as that of the Adjai and the Babla; that it contained a large mixture of sand, from which some of the lands would suffer. Their statements may only be partially true, but there can be no doubt as to the net result of the inundation in leaving a rich silt behind.

10. A very large extent of land, compared with that of other years, is expected to be sown with *rabi* this year. Time has not arrived in my opinion for asking for any pecuniary relief. I would only ask that fifteen maunds of Buxar wheat seed, in addition to that which I have already asked for, and for which I have promised to pay, may be sent as soon as possible, to be advanced to the most needy of the ryots, if necessary free of cost.

11. I expect more applications for agricultural loans, and I think these loans to the limit of, say, Rs. 1,000 may be advanced. If this recommendation is approved, I beg that a canoongoe may be temporarily deputed to hold the usual preliminary enquiries necessary to the advance of these loans.

Extract paragraph 12 *of a letter, dated the* 22*nd September* 1888, *from the Collector of Burdwan to* Lala Ban Bihari Kapur.

12. The sum is that, though the Damudar floods of the 27th and 28th August last were the highest on record, not a human life nor a single head of cattle has been lost in them; the damage done by them has been strictly local; my Deputy Collector and myself have not yet been able to report a single case requiring charitable relief; except in the damaged area, the crops in the country affected by them is the finest that it has borne for years; and even including the damaged area, the average crop is the finest since 1886. But the chief result to notice is the extent to which the level of the country has been raised, and security against damage in the future been already attained. The immense difference between the height of the country on the right and left banks can be seen by any one who walks, as I did, along both banks for some miles. The cultivators on the left bank already envy the finer crops and superior soil of their brethren on the other side; and though they have been protected hitherto by the embankment from the river, which in flood flows far above their heads, they have only too much reason to envy their opposite neighbours for having at length attained a position independent of any such frail protection. In brief, though the floods of August 1888 have been the highest ever known, and notwithstanding the natural alarm and the great inconvenience which they created at the time of their prevalence, it can be affirmed that there never have been floods in the Damudar, which have caused so little real damage to the country on its right bank. On the other hand, the recent floods have brought inestimable benefits to that country, by renewing the fertility of its soil, and by raising still further its level.

FLOODS IN THE JEHANABAD SUB-DIVISION OF THE HOOGHLY DISTRICT AND IN THE MIDNAPORE DISTRICT.

THE following papers are published for general information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Dated 9th October 1888. *Secy. to the Government of Bengal.*

No. 38R.G., dated Burdwan, the 27th September 1888.

From—E. V. WESTMACOTT, Esq., Offg. Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Revenue Department.

IN continuation of my No. 37R.G. of the 24th instant, I have the honour to submit copy of a letter from the Collector of Hooghly (his No. 1231 of the 21st idem, with its enclosure) reporting on the damage done in the Jehanabad sub-division by the recent flood, and to request that a sum of Rs. 2,000 may be granted to the district, as applied for by the Collector, for gratuitous relief in rebuilding houses and for advances under the Agriculturists Loans Act.

2. I accept Mr. Toynbee's views, and think it satisfactory that a half return may eventually be expected from later crops on the flooded land, and that the present distress is confined to want of accommodation.

3. I have in a demi-official letter authorised Mr. Toynbee to spend, in anticipation of sanction, such money as he may find necessary for immediate needs.

No. 1231, dated Hooghly, the 21st September 1888.

From—G. TOYNBEE, Esq., Collector of Hooghly,
To—The Commissioner of the Burdwan Division.

IN reply to your circular No. 59R.G., dated 7th September 1888, and circular No 61R.G., dated 14th instant, I have the honour to forward herewith copy of a report, No. 266, dated 19th September 1888, from the Sub-divisional Officer of Jehanabad, on the damage done by the floods in his sub-division. Although this officer has only recently joined, he was in Ghatal in 1885-86, and has a good knowledge of the circumstances of the people in the south-west of the district. The Sub-Deputy Collector, who has visited the flooded tracts, has a thorough knowledge of the flooded tracts in which the Government khas mehals lie.

2. I agree with the Sub-divisional Officer in thinking that no scarcity of food is to be apprehended, but that the people have suffered, and will have to suffer, considerable privation before they can rebuild their houses, and that the poorest of them may require some help in this respect. The damage done seems to be very similar in character and extent to that done by the floods of 1885-86, on which occasion the Calcutta Relief Committee gave Rs. 2,000 and Government Rs. 1,000 (excluding Rs. 500 for Howrah), besides an advance of Rs. 2,000 under the Agricultural Loans Act. Of the first sum of Rs. 2,000 all was expended, of the second only Rs. 488, and of the third Rs. 1,900 was expended; in all Rs. 4,388, viz, gratuitously Rs. 2,488 and as loans Rs. 1,900. I would ask therefore that for the present a grant of Rs. 1,000 may be made for gratuitous relief in the way of rebuilding houses and Rs. 1,000 as advances under the Agricultural Loans Act. This will, I believe, meet all urgent cases, and the Sub-Deputy Collector may be employed in its distribution where actually needed.

3. The prevention of similar calamities in future is not a matter on which I can venture to give an opinion, as it is entirely an engineering question. As the west embankment of the Damoodar has been definitely abandoned, I fear there is no remedy. It should be remembered that rubbee crops are grown over the greater part of the flooded area, and that most of the people are connected with Calcutta and are fairly well off in spite of the annual inundations.

No. 266, dated Jehanabad, the 19th September 1888.

From—MOULVI BUZLAL KARIM, Sub-divisional Officer of Jehanabad,
To—The Collector of Hooghly.

REFERRING to your No. 1075 of the 31st ultimo, I have the honour to submit the following report on the floods which overtook the eastern and southern portion of the sub-division in the latter part of August.

2. The incessant downpour of the heavy rains in the latter part of August caused the overflow of the Damoodar, Rupnarain, Darkessur, and of the various khals and rivulets which join with the big rivers. The eastern portion of the sub-division, consisting of the jurisdictions of Singute and Pursurah outposts, was thus overflooded by the Damoodar and its branches, and the southern portion mostly by the overflow of the Rupnarain and partly by the Darkessur. It is a known fact that these portions, especially the eastern part of the sub-division, are more or less affected by the floods every year; but the last floods rose very high twice, and a great portion of the country still lies under water. The Sub-Deputy Collector learnt on enquiry that the highest flood this year rose about 18 inches above those of the previous 20 years, and his opinion is confirmed by the oldest men of the flood-affected tracts.

3. The last floods have done considerable damage to crops. Before the floods, transplantation of paddy was complete in the affected tracts. The young paddy, both *aghani* and *aus*, thus lying for a considerable period under water, was totally destroyed. The enquiry made by the Sub-Deputy Collector shows that the crops of nearly the whole of the jurisdictions of Pursurah and Singute outposts, and of thana Khanacool with the exception of three or four villages, have been totally destroyed.* In some places whence the floods have subsided, retransplantation has been commenced, though the seedlings could be procured with much difficulty and costs; but it is estimated that the area of such lands will not exceed 5 per cent. of the damaged portion. The difficulty of producing seedlings at this portion of the year is a great obstacle to any extensive scale of retransplantation.

* While the crops of thana Jehanabad, excluding Pursurah, have not suffered more than 10 per cent. of total rice-producing area.

4. You are aware perhaps that the Damoodar floods annually leave a large extent of land without paddy crops. The extraordinary rise of water this year has doubled the extent of such damaged area. It is estimated that nearly the half or a little less of the total area (the crops of which have been destroyed this year) will produce *rubbee, boro* and other crops, leaving the other half without any produce. Thus, taking 100 as the unit of the area damaged, I may make the following calculations:—

5	per cent.	retransplanted paddy.
45	„	*rubbee boro* and other crops.
50	„	producing crops.
50	„	net loss.
100		

5. Taking these figures into consideration, and the excellent crops which the jurisdiction of thana Goghat and the unaffected portion of Jehanabad are expected to yield, I do not think there is at present any reasonable cause of apprehension of a famine or scarcity visiting the sub-division on account of the loss of crops caused by the floods.

6. But I must note here that the last floods have not only destroyed the crops, but have rendered many homeless. The mud-walled houses which are made in this part could not stand against the incessant heavy rains and the rise of the floods above the ordinary level, and the result was that a good many houses in the flood-affected tracts especially gave way, thus rendering many almost homeless. It is to this only that a majority of the people now suffer, and their sufferings may continue or even take a serious shape if they could not prepare their necessary sheds before the cold weather sets in. The Sub-Deputy Collector, who visited the flood-affected tract, reports that many poor cultivators, widows and beggars have become entirely destitute of homes or sheds, and they have been very sparingly accommodated in the houses of some neighbours who may have one or two sheds of their own. Of course those who have means have already begun to rebuild some temporary shed, but the poor classes suffer considerably from want of sufficient accommodation. To alleviate the sufferings of those classes who have no means to make new houses within a reasonable time, the Sub-Deputy Collector proposes that some aid may be given to them for the reconstruction of small sheds wherein they may live; and I, agreeing with this view, would request you to obtain a grant of Rs. 2,000 for the relief of those who have no means left to build houses before the severity of the cold weather tells upon their health and constitution.

7. A long list† prepared by the Sub-Deputy Collector shewing the number or percentage of houses destroyed in each village, is herewith annexed.

† Total number of villages ... 147
„ „ of houses .. 2,278.
Besides the above, in 9 villages 60 per cent. of the houses was damaged.

2. The Lieutenant-Governor sanctions the grant of Rs. 1,000 for gratuitous relief, and also the advance of Rs. 1,000 under the Agricultural Loans

IN forwarding herewith copy of a letter, No. 1894 of the 14th instant, from the Collector of Midnapore, reporting on the effect of the recent flood in his district, I have the honour to request that, under the circumstances stated, a further sum of Rs. 2,000 may be allotted to the district of Midnapore for agricultural loans under Act XII of 1884..

No. 1894G, dated Midnapore, the 14th September 1888.

From—C. H. VOWELL, Esq., Collector of Midnapore,
To—The Commissioner of Revenue, Burdwan Division.

SINCE writing my No. 1818G, dated 8th instant, on the effect of the floods in the district, I have received some further reports concerning the state of the villages in the south of the head-quarters and in Contai. A detailed report has not yet come from the Sub-divisional Officer; but from what I can gather, I think there is little doubt we shall have to assist with agricultural loans. Only Rs. 1,000 has been assigned to this district, none of which has yet been spent. I request that, in anticipation of my detailed report, you will give me a further credit of Rs. 2,000.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently equal; and finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

CALCUTTA, *the 9th October* 1888.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 5TH OF OCTOBER 1888.

THE weather conditions of the past week displayed opposite characteristics at the beginning and at the close of the period. For the first two days westerly and even north-westerly winds of light or moderate force prevailed fairly generally throughout the province, any rainfall was slight and scattered, and a moderately settled appearance was the general characteristic of the weather. On the first there were indications of a change; the wind drew into North and North-West in South-West Bengal and Orissa, into North-East in Assam and Northern Bengal, and into South-East in East Bengal, and though the weather remained fine, it became evident that a fresh inrush of monsoon winds preceded by a barometric storm was imminent. By the morning of the 4th the barometric depression had assumed a well-defined shape and position, the centre lying midway between False Point and Diamond Island. The wind circulation throughout the whole of Bengal was influenced by this depression, and was everywhere cyclonic; but owing to the increasing dryness of the atmosphere, due to the larger changes of the weather, the weather remained generally fair, and, except in Orissa, very little rain was experienced.

Pressure—Was unsteady during the week. It was decreasing on the 29th of September, increasing generally between the 30th and the 4th of October, and decreasing everywhere on the 5th. It has been about the normal for the week, though at the close it was generally falling below the average.

Temperature.—Owing to the continued absence of general rain, temperature remained high. The excess was greatest (2·0°) in North Bengal, and was considerable in Orissa, South-West and East Bengal, North Behar and Assam, while it was slight in South Behar and Chutia Nagpur. The maxima have ranged between 93° and 97°, which is rather high for the time of year.

Rainfall—Has continued light. In North Behar there has been no rain, and in North Bengal only an insignificant amount. On the other hand, in South-West Bengal, the week's deficiency has been slight, and nearly the normal amount of rainfall has been received.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 5th of October 1888:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a maximum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

General remarks on the fluctuation of principal staples carried over the East Indian Railway during month ended 25th August 1888.

INCREASES.

Coal and coke.—The e was an increase in both upwards and downwards coal and coke traffic; that in the former is due to demands from foreign Railways, and the latter to despatches to Howrah for ocean steamers and for export.

Wheat.—Due to demand for export.

Jute, raw.—This is attributable to despatches from the Eastern Bengal State Railway to the jute mills in Calcutta and neighbourhood.

Minerals.—This is a continuation of the increase reported for several months past.

Oil.—This was chiefly in kerosine oil from Howrah.

Railway material, Foreign.—This increase was in short lead traffic for the Bengal-Nagpur Railway.

Saltpetre.—Due to despatches to Howrah for export.

Seeds.—The increase was chiefly in linseed and mustard seed—the former for export and the latter for local consumption.

Bones.—A continuation of the increase reported for several months consecutively.

Piece-goods, European.—This was principally in long distance traffic from Howrah to the North-Western Provinces and Punjab.

DECREASES.

Gram and pulses.—Due to absence of demand.

Rice (husked and unhusked).—The decrease was not important, and last year's despatches were particularly good.

Other rain and spring crops.—Due to heavy demand last year, owing to scarcity in Rajputana.

Brass and copper.—This is attributable to the continuance of high prices.

Salt.—This decrease was in imported salt.

Sugar, refined and unrefined.—This was principally in long lead traffic from Howrah and stations on the Dinapore district.

NOTIFICATION—EXAMINATIONS.

The 10th October 1888.

No. 69.—The following regulations respecting the Examination of Candidates for the Civil Service of India to be held in June 1889 are published for general information:—

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

REGULATIONS FOR THE OPEN COMPETITION OF JUNE 1889.

N.B.—The Regulations are liable to be altered in future years.

1. On the 1st June 1889, and following days, an Examination, open to all qualified persons, will be held in London (*a*). Not fewer than persons will be selected, if so many shall be found duly qualified; viz., for the Lower Provinces of Bengal (including Assam); for the Upper Provinces of Bengal (including the Punjab and Oudh); for Burmah; for Madras; and for Bombay (*b*).

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners—

(i) That he is a natural born subject of Her Majesty.

(ii) That his age will be above seventeen years and under nineteen years on the 1st January 1889. [*N.B.—In the case of Natives of India this must be certified by the Government of India or of the Presidency or Province in which the Candidate may have resided*]

(iii) That he has no disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Civil Service of India.

(iv) That he is of good moral character.

3. Should the evidence upon the above points be *primâ facie* satisfactory to the Civil Service Commissioners, the Candidate, on payment of the prescribed fee (*c*), will be admitted to the Examination. The Commissioners may however in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries in the case of any Candidate should be unsatisfactory to them in any of the above respects, he will be ineligible for admission to the Civil Service of India, and if already selected will be removed from the position of a Probationer.

(*a*) An order for admission to the Examination will be sent to each Candidate on the 18th of May.

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary (*g*), in order to secure that "a Candidate be allowed no credit at all for taking up a subject in which he is a mere smatterer."

7. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary.

8. The marks obtained by each Candidate, in respect of each of the subjects in which he shall have been examined, will be added up, and the names of the several Candidates who shall have obtained, after the deduction above-mentioned, a greater aggregate number of marks than any of the remaining Candidates will be set forth in order of merit, and such Candidates shall be deemed to be Selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the Selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not.
